Rythflo LM01

Rythflo Wireless Lavalier Microphone User Manual

Model: LM01 Combo
For iPhone, Android, and PC

INTRODUCTION

Thank you for choosing the Rythflo Wireless Lavalier Microphone. This manual provides essential information for setting up, operating, and maintaining your device to ensure optimal performance. Designed for content creators, journalists, and anyone needing high-quality audio, this microphone delivers professional-grade sound in a user-friendly package.

WHAT'S IN THE BOX

- 2 x Microphone Transmitters & 2 x Furry Windscreen
- 1 x USB-C Receiver & 1 x Lightning Receiver
- 1 x USB-C Charging Cable
- 1 x Carry Case
- 1 x User Manual

SETUP GUIDE

1. Charging the Microphones

Before first use, ensure both microphone transmitters are fully charged. Connect the provided USB-C charging cable to the charging port on the transmitter and a compatible USB power source. The indicator light will show charging status.

Image: Visual representation of the microphone's battery life, indicating 9 hours on a single charge per mic and 18 hours total with two mics.

2. Connecting to Your Device

1. Identify the correct receiver for your device: use the Lightning receiver for iPhones/iPads or the USB-C receiver for Android phones/tablets/laptops.
2. Plug the appropriate receiver into your device's charging/data port.
3. Turn on the microphone transmitter by pressing and holding the power button. The indicator light on the transmitter will show its status.
4. The microphone and receiver should automatically pair. A solid blue light on the receiver indicates a successful connection.

Image: The microphone's universal compatibility, demonstrating connection with both USB-C (including iPhone 15 series) and Lightning port devices.

OPERATING INSTRUCTIONS

1. Basic Recording

Once connected, open your device's camera or recording application. The microphone will automatically be detected as the audio input source. Begin recording as usual.

2. Noise Cancellation

The microphone features professional noise-cancelling technology with a DSP chip and windscreen. To activate or deactivate noise cancellation, locate the dedicated button on the microphone transmitter and press it. This will help reduce ambient noise for clearer audio.

Image: A visual demonstration of the microphone's 2X Noise Cancelling capability, highlighting its DSP chip and furry windshields for up to 98% noise reduction.

3. Reverb and Mute Functions

- **Reverb Function:** Press the designated button to activate the reverb effect for a 3D, immersive sound experience. Press again to deactivate.
- **Mute Function:** Use the mute button for temporary audio cutoff during team communication, device setup, or other situations where you need to silence the microphone without turning off the system.

Power Beyond Imagination

Each little one has up tp 9 hrs of playtime

 **0.5 H**
0.5 hrs chargea = 3 hrs use

 **9H⁺**
1 charge = 9 hrs use

 **18H⁺**
18 hrs total

4. Transmission Range

Benefit from a stable 2.4G connection with up to 100 ft of wireless transmission. This allows for ultra-wide shots and recordings with super-low latency, minimizing lip-sync issues in post-production.

Image: The microphone's 100 ft transmission range, ensuring HD sound quality even from a distance with minimal delay.

MAINTENANCE

1. Charging

The microphone transmitters have a built-in 110 mAh rechargeable battery. A single charge provides up to 9 hours of use, or 18 hours total with two microphones. Recharge using the provided USB-C cable when the battery indicator is low.

2. Cleaning and Storage

Wipe the microphone and receivers with a soft, dry cloth. Avoid using harsh chemicals or abrasive materials. Store the microphone system in its provided carry case to protect it from dust and damage when not in use.

Troubleshooting

Problem	Possible Cause	Solution
No sound/Poor audio quality	Microphone not paired; Low battery; Obstruction in transmission path; Noise cancellation off/on incorrectly.	Ensure mic and receiver are on and paired (solid blue light). Charge microphone. Reduce distance or clear obstructions. Adjust noise cancellation setting.
Connection issues	Receiver not fully inserted; Device compatibility issue; Interference.	Ensure receiver is fully inserted. Verify device compatibility (Lightning/USB-C). Move away from other wireless devices.
Short battery life	Frequent use; Old battery.	Ensure full charge before use. If battery life significantly degrades, contact customer support.

Specifications

- **Model Name:** LM01 Combo
- **Connectivity Technology:** 2.4G Wireless
- **Connector Type:** USB Type-C, Lightning
- **Compatible Devices:** iPhone 15 & 16 series, Android, iPad, Laptop
- **Audio Sensitivity:** 42 dB
- **Frequency Range:** 20Hz-20Khz
- **Signal-to-Noise Ratio:** 80 dB
- **Battery Life:** 9 hours (single mic), 18 hours (dual mics)
- **Transmission Range:** 100 ft
- **Item Weight:** 3.2 ounces
- **Product Dimensions:** 3 x 2 x 1.2 inches
- **Material:** Acrylonitrile Butadiene Styrene
- **Color:** Black

Warranty and Support
