## 4.9 Suitable Floor Types

The Lefant LS100 is suitable for various hard floor surfaces, including tile, parquet, and marble.

## 5. MAINTENANCE

### 5.1 Self-Cleaning Function

After use, place the vacuum cleaner on its charging base and press the self-cleaning button. The device will automatically clean the brush roll, ensuring it is ready for the next use.

### 5.2 Emptying and Cleaning the Dirty Water Tank

Regularly empty and rinse the dirty water tank after each use to prevent odors and bacterial growth. Ensure it is completely dry before re-installing.

### 5.3 Cleaning Brush Rolls

Periodically remove the brush rolls and clean them with the provided cleaning brush to remove any tangled hair or

debris. Replace them if they show signs of wear.

### 5.4 Filter Maintenance

Clean the filter regularly according to the instructions in the manual to maintain optimal suction and cleaning performance. Replace the filter when necessary.

## 6. TROUBLESHOOTING

If you encounter any issues with your Lefant LS100, please refer to the following common troubleshooting steps:

- **Device not turning on:** Ensure the battery is charged. Check if the power button is pressed correctly.
- **Poor cleaning performance:** Check if the clean water tank is filled and the dirty water tank is empty. Clean the brush roll and filter.
- **Unusual noise:** Inspect the brush roll for any obstructions. Ensure all components are correctly assembled.
- **Water leakage:** Verify that both water tanks are properly sealed and installed.
