1. INTRODUCTION

Thank you for purchasing the FUNAURORE 7-inch Portable CarPlay/Android Auto Screen. This device is designed to enhance your driving experience by bringing advanced smartphone integration, navigation, and entertainment features to any vehicle. With wireless CarPlay and Android Auto, mirror link capabilities, and multiple audio output options, this screen provides a convenient and safe way to access your phone's functions on the road.

This manual provides detailed instructions for installation, operation, and maintenance of your new device. Please read it thoroughly before use to ensure proper functionality and safety.

2. SAFETY INFORMATION

- Always operate the device responsibly and in accordance with local traffic laws and regulations.
- Do not attempt to install or service the device while driving.
- Ensure the device is securely mounted and does not obstruct your view of the road or interfere with vehicle controls.
- Avoid prolonged exposure to direct sunlight or extreme temperatures, as this may damage the device.
- Keep the device away from water and other liquids.
- Use only the provided power cable and accessories to prevent damage or fire hazards.
- If you experience any issues, refer to the troubleshooting section or contact customer support.

3. WHAT'S IN THE BOX

Please check the package contents to ensure all items are present and in good condition:

- 1 x 7-inch Portable Touch Screen

- 1 x Back-up Camera
- 1 x Adhesive Mount
- 1 x Power Cable
- 1 x AUX Cable
- 1 x User Manual

4. PRODUCT OVERVIEW

The FUNAURORE portable screen features a compact design with essential ports for connectivity and power.

Main Unit Features:

- **7-inch HD Touch Screen:** High-resolution display for clear visuals and intuitive control.
- **Screen-off Key:** Button to turn off the display while the device remains powered on.
- **AUX Port:** For wired audio output to your car's audio system.

- **TF Card Slot:** For media playback from a memory card.
- **AV IN:** Video input for the backup camera.
- **Type-C Power Port:** For connecting the power cable.

5. SETUP AND INSTALLATION

The FUNAURORE portable screen is designed for easy installation without requiring professional skills or complex wiring.

5.1 Mounting the Device

1. Choose a suitable location on your dashboard console that does not obstruct your view or interfere with airbags.
2. Clean the mounting surface thoroughly to ensure proper adhesion.
3. Attach the adhesive mount to the back of the portable screen.
4. Securely fix the screen with the attached mount to the chosen location on your dashboard. The rotatable suction cup mount allows for flexible positioning.

- ✓ Easy to Install
- ✓ Fit All Cars
- ✓ With Backup Camera
- ✓ No Installation Skills Required
- ✗ Need Hassle wires
- ✗ Some Cars Not Suitable
- ✗ No Backup Camera
- ✗ Extra Cost for Professional Installation

5.2 Connecting Power

1. Connect the provided power cable to the Type-C power port on the portable screen.
2. Plug the other end of the power cable into your vehicle's 12V-24V power outlet (cigarette lighter socket).
3. The device will power on automatically or can be turned on using the power button.

5.3 Backup Camera Installation (Optional)

For enhanced safety, you can install the included HD rearview camera.

1. Mount the backup camera at the rear of your vehicle, ensuring a clear view. It is waterproof and supports night vision.
2. Connect the camera's video output cable to the AV IN port on the portable screen.
3. Connect the camera's power cable to your vehicle's reverse light power supply. This will allow the camera image to automatically display on the screen when reversing.

HD 1080P Backup Camera

6. OPERATING INSTRUCTIONS

6.1 Power On/Off

- The device typically powers on automatically when connected to your vehicle's power outlet.
- To turn off the screen while keeping the device powered, press the "Screen-off key". Press it again to turn the screen back on.
- To completely power off the device, disconnect it from the power source.

6.2 Wireless CarPlay & Android Auto

Connect your smartphone wirelessly to access navigation, music, calls, and more.

1. Ensure Bluetooth and Wi-Fi are enabled on your smartphone.

2. On the portable screen, navigate to the CarPlay or Android Auto icon.
3. Follow the on-screen prompts to pair your phone via Bluetooth.
4. Once paired, the device will automatically establish a Wi-Fi connection for CarPlay or Android Auto functionality.
5. You can now access compatible apps, make calls, send messages, and use navigation directly from the 7-inch touch screen.

Image: The portable screen showcasing the CarPlay interface, allowing access to navigation, voice commands, music, and video applications while driving.

6.3 Wireless Mirror Link Function

Mirror your smartphone's screen directly onto the portable display for viewing content like videos.

1. Select the "Mirror Link" option on the portable screen.
2. Follow the specific instructions for your iOS or Android device to enable screen mirroring (e.g., AirPlay for iOS, Cast for Android).
3. Your phone's screen will now be displayed on the 7-inch screen, supporting up to 1080P videos.

Wireless Mirror Link Function

For all IOS/Android Auto Phones

6.4 Audio Output Modes

The device offers multiple ways to output audio to your car's sound system.

- **Built-in Speaker:** For basic audio output directly from the unit.
- **Bluetooth:** Connect the portable screen to your car's Bluetooth audio system for improved sound quality.
- **AUX Connection:** Use the provided AUX cable to connect the portable screen's AUX port to your car's AUX input.
- **FM Transmitter:** Tune the portable screen to an unused FM frequency, then tune your car's radio to the same frequency to transmit audio wirelessly.

Four Sound Output Mode

Image: A visual guide to the four available audio output modes: built-in speaker, Bluetooth, AUX connection, and FM transmitter, demonstrating how audio can be routed.

6.5 Voice Control (Siri/Google Assistant)

Once connected via CarPlay or Android Auto, you can use voice commands for hands-free operation.

- Activate Siri (for Apple CarPlay) or Google Assistant (for Android Auto) by saying "Hey Siri" or "Hey Google", or by pressing the voice command button on the screen (if available).
- You can then issue commands for navigation, making calls, sending messages, playing music, and more.

6.6 Backup Camera Usage

If the backup camera is installed and wired correctly, it will automatically activate when you shift your vehicle into reverse.

- The screen will automatically switch to the rearview camera feed, providing a clear view of the area behind your vehicle.
- Parking guidelines will appear on the screen to assist with safe parking.

7. MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the screen and exterior of the device. For stubborn smudges, lightly dampen the cloth with water or a screen-safe cleaner. Do not use abrasive cleaners or solvents.
- **Storage:** If storing the device for an extended period, disconnect it from power and store it in a cool, dry place away from direct sunlight.
- **Cable Care:** Avoid bending or crimping cables excessively to prevent damage.

8. TROUBLESHOOTING

Problem	Possible Cause	Solution
Device does not power on.	No power connection; faulty power cable; vehicle's power outlet issue.	Check power cable connection; ensure vehicle's power outlet is working; try a different power source if available.
Wireless CarPlay/Android Auto not connecting.	Bluetooth/Wi-Fi off on phone; incorrect pairing; interference.	Ensure Bluetooth and Wi-Fi are on; delete previous pairings and re-pair; restart both phone and device.
No audio output or poor sound quality.	Incorrect audio output mode selected; FM frequency interference; loose AUX cable.	Verify selected audio mode (Bluetooth, AUX, FM); try a different FM frequency; check AUX cable connection.
Backup camera not displaying.	Camera not powered; incorrect AV IN connection; vehicle not in reverse.	Check camera power connection to reverse light; ensure AV IN cable is securely connected; confirm vehicle is in reverse.
Screen is unresponsive or lagging.	Temporary software glitch; too many background processes on phone.	Restart the device; close unnecessary apps on your smartphone.
