4. OPERATING INSTRUCTIONS

Once the LED light kit is fully installed and connected to a power source (battery box with batteries), simply activate the power switch on the battery box to turn the lights on or off. There are no complex operating modes; the lights are designed for continuous illumination.

5. MAINTENANCE

To ensure the longevity and optimal performance of your LED light kit:

- **Cleaning:** Gently dust the LED components and wires with a soft, dry cloth. Avoid using liquids or abrasive cleaners.
- **Handling:** Handle the model with care to prevent damage to the delicate wires and LED components.
- **Storage:** When not in use for extended periods, remove batteries from the battery box to prevent leakage. Store the model in a cool, dry place away from direct sunlight.

6. TROUBLESHOOTING

If you encounter issues with your LED light kit, consider the following troubleshooting steps:

Problem	Possible Cause	Solution
Lights do not turn on.	<ul style="list-style-type: none">◦ Incorrect battery installation.◦ Dead batteries.◦ Loose connection.◦ Power switch off.	<ul style="list-style-type: none">◦ Ensure batteries are inserted with correct polarity.◦ Replace with fresh batteries.◦ Check all wire connections to the battery box and between LED components.◦ Verify the power switch is in the "ON" position.
Some lights are not working.	<ul style="list-style-type: none">◦ Loose connection to a specific LED.◦ Damaged LED or wire.	<ul style="list-style-type: none">◦ Inspect connections for the non-working lights.◦ If a component is damaged, contact customer support for assistance.
