

KUTCHINA Scott 60

Kutchina Scott 60 Filterless Autoclean Chimney User Manual

Model: Scott 60

1. INTRODUCTION

This manual provides essential information for the safe and efficient operation, installation, and maintenance of your Kutchina Scott 60 Filterless Autoclean Chimney. Please read these instructions carefully before using the appliance and retain them for future reference.

2. SAFETY INSTRUCTIONS

Always adhere to basic safety precautions when using electrical appliances to reduce the risk of fire, electric shock, and injury.

- Ensure the power supply voltage matches the rating indicated on the chimney.
- Do not operate the chimney with a damaged cord or plug.
- Keep children away from the appliance during operation.
- Do not flambé under the chimney.
- Ensure adequate ventilation in the room when the chimney is used simultaneously with gas or other fuel-burning appliances.
- Regularly clean the chimney to prevent grease accumulation, which can be a fire hazard.
- Disconnect the power supply before any cleaning or maintenance.

3. PRODUCT OVERVIEW

The Kutchina Scott 60 is a filterless autoclean chimney designed for efficient kitchen ventilation. It features a powerful motor, advanced controls, and a sleek design.

Key Features:

- **Powerful Suction:** $1200 \pm 50 \text{ m}^3/\text{hr}$ for effective smoke and odor removal.
- **3rd Generation Dry Autoclean:** Automatic cleaning technology for hassle-free maintenance.
- **Touch Control & Wave Sensor:** Modern and convenient operation.
- **Low Noise Operation:** Operates at 58 dB for a peaceful cooking environment.
- **Energy-saving LED Lamps:** Illuminates the cooking area efficiently.
- **Oil Collector:** Collects oil and grease for easy disposal.
- **Durable Construction:** Mild steel body with curved glass design.

Components Included:

- Scott Kitchen Chimney Unit
- Installation Kit
- User Manual (this document)
- Warranty Book

4. SETUP AND INSTALLATION

The Kutchina Scott 60 chimney is designed for wall-mount installation. Professional installation is recommended to ensure proper functioning and safety.

Installation Process:

1. **Site Preparation:** Ensure the installation area on the wall is sturdy and can support the chimney's weight. Maintain appropriate distance from the cooking hob as per local regulations and manufacturer guidelines.
2. **Mounting:** Securely mount the chimney to the wall using the provided installation kit. Ensure it is level and stable.
3. **Ducting:** Connect the chimney to an external ventilation duct. Ensure the ducting is properly sealed to prevent air leakage and maximize suction efficiency.
4. **Electrical Connection:** Connect the chimney to a suitable 220V (AC), 50Hz power outlet. Ensure the connection is secure and grounded.

5. **Registration for Service:** For installation and demonstration services, please register by calling **18004197333**. Note that installation and demo services are chargeable, and any additional accessories not included in the package will be charged separately.

5. OPERATING INSTRUCTIONS

Your Kutchina Scott 60 chimney features intuitive touch controls and a wave sensor for easy operation.

Control Panel:

The control panel is located on the front of the chimney and includes touch-sensitive buttons for various functions.

Functions:

- **Power On/Off:** Touch the power icon to turn the chimney on or off.
- **Speed Control:** Adjust the suction speed (3 levels) by touching the fan speed icon. Higher speeds are recommended for heavy cooking.
- **LED Light:** Touch the light icon to turn the 1W LED lamp on or off, illuminating your cooking area.
- **Wave Sensor:** Utilize the wave sensor for hands-free operation. Wave your hand in front of the sensor to control basic functions like power or speed adjustment. Refer to the specific sensor gestures in the detailed manual for precise control.

- **Autoclean Function:** Activate the 3rd generation dry autoclean cycle by touching the dedicated autoclean button. This process helps to melt and collect grease.

6. MAINTENANCE

Regular maintenance ensures the longevity and optimal performance of your Kutchina Scott 60 chimney.

Autoclean Cycle:

- The 3rd generation dry autoclean technology uses a 56W heating element to melt accumulated grease.
- Activate the autoclean function regularly, typically after every 30-45 hours of operation or as needed based on cooking frequency.
- During the autoclean cycle, the melted grease flows into the removable oil collector.

Cleaning the Oil Collector:

- Periodically check the oil collector for grease accumulation.
- Carefully remove the oil collector from its housing.
- Empty the collected oil and wash the collector with warm, soapy water. Rinse thoroughly and dry before reinserting.

External Cleaning:

- Wipe the exterior surfaces of the chimney with a soft, damp cloth and mild detergent.
- Avoid abrasive cleaners or harsh chemicals that could damage the finish.
- Ensure the chimney is completely dry before resuming operation.

7. TROUBLESHOOTING

If you encounter issues with your Kutchina Scott 60 chimney, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Chimney does not turn on	No power supply; loose connection; faulty switch	Check power plug and circuit breaker; ensure connections are secure; contact service if switch is faulty.
Low suction power	Blocked ducting; oil collector full; motor issue	Check ducting for obstructions; empty and clean oil collector; contact service for motor inspection.
Unusual noise during operation	Loose components; motor imbalance; foreign object	Ensure all parts are secure; contact service for inspection.
Autoclean not functioning	Electrical issue; sensor malfunction	Check power supply; contact service for sensor or heating element inspection.

If the problem persists after attempting these solutions, please contact customer support.

8. SPECIFICATIONS

Feature	Specification
Brand	KUTCHINA
Model Number	Scott 60
Product Dimensions (D x W x H)	41.5D x 60W x 66.9H Centimeters
Colour	Black
Finish Type	Mild Steel Body with Curved Glass
Air Flow Capacity	1200 ± 50 Cubic Meters Per Hour
Noise Level	58 Decibels
Mounting Type	Wall Mount
Controls Type	Touch, Wave Sensor
Voltage	220 Volts (AC)
Number Of Speeds	3
Light Source	1W LED
Motor Wattage	130 Watts
Autoclean Wattage	56 Watts
Filter Type	Filterless Technology (Mesh for initial particle capture)
Frequency	50 Hz
Ventilation Type	Ducted
Material Type	Mild Steel
Item Weight	22 Kilograms

9. WARRANTY AND SUPPORT

Warranty Information:

- **Product Warranty:** 2 Years on the entire product.
- **Motor Warranty:** Lifetime warranty on the motor.

Please retain your purchase receipt for warranty claims.
