MINISO D-PS-077

MINISO Toy Story Lotso Insulated Water Bottle (Model D-PS-077) User Manual

Comprehensive instructions for safe and effective use.

1. Introduction

Thank you for choosing the MINISO Toy Story Lotso Insulated Water Bottle. This manual provides essential information for the proper setup, operation, and maintenance of your new insulated beverage container. Please read these instructions carefully before first use and retain them for future reference.

This product features a 304 stainless steel construction, an insulated design to maintain beverage temperature, a straw with a decorative dust stopper, a protective sleeve, and a convenient shoulder strap for portability.

2. Safety Information

- **Temperature Limit:** This bottle is suitable for liquids up to 50°C (122°F). Do not use with boiling hot liquids as this may create pressure and cause scalding.
- **Hand Wash Only:** To preserve the insulation properties and product integrity, wash all components by hand. Do not use a dishwasher.
- **Not for Microwave Use:** Do not place the bottle in a microwave oven.
- **Avoid Freezing:** Do not place the bottle in a freezer, as this can damage the insulation and bottle structure.
- **Choking Hazard:** Small parts, such as the straw stopper, may pose a choking hazard for young children. Adult supervision is recommended.
- **Proper Sealing:** Ensure the lid is securely fastened to prevent leaks.

3. Package Contents

Verify that all items are present in the package:

- 1x MINISO Toy Story Lotso Insulated Water Bottle (304 Stainless Steel Cup)
- 1x Straw
- 1x Cartoon Straw Stopper (Lotso figure)
- 1x Protective Sleeve
- 1x Adjustable Shoulder Strap (Baldric)

4. Setup

1. **Initial Cleaning:** Before first use, thoroughly wash all components (bottle, lid, straw, straw stopper) with warm soapy water. Rinse thoroughly and allow to air dry.
2. **Assemble Straw and Stopper:** Insert the silicone straw into the designated opening in the lid. Place the Lotso figure straw stopper onto the top of the straw.
3. **Attach Protective Sleeve:** Slide the protective sleeve onto the stainless steel bottle. Ensure it fits snugly around the bottle for added protection and insulation.
4. **Attach Shoulder Strap:** Connect the adjustable shoulder strap to the loops on the protective sleeve. Adjust the strap length for comfortable carrying.

Image 2: The MINISO Lotso water bottle shown with its pink protective sleeve and attached shoulder strap, ready for use.

5. Operating Instructions

1. **Filling the Bottle:** Unscrew the lid from the bottle. Pour your desired beverage into the bottle. Do not overfill; leave some space at the top to prevent spills when closing. Remember the 50°C (122°F) temperature limit.
2. **Securing the Lid:** Screw the lid back onto the bottle firmly until it is hand-tight. Ensure the straw is properly aligned.
3. **Drinking:** To drink, simply open the straw stopper (if closed) and sip through the straw.
4. **Carrying:** Use the attached shoulder strap for convenient hands-free transport.

6. Maintenance and Cleaning

Proper care will extend the life and performance of your insulated water bottle.

- **Hand Wash Only:** All components should be washed by hand using warm water and mild dish soap.
- **Disassembly for Cleaning:** For thorough cleaning, disassemble the lid, straw, and straw stopper. The protective sleeve can also be removed and hand-washed if needed.
- **Cleaning Tools:** Use a bottle brush for the interior of the bottle and a straw brush for the straw to ensure all residues are removed.
- **Rinsing:** Rinse all parts thoroughly with clean water to remove any soap residue.
- **Drying:** Allow all components to air dry completely before reassembling or storing to prevent mold or odors. Store with the lid off to allow air circulation.
- **Avoid Abrasives:** Do not use abrasive cleaners, scrubbers, or bleach, as these can damage the finish and materials.

7. Troubleshooting

Problem	Possible Cause	Solution
Bottle leaks	Lid not securely tightened; Gasket/seal improperly seated or damaged.	Ensure lid is tightly screwed on. Check the silicone gasket inside the lid for proper placement and any signs of damage. Replace if damaged.
Beverage not staying cold/warm	Lid not sealed properly; Bottle exposed to extreme temperatures; Damage to insulation.	Verify the lid is sealed. Avoid leaving the bottle in direct sunlight or extreme cold for extended periods. If insulation is damaged, the bottle may need replacement.
Difficulty sipping through straw	Straw clogged; Straw not fully inserted; Air vent blocked.	Clean the straw thoroughly with a straw brush. Ensure the straw is fully inserted into the lid. Check for any blockages in the lid's air vent.
Unpleasant odor inside bottle	Improper cleaning; Bottle not dried completely before storage.	Clean the bottle thoroughly with warm soapy water and a small amount of baking soda. Rinse well and allow to air dry completely with the lid off.

8. Specifications

- **Brand:** MINISO
- **Model Number:** D-PS-077
- **Capacity:** Approximately 13.5 Ounces

- **Material:** 304 Stainless Steel (bottle), Silicone (straw), Plastic (lid, stopper)
