Sungod X11

User Manual: 180K RPM Super Power Electric Air Duster

Brand: Sungod

Model: X11

Introduction

The Sungod X11 Electric Air Duster is a powerful and efficient cleaning tool designed to replace traditional canned air. With its high-speed motor and versatile attachments, it provides a sustainable and effective solution for removing dust, dirt, and debris from various surfaces and devices. This manual provides essential information for the safe and optimal use, setup, operation, and maintenance of your new air duster.

Package Contents

Please ensure all items are present in your package:

- 1 x Sungod X11 Electric Air Duster Unit
- 1 x USB-C Charging Cable
- 2 x Nozzles (e.g., Turbo Nozzle, Wide Nozzle)
- 1 x Multi-Piece Brush Set (various brush types for different cleaning needs)
- 1 x Carrying Bag
- 1 x Lanyard/Wrist Strap
- 1 x User Manual (this document)

Product Features

Super Powerful & Efficient Cleaning

The Sungod X11 delivers an impressive 180,000 RPM, generating a strong 200g blowing force. This allows it to effortlessly remove dust, dirt, and debris from keyboards, electronics, car interiors, and more. It is ideal for precision cleaning tasks and reaching hard-to-access areas.

Image: Internal view highlighting the powerful brushless motor with 180K RPM rotational speed and 200G wind pressure.

Multi-Use & Versatile Design

This compressed air duster offers three adjustable airflow settings, making it suitable for a wide variety of tasks. It can be used for cleaning electronic devices, removing leaves and snow from outdoor areas, and even for car washing and drying.

