Feegow AK585K V8

Feegow Replacement Filters for Akitas AK585K V8 Vacuum Cleaner

Instruction Manual

INTRODUCTION

These Feegow replacement filters are specifically designed for use with Akitas AK585K V8 vacuum cleaners. They are crucial for maintaining the vacuum's optimal performance by effectively filtering fine dust, dander, and other airborne particles from the air.

Regular replacement of your vacuum cleaner's filters ensures consistent suction power and a cleaner home environment.

PRODUCT FEATURES

- **Effective Filtration:** Designed to efficiently capture fine dust, dander, and other small particles, preventing them from recirculating into your home's air. The filter fibers attract and trap these particles as air passes through.
- **Durable Construction:** Made from high-quality plastic, ensuring robustness and long-lasting performance.
- **Optimal Dimensions:** Each cylindrical filter has a diameter of approximately 5.9 cm and a height of approximately 9.8 cm.
- **Compatibility:** Fully compatible with Akitas AK585K V8 vacuum cleaners, serving as a reliable replacement for the original Akitas 585K filter.

COMPATIBILITY

These replacement filters are compatible with the following vacuum cleaner models:

- Akitas AK585K V8
- Akitas 585K

SETUP AND INSTALLATION

Follow these general steps to replace the filters in your Akitas AK585K V8 vacuum cleaner. Always refer to your vacuum cleaner's specific user manual for detailed instructions if available.

1. **Power Off:** Ensure your vacuum cleaner is turned off and unplugged from the power outlet before beginning any maintenance.
2. **Locate Filter Compartment:** Identify the filter compartment on your Akitas AK585K V8 vacuum cleaner. This is typically located near the dustbin.
3. **Remove Old Filters:** Open the filter compartment. Carefully remove the old cylindrical pleated filter and the circular foam filter. Dispose of them responsibly.
4. **Insert New Filters:** Place the new circular foam filter into its designated slot, followed by the new cylindrical pleated filter. Ensure both filters are seated correctly and securely.
5. **Close Compartment:** Close the filter compartment cover firmly until it clicks into place.
6. **Resume Operation:** Plug in your vacuum cleaner and power it on.

MAINTENANCE

To ensure your Akitas AK585K V8 vacuum cleaner continues to operate at its best, regular filter maintenance is essential:

- **Replacement Schedule:** For optimal filtration performance, it is highly recommended to replace both the cylindrical and foam filters every 2 to 3 months. This schedule may vary depending on usage frequency and the level of dust and debris in your environment.
- **Non-Reusable:** These filters are designed for single-use and are not reusable. Attempting to wash or clean them for reuse may damage the filter material and reduce their effectiveness.

TROUBLESHOOTING

If you encounter issues with your vacuum cleaner's performance after filter replacement, consider the following:

- **Reduced Suction Power:** If suction power is noticeably reduced, ensure the new filters are correctly

installed and not obstructed. A heavily soiled filter, even if recently replaced, can also cause this if the vacuum is used in a very dusty environment.

- **Unusual Odors:** Persistent unusual odors during vacuum operation often indicate a dirty or old filter. Replace the filters if odors persist after a recent change.
- **Filter Not Seating Correctly:** Double-check that both the cylindrical and foam filters are fully seated in their respective compartments and that the compartment cover is securely closed.

SPECIFICATIONS

Product Dimensions (L x W x H)	9.8 x 5.9 x 9.8 cm
Material	Plastic
Compatible Devices	Akitas AK585K V8
Number of Pieces (in 3-pack)	3 sets (3 cylindrical filters, 3 foam filters)
Reusability	False (Not reusable)
Manufacturer Model Number	2NXIXQHV1UV869FVYW02CT55V9L20

WARRANTY AND SUPPORT

Specific warranty information for Feegow replacement filters is not provided in this manual. For details regarding product warranty, returns, or customer support, please refer to the seller's policies on the platform where the product was purchased or contact Feegow customer service directly.
