

JALL PH01-B

JALL 16" Large Digital Wall Mount Clock

Model: PH01-B

INTRODUCTION

This manual provides detailed instructions for the setup, operation, and maintenance of your JALL 16-inch Large Digital Wall Mount Clock. Please read this manual thoroughly before using the product to ensure proper functionality and longevity.

KEY FEATURES

- **16-Inch Large Vibrant Display:** Measures 15.35 inches wide and 5.11 inches high, offering up to 8 vivid colors (4 solid and 4 RGB) for easy readability from a distance.
- **Cozy Night Light:** Equipped with a night light at the base for ambient illumination.
- **Versatile Wall-Mount and Desktop Design:** Can be mounted on a wall or placed on a desk/table.
- **Automatic DST and Brightness Adjustment:** Automatically updates for Daylight Saving Time and adjusts display brightness via a built-in light sensor.
- **Countdown Timer:** Features a countdown function suitable for various activities (0 to 99 minutes).
- **Internal Memory Battery:** Retains settings during power outages (requires plug-in power for operation).

PACKAGE CONTENTS

- JALL 16" Large Digital Wall Mount Clock (Model: PH01-B)
- 5V/2A Power Adapter
- 11.5-foot Power Cord
- User Manual (this document)

SETUP

1. Power Connection

Connect the provided 5V/2A power adapter to the clock's power input port and then plug it into a standard electrical outlet. The clock is not battery-operated for its main functions and requires continuous power.