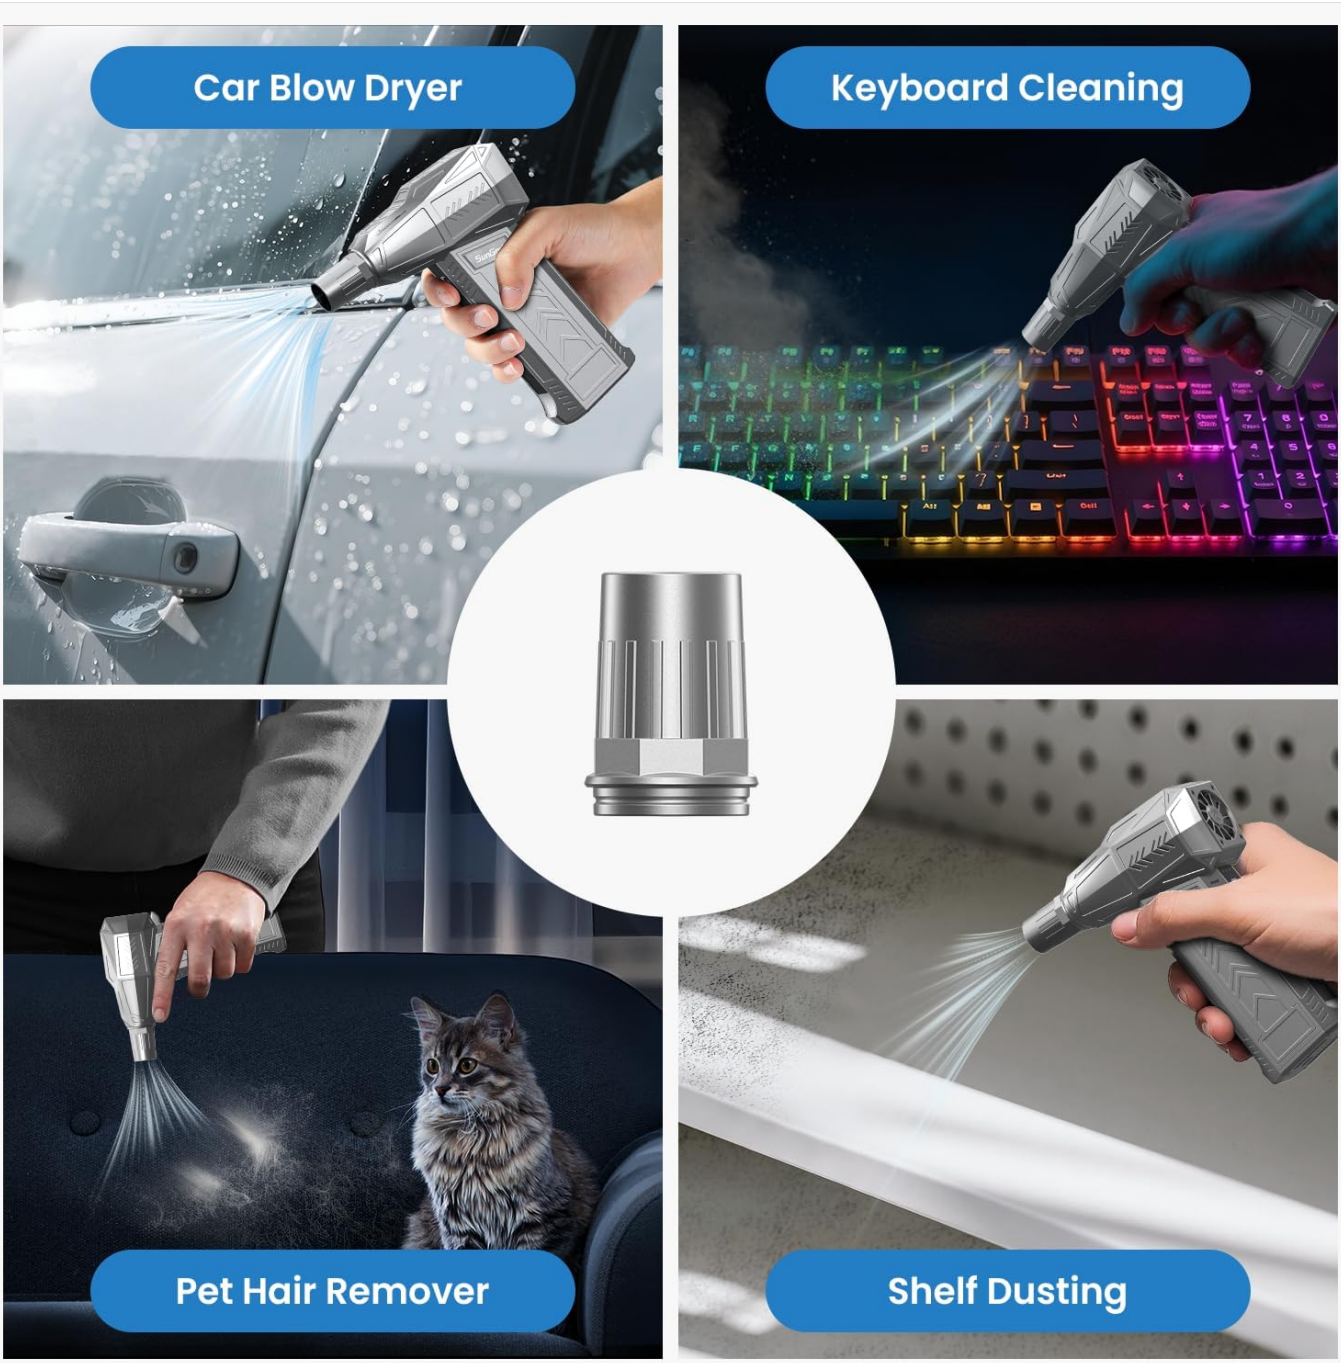

Image: Examples of multi-use applications including car blow drying, keyboard cleaning, pet hair removal, and shelf dusting.

Image: Further versatile uses such as leaf blowing, snow clearing, fire starting, and outdoor air inflation.

Cost-Efficient & Reusable

The Electric Air Duster is rechargeable and reusable over 800 times, providing an environmentally friendly and economical alternative to disposable canned air. Constructed from durable ABS materials, it is built for longevity with a battery life exceeding 2 years.

Fast Charging & Long Battery Life

The unit supports 10W fast charging, allowing it to be fully charged in approximately 2 to 2.5 hours. Its 2S 3000mAh 33C LiPo battery ensures extended runtime and features smart temperature management for stable performance during operation.

Compact & Portable

Weighing only 0.68 lb (approximately 306 grams), the air duster features an ergonomic design for a comfortable grip and easy portability. It is suitable for various applications including car maintenance, home cleaning, outdoor adventures, camping, and inflating products.

Setup

Initial Charging

Before first use, it is recommended to fully charge the air duster. Connect the provided USB-C charging cable to the charging port located at the bottom of the unit and plug the other end into a compatible 10W fast charging adapter (not included) or a USB port. The indicator lights will show charging progress. A full charge typically takes 2 to 2.5 hours.

Attaching Nozzles and Brushes

Select the appropriate nozzle or brush for your cleaning task. Align the chosen attachment with the air outlet at the front of the duster and twist gently to secure it. The multi-piece brush set can be used independently or in conjunction with the nozzles for enhanced cleaning.

Operating Instructions

Power On/Off and Speed Adjustment

1. To power on the device, press and hold the power button located on the side of the handle. The indicator lights will illuminate.
2. The air duster features three adjustable airflow settings. Press the power button repeatedly to cycle through the speeds:
    - One light: Low speed
    - Two lights: Medium speed
    - Three lights: High speed

3. For the highest power setting, press and hold the trigger button located on the front of the handle. Release the button to stop the airflow.
4. To power off the device, press and hold the power button until the indicator lights turn off.

Recommended Usage

Choose the appropriate speed and nozzle for your task:

- **Electronics Cleaning:** Use low to medium speed with a precision nozzle or brush for delicate electronics like keyboards, camera lenses, and circuit boards.
- **Car Interior:** Medium to high speed for car vents, dashboards, and seat crevices.
- **Outdoor Use:** High speed for blowing leaves, clearing snow from small areas, or assisting with fire starting.
- **Inflation:** Use appropriate nozzle for inflating small inflatables.

Maintenance

Cleaning the Unit

To maintain optimal performance, regularly wipe down the exterior of the air duster with a soft, dry cloth. Ensure the air intake and outlet are free from obstructions. Do not submerge the unit in water or use harsh chemicals for cleaning.

Battery Care

The built-in LiPo battery is designed for long life. For best results, avoid completely draining the battery before recharging. Store the unit in a cool, dry place when not in use for extended periods. The smart temperature management system helps prevent overheating during operation and charging.

Troubleshooting

- **Unit not turning on:**
  - Ensure the battery is charged. Connect to the charger and check indicator lights.
  - Press and hold the power button for a few seconds to ensure it's properly activated.
- **Weak airflow:**
  - Check battery level; recharge if low.
  - Ensure no obstructions are blocking the air intake or outlet.
  - Verify the correct nozzle is attached securely.
- **Unusual noise during operation:**
  - Turn off the unit immediately.
  - Check for any foreign objects lodged in the fan or air pathways.
  - If the issue persists, contact customer support.

Specifications

Brand	Sungod
Model Number	X11
Rotational Speed	Up to 180,000 RPM
Blowing Force	200g
Battery Type	2S 3000mAh 33C LiPo Battery
Charging Time	Approx. 2-2.5 hours (with 10W fast charging)
Weight	0.68 lb (approx. 306 grams)
Product Dimensions	3.9 x 3.9 x 6.38 inches
Material	Durable ABS
Color	Silver Gray
