Fossil BQ2863

Fossil Fenmore BQ2863 Men's Watch Instruction Manual

Model: BQ2863

INTRODUCTION

Thank you for choosing the Fossil Fenmore BQ2863 Men's Watch. This timepiece features a classic design with a blue sunray dial, a brown leather strap, and a reliable 3-hand quartz movement. This manual provides essential information for the proper setup, operation, and care of your watch.

Please read these instructions carefully to ensure optimal performance and longevity of your watch.

SETUP

Setting the Time

- 1. Locate the Crown:** The crown is the small knob located on the right side of the watch case.
- 2. Pull Out the Crown:** Gently pull the crown outwards to position 2. You may feel a slight click.
- 3. Adjust the Time:** Rotate the crown clockwise or counter-clockwise to set the hour and minute hands to the correct time.
- 4. Push In the Crown:** Once the time is set, push the crown back into position 1 (normal operating position). The watch will begin to run.

Adjusting the Leather Strap

The Fossil Fenmore BQ2863 features a brown leather strap with a toggle clasp. To adjust the fit:

- Open the toggle clasp by lifting the buckle.

- Insert the pin of the buckle into the desired hole on the strap to achieve a comfortable and secure fit on your wrist.
- Close the toggle clasp securely.

OPERATING YOUR WATCH

Timekeeping

Your Fossil Fenmore BQ2863 watch is powered by a precise quartz movement, providing accurate timekeeping. Ensure the crown is fully pushed in for continuous operation.

Water Resistance

This watch has a water resistance rating of **50 meters (5 ATM)**. This means it is suitable for short periods of recreational swimming, showering, or washing hands. It is **not suitable** for diving, snorkeling, or high-impact water sports.

- Do not operate the crown while the watch is wet or submerged in water.
- Avoid exposing the watch to extreme temperature changes, as this can affect its water resistance.
- If the watch is exposed to saltwater, rinse it gently with fresh water and dry it thoroughly.

MAINTENANCE

Cleaning Your Watch

- **Case and Crystal:** Wipe the watch case and mineral glass crystal with a soft, damp cloth. Avoid using harsh chemicals or abrasive materials.
- **Leather Strap:** Leather straps can be cleaned with a slightly damp cloth. Allow the strap to air dry completely. Avoid prolonged exposure to direct sunlight or extreme moisture, which can cause the leather to crack or fade.

Battery Replacement

Your quartz watch is powered by a battery. When the watch stops running, the battery may need to be replaced. It is recommended to have the battery replaced by a qualified watch technician to ensure the watch's water resistance is maintained and to prevent damage to the movement.

Storage

When not wearing your watch, store it in a cool, dry place away from direct sunlight and strong magnetic fields. The original packaging or a watch box is ideal for storage.

TROUBLESHOOTING

- **Watch Not Running:**
 - Check if the crown is fully pushed into position 1.
 - The battery may be depleted. Refer to the "Battery Replacement" section.
- **Time is Inaccurate:**
 - Ensure the crown is fully pushed in.
 - Exposure to strong magnetic fields can affect quartz watch accuracy. Keep the watch away from magnets.
 - If the issue persists, the watch may require professional inspection.
- **Moisture Under Crystal:**
 - This indicates a breach in water resistance. Do not attempt to open the watch. Seek professional service immediately to prevent further damage.

SPECIFICATIONS

Model Name	Fenmore
Model Number	BQ2863
Movement Type	Quartz (3-hand)
Case Material	Stainless Steel
Case Diameter	44 Millimetres

Case Thickness	10 Millimetres
Band Material	Leather
Band Width	22 Millimetres
Band Color	Brown