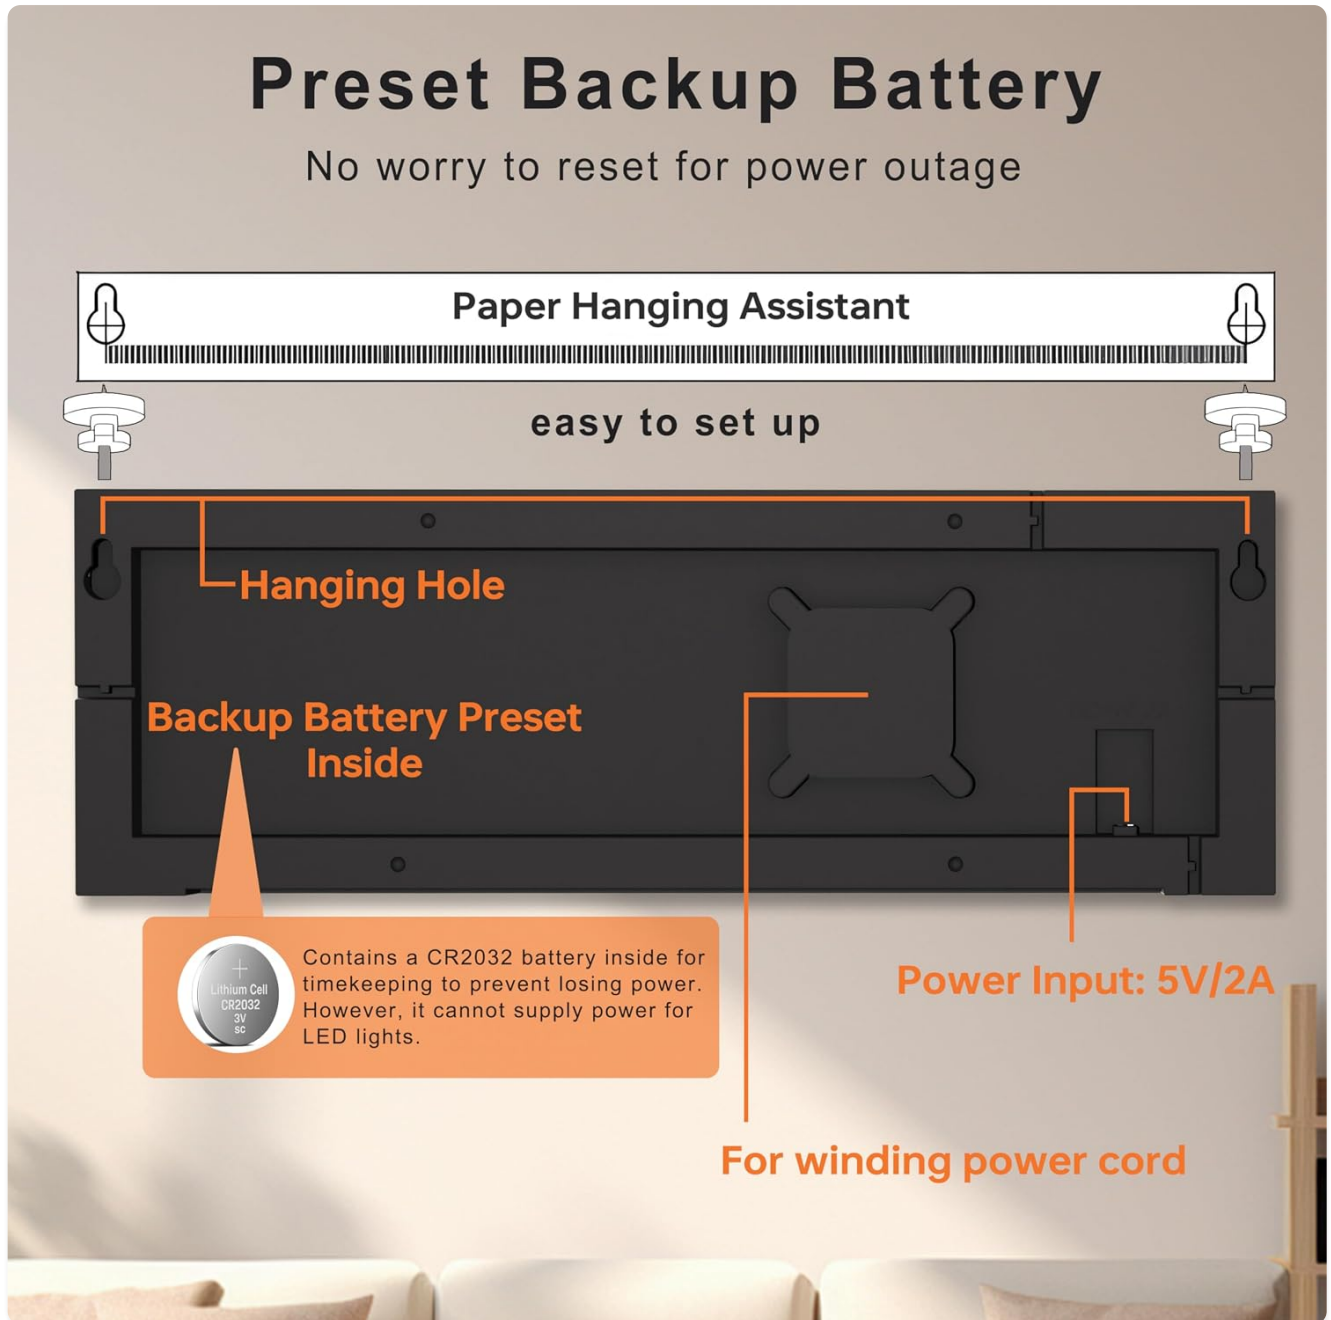

Image: Rear view of the JALL digital clock, highlighting the power input (5V/2A) and the internal CR2032 backup battery compartment. The backup battery is for timekeeping memory during power outages, not for powering the display.

2. Backup Battery (Internal)

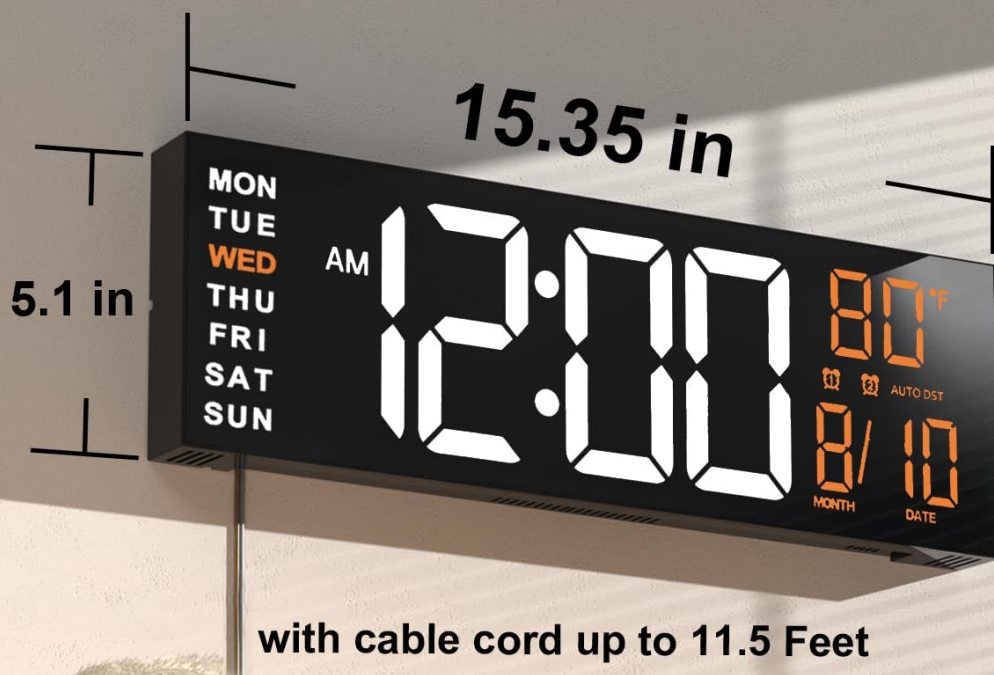

The clock contains an internal CR2032 battery. This battery is pre-installed and serves to retain time and settings in case of a power outage. It does not power the LED display.

