## NutriBullet NBP003LBL

# NutriBullet Portable Blender NBP003LBL User Manual

Model: NBP003LBL | Brand: NutriBullet

## INTRODUCTION

---

Welcome to your NutriBullet Portable Blender NBP003LBL. This manual provides essential information for the safe and effective use, maintenance, and troubleshooting of your new portable blender. Please read all instructions carefully before first use and retain this manual for future reference.

## IMPORTANT SAFETY INFORMATION

---

Always follow basic safety precautions when using any electrical appliance to reduce the risk of fire, electric shock, personal injury, and property damage.

- Read all instructions before operating the blender.
- Keep the blender and its cord out of reach of children.
- Do not immerse the motor base in water or other liquids. Clean only with a damp cloth.
- Avoid contact with moving parts. Blades are sharp. Handle with extreme care.
- Ensure the blade assembly is securely tightened onto the cup before blending.
- Do not overfill the cup beyond the MAX fill line.
- Do not blend hot liquids, as pressure buildup can cause injury.
- Do not operate the blender if the cord or plug is damaged, or if the appliance malfunctions.
- Use only original NutriBullet accessories and parts.

## PRODUCT COMPONENTS

---

Your NutriBullet Portable Blender NBP003LBL includes the following main components:

- Blender Base with integrated motor and battery
- 4-Point Stainless Steel Blade Assembly
- 475ml BPA-Free Tritan Cup
- Travel Lid
- USB-C Charging Cable

Image: Multiple NutriBullet Portable Blenders in a kitchen setting, demonstrating their compact size and portability.

## SETUP

---

### 1. Initial Cleaning

1. Before first use, wash the Tritan cup, travel lid, and blade assembly with warm, soapy water. Rinse thoroughly.
2. Wipe the blender base with a damp cloth. Do not immerse the base in water.

### 2. Charging the Blender

The blender features a built-in rechargeable battery. For optimal performance, fully charge the blender before its first use.

1. Locate the USB-C charging port on the blender base.
2. Connect the provided USB-C cable to the charging port and the other end to a compatible USB power source (e.g., wall adapter, computer USB port).
3. The indicator light will show charging status (refer to the light indicators section for details).
4. A full charge provides over 15 blending cycles.

## OPERATING INSTRUCTIONS

---

## 1. Preparing Ingredients

- Cut all ingredients into small pieces (approximately 1-2 cm) to ensure smooth blending.
- For best results, add liquids first, then soft ingredients (e.g., spinach, berries), followed by harder ingredients (e.g., apples, carrots), and finally small amounts of ice or frozen fruit.

## 2. Assembling for Blending

1. Add your prepared ingredients to the 475ml Tritan cup. Do not exceed the MAX fill line indicated on the cup.
2. Place the blade assembly onto the open end of the cup. Twist clockwise until it is securely tightened. Ensure there are no gaps.
3. Invert the cup so the blade assembly is at the bottom and the blender base is upright.

## 3. Blending

1. Press the power button on the blender base to start blending. The blender will run for a pre-set cycle.
2. For optimal blending and to prevent ingredients from sticking, gently shake the blender during operation if needed.
3. The blender will automatically stop after the cycle is complete. You can press the button again to stop it manually or to initiate another cycle if desired.

## 4. After Blending

1. Carefully unscrew the blade assembly from the cup.
2. You can drink directly from the Tritan cup or attach the travel lid for on-the-go consumption.

## MAINTENANCE AND CLEANING

---

Regular cleaning ensures the longevity and hygienic operation of your NutriBullet Portable Blender.

### 1. Cleaning the Cup and Lid

- The Tritan cup and travel lid are dishwasher safe (top rack recommended).
- Alternatively, wash them with warm, soapy water and rinse thoroughly.

### 2. Cleaning the Blade Assembly

- **Caution: Blades are sharp. Handle with extreme care.**
- Wash the blade assembly immediately after use to prevent food from drying on the blades.
- Hand wash with warm, soapy water. Use a brush to clean around the blades without touching them directly.
- Rinse thoroughly and allow to air dry completely before storing.

### 3. Cleaning the Blender Base

- Wipe the blender base with a clean, damp cloth.
- Never immerse the blender base in water or any other liquid.
- Ensure the charging port is dry before connecting the USB-C cable.

### 4. Storage

Store the blender in a clean, dry place when not in use. Ensure all components are dry before storage.

## TROUBLESHOOTING

---

If you encounter any issues with your NutriBullet Portable Blender, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Blender does not start	Low battery; Cup not securely attached; Overload protection activated.	Charge the blender fully. Ensure the cup and blade assembly are tightly secured. Reduce ingredients if overloaded.
Poor blending results (chunky ingredients)	Too many ingredients; Not enough liquid; Ingredients too large.	Do not overfill. Add more liquid. Cut ingredients into smaller pieces. Shake gently during blending.
Blender stops unexpectedly	Low battery; Overload protection activated.	Recharge the blender. Reduce the amount of ingredients or add more liquid.
Battery not charging	USB-C cable not properly connected; Faulty cable/power source.	Ensure the USB-C cable is firmly connected to both the blender and a working power source. Try a different cable or power adapter.

## SPECIFICATIONS

Detailed technical specifications for the NutriBullet Portable Blender NBP003LBL:

Feature	Detail
Brand	NutriBullet
Model Number	NBP003LBL
Color	Light Blue
Dimensions (L x W x H)	9 x 9 x 26 cm
Weight	860 grams
Capacity	475 Milliliters
Power	15 Watts
Voltage	7.4 Volts
Material	Plastic, Tritan Plastic
Number of Speeds	4
Power Source	Battery Powered (USB-C rechargeable)
Battery Life	Over 15 blending cycles per charge
Components Included	Kneading blade (4-point stainless steel)

## WARRANTY AND SUPPORT

For detailed warranty information, product registration, or technical support, please refer to the documentation included with your purchase or visit the official NutriBullet website. You may also contact NutriBullet customer service directly for assistance with any product-related inquiries.
