5. SETUP

5.1 App Installation

Download the Luna AI app from your smartphone's app store (iOS App Store or Google Play Store). Search for "Luna AI".

5.2 Powering On

Connect the provided USB-C cable to the camera's power port and plug the other end into a compatible USB power adapter (not included) or a USB port. The camera will power on and initiate its startup sequence.

5.3 Wi-Fi Connection

Open the Luna AI app and follow the on-screen instructions to add your new camera. Ensure your Wi-Fi network is 2.4GHz, as the camera does **NOT** support 5GHz Wi-Fi networks.

5.4 Mounting

The Luna Home Eye camera is designed for tabletop mounting. Place it on a flat, stable surface in the desired monitoring area. Ensure the camera has a clear line of sight to the area you wish to monitor.

6. OPERATION

6.1 Live Viewing

Once connected, open the Luna AI app to access the live video feed from your camera. You can view your home in real-time from

anywhere.

6.2 360° Pan/Tilt/Zoom

Utilize the pan and tilt controls within the Luna AI app to remotely adjust the camera's viewing angle. The camera offers 360° horizontal pan and vertical tilt for comprehensive coverage of your room.