3. Placement Options

The clock can be placed on a desk or table, or mounted on a wall using the integrated hanging holes. A paper hanging assistant is included to aid in wall mounting.

16'' Large & Clear Display

Clearly to see the time from any angle

Up to 9'' time display

Suitable for old people and children.

OPERATING INSTRUCTIONS

1. Initial Power On

Once connected to power, the clock will automatically turn on. The display will show the current time, day, month, date, and temperature.

Image: The JALL 16-inch digital clock showcasing its clear display with time, day, date, and temperature, illuminated by a warm orange backlight.

2. Setting Time and Date

Refer to the specific buttons on the clock or the included remote control (if applicable) for time and date adjustment. Typically, a 'MODE' button is used to cycle through settings (Time, Date, Alarm), and 'UP'/'DOWN' buttons are used to adjust values. The clock supports 12H/24H format.

3. Color Modes Display

The clock offers 8 vibrant color modes, including 4 solid colors and 4 RGB changing colors. Use the designated button (e.g., 'COLOR' or 'RGB') to cycle through these options and select your preferred display color.

4. Alarm Function

The clock includes an alarm function. To set the alarm, press the 'MODE' button until the alarm setting appears. Use the 'UP'/'DOWN' buttons to set the desired alarm time. Follow the instructions to enable or disable the alarm. The clock supports dual alarms.

5. Countdown Timer

Activate the countdown timer function to set a duration from 0 to 99 minutes. This feature is useful for various activities such as yoga, gym workouts, office tasks, or classroom activities. Consult the manual or product interface for specific steps to initiate and manage the countdown.

Count-down Timer

Suitable for yoga, gym, office, classroom

6. Automatic DST and Brightness Adjustment

The clock is designed to automatically update for Daylight Saving Time in March and November, eliminating the need for manual adjustments. Additionally, a built-in light sensor automatically adjusts the display brightness for optimal viewing in different lighting conditions. This auto-dimming feature helps protect your eyes.

Auto DST

No more annoying to change time in spring and autumn.

 **+1H** Spring Forward

 **-1H** Fall Back

Auto Dimming

Auto adjust brightness according to the ambient light to protect your eyes

Image: This image demonstrates the auto-dimming capability of the clock, showing how its display brightness adapts to ambient light conditions for comfortable viewing day or night.

7. Warm Night Light

The integrated night light at the base of the clock provides a cozy ambiance and sufficient illumination for navigating in low-light conditions without needing brighter lights. The night light typically has adjustable brightness levels.

Warm Night Light

10 brightness Level adjustable

8. Temperature Display

The clock displays the ambient temperature. You can typically switch between Fahrenheit (°F) and Celsius (°C) units using a dedicated button or through the settings menu.

MAINTENANCE

To maintain your JALL Digital Wall Mount Clock, regularly wipe the display and casing with a soft, dry cloth. Avoid using abrasive cleaners, solvents, or strong chemicals, as these can damage the surface. Ensure the power cord is not kinked or damaged.

TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Clock does not power on.	No power supply or loose connection.	Ensure the power adapter is securely plugged into the clock and the wall outlet. Verify the outlet has power.
Display is too dim or too bright.	Auto-dimming feature adjusting to ambient light, or manual brightness setting.	The clock automatically adjusts brightness. If manual adjustment is desired, refer to the specific controls for brightness levels. Ensure the light sensor is not obstructed.
Time is incorrect.	Time not set correctly or power interruption.	Manually set the time using the control buttons. The internal backup battery should maintain time during brief power outages.
DST did not update automatically.	Feature may be disabled or a rare software issue.	Ensure the automatic DST feature is enabled in settings (if applicable). If the issue persists, manually adjust the time.

SPECIFICATIONS

- **Brand:** JALL
- **Model Number:** PH01-B
- **Display Type:** Digital LED
- **Dimensions:** 15.35"W x 5.1"H
- **Power Source:** Corded Electric (5V/2A adapter included)
