## SETUP AND ASSEMBLY

---

Assembly is required for this TV cabinet. It is recommended that one person performs the assembly. Please follow these general steps:

- 1. Unpack and Identify Parts:** Carefully remove all components from the packaging. Lay them out on a clean, soft surface. Refer to the parts list (if provided in the physical manual) to ensure all pieces are present.
- 2. Attach Wheels:** Secure the four wheels to the bottom panel of the cabinet using the provided screws. Ensure they are firmly attached. If wheels have locking mechanisms, ensure they are in the unlocked position for initial movement.
- 3. Assemble Cabinet Frame:** Connect the side panels to the bottom panel, followed by any internal dividers. Use the appropriate screws and fasteners. Do not fully tighten all screws until the frame is stable.

4. **Install Drawer Slides:** Attach the drawer slides to the inner side panels of the cabinet according to the instructions. Ensure they are level and aligned.
5. **Assemble Drawers:** Construct the drawers by connecting the front, side, and back panels to the drawer bottom. Install the drawer handles onto the drawer fronts.
6. **Insert Drawers:** Carefully slide the assembled drawers onto the installed drawer slides. Test for smooth operation.
7. **Attach Top Panel:** Place the top panel onto the assembled frame and secure it with the remaining screws.
8. **Final Tightening:** Once the entire unit is assembled and stable, go back and fully tighten all screws and fasteners.

## OPERATING INSTRUCTIONS

---

- **Using Drawers:** Gently pull the drawer handles to open and push to close. Avoid forcing drawers, especially if they feel stiff. Ensure items are placed within the drawer's capacity and do not obstruct movement.
- **Using Shelves:** Place media devices, books, or decorative items on the open shelves. Ensure items do not exceed the shelf's weight capacity or dimensions.
- **Moving the Cabinet:** To move the cabinet, ensure any locking mechanisms on the wheels are disengaged. Push the cabinet gently from the base to roll it to the desired location. Once in position, engage the wheel locks to secure the cabinet and prevent accidental movement.

*This image shows the vidaXL Olive Green Metal TV Cabinet with both of its perforated drawers fully extended, providing a clear view of the internal storage capacity. The cabinet is equipped with wheels for easy mobility.*

## MAINTENANCE

---

- **Cleaning:** To clean the metal surfaces, simply wipe with a damp cloth. For stubborn marks, a mild soap solution can be used, followed by wiping with a clean, dry cloth. Avoid abrasive cleaners or harsh chemicals that could damage the matte finish.
- **Regular Checks:** Periodically inspect all screws and fasteners to ensure they remain tight. Re-tighten if necessary to maintain stability and safety.
- **Drawer Slides:** If drawers become stiff, a small amount of silicone-based lubricant can be applied to the drawer slides.

## TROUBLESHOOTING

---

- **Cabinet is Wobbly:** Ensure all assembly screws are fully tightened. Check that the cabinet is placed on a level surface. Adjust items inside for even weight distribution.

- **Drawers Not Sliding Smoothly:** Verify that the drawer slides are correctly installed and aligned. Check for any obstructions within the slides or the drawer compartment. Apply lubricant if needed.
- **Wheels Not Rolling/Locking:** Ensure the wheel locking mechanisms are correctly engaged or disengaged. Check for debris or hair caught in the wheels.
- **Scratches on Surface:** Minor scratches can sometimes be touched up with a matching olive green metal paint, if available. Prevent future scratches by using coasters or protective pads under items.
