SAFETY INFORMATION

- **Age Recommendation:** This product is recommended for ages 36 months to 12 years.
- **Choking Hazard:** Not suitable for children under three years of age due to small parts.
- **Battery Safety:** Use only specified batteries. Do not mix old and new batteries. Ensure correct polarity. Remove batteries if the product is not used for an extended period.
- **Supervision:** Adult supervision is recommended during operation.
- **Operating Environment:** Avoid operating near water, on uneven surfaces, or in crowded areas to prevent accidents.
- **Material:** Made from durable ABS material, certified by CPSC for safety.

WHAT'S IN THE BOX

- 1 x AEROQUEST Lamborghini Remote Control Car (1:14 Scale)
- 1 x Remote Controller

- 2 x Rechargeable Batteries (for the car)
- 1 x USB Charging Cable (for car batteries)
- 2 x AA Batteries (for the remote controller)
- 1 x Small Screwdriver (for battery compartments)

SETUP

1. Car Battery Installation & Charging

1. Locate the battery compartment on the underside of the car.
2. Use the provided screwdriver to open the battery compartment cover.
3. Connect one of the rechargeable battery packs to the car's internal connector, ensuring correct polarity.
4. Place the battery pack inside the compartment and close the cover securely with the screwdriver.
5. To charge the car batteries, connect the USB charging cable to the battery pack and a suitable USB power source. The indicator light on the charger will show charging status.
6. Allow approximately 2-3 hours for a full charge. Each battery provides up to 25 minutes of playtime.

Image: Two blue rechargeable batteries are shown alongside the remote control car, highlighting the dual battery system

for extended play.

2. Remote Controller Battery Installation

1. Locate the battery compartment on the back of the remote controller.
2. Open the cover and insert the two AA batteries, observing the correct polarity (+/-).
3. Close the battery compartment cover.

Image: The remote controller is displayed, showing its speed adjustment dial and the battery compartment for AA batteries.

OPERATING INSTRUCTIONS

1. **Power On:** Turn on the car using the switch on its underside. Turn on the remote controller using its power switch. The indicator light on the remote will illuminate.
2. **Pairing:** The car and remote should automatically pair. If not, turn both off and on again.
3. **Forward/Backward:** Use the trigger on the remote to move the car forward (pull) or backward (push).
4. **Steering:** Use the steering wheel on the remote to turn the car left or right.
5. **Speed Control:** The car features adjustable speed settings from 1 to 15 km/h. Adjust the speed

using the dial on the remote controller.

6. **Lights:** Headlights illuminate when moving forward, and taillights illuminate when reversing or braking.
7. **Range:** The remote control has a range of up to 100 feet (approximately 30 meters).

MAINTENANCE

- **Cleaning:** Wipe the car and remote with a soft, dry cloth. Do not use water or chemical cleaners.
- **Storage:** Store the product in a cool, dry place away from direct sunlight when not in use. Remove batteries from both the car and remote for long-term storage.
- **Battery Care:** Do not overcharge batteries. Allow them to cool before recharging.

TROUBLESHOOTING

- **Car Not Responding:**
 - Ensure both the car and remote are powered on.
 - Check if batteries are correctly installed and charged in both devices.
 - Try re-pairing by turning both devices off and on again.
- **Short Operating Time:**
 - Ensure batteries are fully charged.

- Battery life may decrease over time with repeated use and charging cycles.
- **Poor Control Range:**
 - Ensure there are no obstructions between the remote and the car.
 - Avoid operating near other electronic devices that may cause interference.

SPECIFICATIONS

Attribute	Value
Product Dimensions	5.51 x 3.07 x 14.17 inches
