KUTCHINA Scott 90

Kutchina Scott 90 Filterless Autoclean Chimney User Manual

Model: Scott 90 | Brand: KUTCHINA

1. INTRODUCTION

This manual provides essential information for the safe and efficient operation, installation, and maintenance of your Kutchina Scott 90 Filterless Autoclean Chimney. Please read these instructions carefully before using the appliance and retain them for future reference.

The Kutchina Scott 90 is a modern kitchen chimney designed to effectively remove cooking fumes and odors. It features a powerful 1200 m³/hr suction capacity, 3rd generation dry autoclean technology, touch controls, and a wave sensor for convenient operation.

2. IMPORTANT SAFETY INSTRUCTIONS

To reduce the risk of fire, electric shock, or injury, observe the following:

- Ensure the power supply voltage matches the rating indicated on the appliance.
- Do not operate the chimney if the power cord or plug is damaged.
- Installation must be performed by qualified personnel in accordance with local regulations and this manual.
- Maintain adequate ventilation in the room when the chimney is used simultaneously with gas or other fuel-burning appliances.
- Never leave frying food unattended, as grease can ignite.
- Clean the chimney regularly to prevent grease accumulation.
- Do not flambé under the chimney.
- This appliance is not intended for use by persons (including children) with reduced physical, sensory or

mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.

3. WHAT'S IN THE BOX

Carefully unpack the box and ensure all components are present:

- Scott Kitchen Chimney
- Installation Kit
- Warranty Book
- User Manual

4. INSTALLATION

The Kutchina Scott 90 Chimney is designed for wall-mount installation. For optimal performance and safety, professional installation is strongly recommended.

Installation Service: To register for installation, please contact Kutchina customer service at **18004197333**.

Please note that installation and demonstration services are chargeable. Any additional accessories not included in the standard package will also be charged separately.

5. OPERATING INSTRUCTIONS

Your Kutchina Scott 90 Chimney features intuitive touch controls and a wave sensor for ease of use.

5.1. Power On/Off

Press the power symbol on the touch control panel to turn the chimney on or off.

5.2. Suction Speed Control

The chimney offers 3 speed settings to adjust suction power according to your cooking needs. Use the speed control buttons on the touch panel to cycle through low, medium, and high settings.

5.3. Touch Control Operation

The control panel is equipped with sensitive touch buttons for various functions, including power, speed adjustment, and light control. Gently tap the desired icon to activate the function.

5.4. Wave Sensor Operation

For hands-free operation, the chimney includes a wave sensor. Simply wave your hand in front of the sensor area to activate or adjust certain functions, such as turning the chimney on/off or changing suction speed. Refer to the specific icons on the control panel for wave sensor compatible functions.

5.5. LED Lamp Control

The chimney is equipped with a 1W bright LED lamp to illuminate your cooking area. Press the light symbol on the touch control panel to turn the light on or off.

6. MAINTENANCE

Regular maintenance ensures the longevity and optimal performance of your Kutchina Scott 90 Chimney.

6.1. 3rd Generation Dry Autoclean Function

The chimney features an advanced 3rd generation dry autoclean technology. To activate, press the 'Autoclean' button on the control panel. This function heats the internal components to melt and collect grease, ensuring hassle-free maintenance. It is recommended to run the autoclean cycle periodically, depending on your cooking frequency.

6.2. Oil Collector Cleaning

The melted grease from the autoclean cycle is collected in a removable oil collector tray. Regularly check and empty this tray. To clean, carefully remove the oil collector, dispose of the grease, and wash the tray with warm soapy water. Ensure it is completely dry before reinserting.

6.3. General Cleaning

- Wipe the exterior surfaces of the chimney with a soft cloth dampened with mild detergent. Do not use abrasive cleaners or harsh chemicals.
- Ensure the chimney is switched off and unplugged before any cleaning.
- Clean the LED lamp cover gently if it becomes dirty.

7. TROUBLESHOOTING

If you encounter issues with your chimney, refer to the following common problems and solutions:

- **Chimney not turning on:** Check if the power cord is securely plugged in and if there is power to the outlet. Ensure the main power switch is on.
- **Low suction power:** Verify that the oil collector is not full and is properly inserted. Ensure the autoclean cycle has been performed recently. Check for any obstructions in the ducting (if ducted).
- **Unusual noise:** Ensure the chimney is securely mounted. Check for any loose parts or foreign objects inside the chimney.
- **Controls not responding:** Ensure the control panel is clean and dry. If the issue persists, try resetting the power by unplugging and re-plugging the chimney after a few minutes.

For persistent issues or problems not listed here, please contact Kutchina customer support.

8. PRODUCT SPECIFICATIONS

Feature	Specification
Brand	KUTCHINA
Model Number	Scott
Product Dimensions (D x W x H)	41.5D x 90W x 66.9H Centimeters
