NexiPro Snow Melting Mat Instruction Manual

Model: 1PC1030INBK

1. Introduction

Welcome to your NexiPro Snow Melting Mat. This manual provides essential information for the safe and efficient setup, operation, and maintenance of your heated outdoor mat. Designed to keep walkways, decks, and sidewalks clear of snow and ice, this mat offers a reliable solution for winter safety.

2. Setup Instructions

2.1 Unpacking and Inspection

Carefully remove the mat from its packaging. Inspect the mat and power cord for any signs of damage. Do not use if damaged.

2.2 Placement

Position the snow melting mat on the desired surface, such as stairs, steps, doorways, walkways, or driveways. Ensure the mat lies flat and is securely placed to prevent movement.

2.3 Connecting Multiple Mats (If Applicable)

For larger areas, multiple NexiPro snow melting mats can be connected to create a custom snow-melting system.

1. Align the mats end-to-end or side-by-side as needed.
2. Connect the power cords using the provided waterproof connectors. Ensure connections are secure and fully sealed to prevent moisture ingress.

2.4 Power Connection

Plug the mat's power cord into a standard outdoor-rated, Ground Fault Circuit Interrupter (GFCI) protected electrical outlet. Ensure the outlet is suitable for outdoor use and protected from direct water exposure.

3. Operating Instructions

3.1 Activation

Once plugged in, the mat will begin to heat and melt snow and ice. The mat is designed to melt approximately 2 inches of snow per hour.

4. Maintenance

4.1 Cleaning

To clean the mat, unplug it from the power source. Use a damp cloth to wipe away any dirt or debris. Do not use abrasive cleaners or solvents.

4.2 Storage

When not in use, ensure the mat is clean and dry. Roll it up for compact storage in a dry location. Its lightweight and portable design makes storage convenient.

5. Troubleshooting

5.1 Mat Not Heating

1. Check if the mat is securely plugged into a working GFCI outlet.
2. Verify that the GFCI outlet has not tripped. Reset if necessary.
3. Ensure all connections between multiple mats (if applicable) are secure and properly sealed.
4. Inspect the power cord and mat for any visible damage. If damaged, discontinue use and contact customer support.

5.2 GFCI Outlet Trips Frequently

Frequent GFCI tripping can indicate an electrical issue.

1. Ensure the outlet is not overloaded with other devices.
2. Check for any moisture in the connections or on the mat itself. Ensure all connections are dry and sealed.

3. If the issue persists, discontinue use and consult a qualified electrician or contact NexiPro customer service.
