SETUP AND INITIAL PLACEMENT

Upon receiving your Merelax area rug, carefully unroll it in your desired location. Due to packaging, the rug may have temporary creases. Follow the steps below to flatten your rug for optimal appearance.

Removing Creases

1. **Roll the rug:** Roll the rug tightly in the opposite direction of the creases.
2. **Apply weight:** Place heavy objects evenly across the creased areas for 24-48 hours.
3. **Gentle rinse:** For stubborn creases, a gentle rinse with water can help relax the fibers. Ensure the rug is completely dry before placing it.

Placement Considerations

This versatile rug is suitable for various indoor spaces. Its low-pile design ensures it won't obstruct doors or catch on furniture. The non-slip rubber backing provides stability on most hard floor surfaces. For enhanced stability, especially in high-traffic areas, consider using a complementary rug pad.
