

Daewoo DI-45HVF-3

Daewoo 18-inch 3-in-1 Fan DI-45HVF-3 Instruction Manual

Model: DI-45HVF-3

1. IMPORTANT SAFETY INSTRUCTIONS

Read all instructions carefully before using this fan. Failure to follow these instructions may result in electric shock, fire, or serious personal injury.

- Always unplug the fan from the power outlet before cleaning, servicing, or moving it.
- Do not insert fingers or any objects through the grill when the fan is operating.
- Do not operate the fan with a damaged cord or plug. If the cord or plug is damaged, contact qualified service personnel.
- Ensure the fan is placed on a stable, level surface to prevent tipping.
- Do not use the fan in wet or damp locations, such as bathrooms or laundry areas.
- Keep the fan away from curtains, drapes, and other objects that could be drawn into the fan blades.
- This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
- Children should be supervised to ensure that they do not play with the appliance.

2. PACKAGE CONTENTS

Verify that all components are present in the package:

- 1 x Daewoo 18-inch 3-in-1 Fan Unit
- 1 x Pedestal Stand Components (Base, Pole)
- 1 x Wall Mounting Bracket (if applicable)
- 1 x User Manual

3. SETUP AND ASSEMBLY

The Daewoo DI-45HVF-3 fan offers three versatile configurations: Pedestal, Floor, and Wall-Mount. Follow the instructions below for your desired setup.

General Assembly (Blades and Grills)

Before configuring the fan, assemble the blades and protective grills:

1. Unpack all components and place them on a clean, flat surface.
2. Attach the rear grill to the motor housing, ensuring it is securely fastened with the provided nuts or clips.
3. Carefully slide the fan blades onto the motor shaft. Ensure they are correctly oriented and secured with the blade cap.
4. Place the front grill over the blades and align it with the rear grill. Secure both grills together using the retaining clips or screws.

Video: This video demonstrates the assembly process for the fan blades and grills, and shows the fan in its 3-in-1 configurations (pedestal, floor, wall-mount).

Pedestal Configuration

1. Assemble the round stable base and the adjustable pole.
2. Securely attach the fan head (with assembled blades and grills) to the top of the adjustable pole.
3. Adjust the height of the fan to your desired level using the height adjustment knob.

Floor Configuration

1. Attach the fan head directly to the floor stand bracket.
2. Ensure the fan is stable on a flat floor surface.

Wall-Mount Configuration

1. Identify a suitable wall location, ensuring it can support the fan's weight and is near a power outlet.
2. Securely mount the wall bracket to the wall using appropriate hardware (screws, anchors - not always included).
3. Attach the fan head to the wall bracket. Ensure it is firmly secured to prevent accidental detachment.

4. OPERATING INSTRUCTIONS

Once assembled and placed in your desired configuration, the fan is ready for operation.

1. **Power Connection:** Plug the fan's power cord into a standard 127V AC electrical outlet.
2. **Power On/Speed Selection:** Use the push-button control located on the fan unit to turn the fan on and select your desired speed. The fan offers 3 speed settings (Low, Medium, High). Press the button repeatedly to cycle through the speeds and turn off the fan.
3. **Oscillation Function:** To activate the oscillation feature, press down the oscillation knob located on top of the motor housing. The fan head will then sweep from side to side, distributing air over a wider area. To stop oscillation and direct airflow in a fixed direction, pull the knob up. The oscillation angle is approximately 90 degrees.
4. **Tilt Adjustment:** The fan head can be tilted up or down to direct airflow. Loosen the tilt adjustment knob on the side of the fan head, adjust to the desired angle, and then tighten the knob to secure it.
5. **Height Adjustment (Pedestal Mode):** In pedestal mode, the fan's height can be adjusted. Loosen the height

adjustment collar on the pole, raise or lower the fan to the desired height, and then securely tighten the collar.

Video: This video highlights the 3-in-1 functionality, 3-speed control, and oscillation feature of the fan.

5. MAINTENANCE AND CLEANING

Regular cleaning and maintenance will ensure optimal performance and extend the life of your fan.

- **Always unplug the fan** from the power source before cleaning.
- **Exterior Cleaning:** Wipe the exterior surfaces of the fan with a soft, damp cloth. Do not use abrasive cleaners or solvents, as these may damage the finish.
- **Grill and Blade Cleaning:** To clean the fan blades and inside the grills, you may need to remove the front grill. Refer to the assembly instructions for grill removal. Use a soft cloth or a vacuum cleaner with a brush attachment to remove dust and debris from the blades and grills. Ensure all parts are dry before reassembling and operating the fan.
- **Motor:** The motor is permanently lubricated and requires no additional lubrication.
- **Storage:** When not in use for extended periods, store the fan in a cool, dry place, preferably in its original packaging, to protect it from dust and damage.

6. TROUBLESHOOTING

If you experience issues with your fan, consult the following troubleshooting guide:

Problem	Possible Cause	Solution
Fan does not turn on	No power supply Fan not plugged in Power button not pressed	Check power outlet and circuit breaker Ensure plug is fully inserted Press the power button to select a speed
Weak airflow	Low speed setting Dust accumulation on blades/grills	Increase speed setting Clean fan blades and grills (refer to Maintenance section)
Fan is noisy	Loose parts Fan not on a level surface Obstruction in blades	Check for loose screws or components and tighten Place fan on a stable, level surface Unplug and check for any obstructions in the blades
Oscillation not working	Oscillation knob not engaged	Press down the oscillation knob on top of the motor housing

If the problem persists after checking these points, contact customer support.

7. SPECIFICATIONS

Feature	Specification
Model Number	DI-45HVF-3

Feature	Specification
Brand	Daewoo
Fan Type	3-in-1 (Pedestal, Floor, Wall-Mount)
Fan Size	18 inches
Power	75 Watts
Voltage	127 Volts
Number of Speeds	3
Number of Blades	3
Blade Material	Metal
Grill Material	Metal (Stainless Steel)
Oscillation	90 degrees (switchable)
Special Features	Adjustable Height, Adjustable Tilt, Oscillating
Control Type	Push Button
Product Dimensions (D x W x H)	16 x 63 x 51 cm (approximate, varies by configuration)
Product Weight	5.7 Kilograms
Color	Black

8. WARRANTY AND SUPPORT

This Daewoo DI-45HVF-3 fan is covered by a **15-month warranty** from the date of purchase, covering manufacturing defects under normal use. Please retain your proof of purchase for warranty claims.

For technical support, warranty claims, or any questions regarding your product, please contact the retailer or Daewoo customer service through their official channels. Contact information can typically be found on the product packaging or the official Daewoo website.

Do not attempt to repair the fan yourself, as this may void the warranty and could lead to electric shock or injury.

Ask a question about this manual

Ask about setup, troubleshooting, compatibility, parts, safety, or missing instructions. Manuals+ will review the question and use this page's manual context to help answer it.
