2. WHAT'S IN THE BOX

Your BLU G84 package includes the following items:

- BLU G84 Smartphone
- Rugged Case

- Screen Protector
- Quick Guide
- Earphones
- Type-C Cable
- Charger
- Sticker

3. SETUP GUIDE

3.1 Initial Charging

Before first use, fully charge your BLU G84. Connect the provided Type-C cable to the phone's charging port and the charger to a power outlet. The battery indicator on the screen will show charging progress. A full charge typically takes a few hours.

3.2 SIM Card and MicroSD Card Installation

Locate the SIM tray on the side of your device. Use the SIM ejector tool (if provided) to open the tray. Insert your GSM compatible Nano-SIM card(s) and/or a MicroSD card (up to 256GB) into the designated slots. Ensure the cards are correctly oriented as indicated on the tray. Gently push the tray back into the phone until it clicks into place.

3.3 Powering On/Off

To power on, press and hold the Power button (located on the side) until the BLU logo appears. To power off, press and hold the Power button, then select 'Power off' from the options on the screen.

4. OPERATING YOUR BLU G84

4.1 Display and Navigation

The BLU G84 features a 6.8-inch FHD+ Infinity Dot Display. Navigate the interface using touch gestures: tap to select, swipe to scroll, pinch to zoom. The side-mounted fingerprint scanner provides quick and secure unlocking.

4.2 Camera Usage

The BLU G84 is equipped with a Triple 50MP main camera system and a 13MP selfie camera. Open the Camera app from your home screen or app drawer. Select your desired mode (Photo, Video, Portrait, etc.) and tap the shutter button to capture images or start/stop recording videos.

4.3 NFC Functionality

The BLU G84 supports Near Field Communication (NFC). To use NFC for payments or data transfer, ensure NFC is enabled in your phone's settings. Hold the back of your phone near a compatible NFC reader or another NFC-enabled device to initiate a connection.

5. MAINTENANCE

5.1 Battery Care

The BLU G84 is equipped with a 5000mAh battery. To maximize battery life, avoid extreme temperatures, use the provided charger, and avoid completely draining the battery frequently. The phone supports 18W fast charging for quick power boosts.

Image: A graphic illustrating the BLU G84's extended battery life, capable of lasting up to 3 days on a single charge.

5.2 Software Updates

Regularly check for and install software updates to ensure your device has the latest features, security patches, and performance improvements. Go to *Settings > System > System update* to check for available updates.

5.3 Cleaning Your Device

Use a soft, lint-free cloth to clean the screen and body of your phone. Avoid using harsh chemicals or abrasive materials, which can damage the display or finish.

6. TROUBLESHOOTING

This section addresses common issues you might encounter with your BLU G84.

6.1 Device Freezing or Unresponsive Screen

If your device freezes or the screen becomes unresponsive, try a forced restart. Press and hold the Power button for approximately 10-15 seconds until the device powers off and restarts. If the issue persists, ensure all apps are updated and consider clearing app caches or performing a factory reset (back up your data first).

6.2 Connectivity Issues (Wi-Fi/Cellular)

If you experience issues with Wi-Fi or cellular connectivity:

- Ensure Wi-Fi or mobile data is enabled in Quick Settings or *Settings > Network & internet*.
- Restart your phone.
- For Wi-Fi, try restarting your router.
- For cellular, ensure your SIM card is properly inserted and your plan is active. Verify network compatibility with your carrier (GSM Unlocked, compatible with T-Mobile, Metro PCS, AT&T).
- Reset network settings: *Settings > System > Reset options > Reset Wi-Fi, mobile & Bluetooth*

6.3 Fingerprint Scanner Not Working

If the side-mounted fingerprint scanner is not recognizing your fingerprint:

- Ensure your finger is clean and dry.
- Make sure the scanner area is free of dirt or debris.

- Re-register your fingerprints in *Settings > Security > Fingerprint*
- Ensure your software is up to date.

6.4 GPS Lag or Inaccuracy

If GPS performance is poor:

- Ensure Location services are enabled in *Settings > Location*.
- Check that the specific app using GPS has location permissions.
- Try restarting the device.
- Ensure you have a clear view of the sky when using GPS for the first time or after a long period.

7. SPECIFICATIONS
