

wavytalk E370

Wavytalk Curlmaker Pro E370 Rotating Curling Iron Set User Manual

Model: E370 | Brand: Wavytalk

1. IMPORTANT SAFETY INSTRUCTIONS

Please read all instructions before using this appliance. Keep this manual for future reference.

- **Burn Hazard:** Surfaces become extremely hot during use. Avoid direct contact with skin. Always use the provided heat-protective glove.
- **Electric Shock Risk:** Keep away from water. Do not use near bathtubs, sinks, showers, or other water sources. If the appliance falls into water, unplug it immediately. Do not reach into the water.
- **Fire Risk:** Unplug the appliance when not in use. Do not leave it unattended when plugged in. Ensure the appliance is placed on a heat-resistant surface when hot.
- Keep out of reach of children.
- Do not use this appliance if the cord or plug is damaged, or if it is not working properly.
- Do not wrap the power cord around the appliance.

2. PRODUCT OVERVIEW

The Wavytalk Curlmaker Pro E370 is an automatic rotating curling iron set designed for effortless hair styling. It features interchangeable ceramic barrels to create various curl types, from tight spirals to loose waves.

Key Features:

- **Automatic Curling:** Effortlessly wraps hair around the barrel with the touch of a button.
- **3 Interchangeable Ceramic Barrels:** Includes 0.5-inch for tight curls, 1-inch for classic beach waves, and 1.25-inch for loose, relaxed curls.
- **Adjustable Speed Settings:** Choose between fast speed for efficiency or slow speed for beginners.
- **4 Adjustable Heat Settings:** Temperatures from 310°F to 430°F to suit various hair types.
- **One-Click Reset:** Returns the barrel to its original position for quick and efficient styling.
- **Innovative Pro Clip Design:** Extended clip length for easy hair securing and tangle-free curling.

- **Dual Voltage (110V-220V):** Ideal for international travel.

Included Accessories:

- 1 x Rotating Curling Iron Handle
- 1 x 0.5" Barrel
- 1 x 1" Barrel
- 1 x 1.25" Barrel
- 1 x Heat-Resistant Glove
- 2 x Salon Hair Clips
- 1 x Heat-Resistant Storage Case

3. SETUP

Attaching and Detaching Barrels:

1. Ensure the curling iron handle is unplugged and cool.
2. To attach a barrel: Align the desired barrel with the handle, ensuring the thumb grip and home button on the barrel face you. Push down firmly until it clicks into place.
3. To detach a barrel: Press and hold the unlocking buttons on both sides of the barrel base. Pull the barrel directly away from the handle. Allow the barrel to cool completely before detaching.

Installation

1. Place the thumb grip and home button facing you.

2. Push down the barrel until it is locked in place with "click" sound.

Disassembly

1. Press and hold the unlocking button on both sides.

2. Pull the barrel directly away from the handle after it has cooled.

Powering On/Off and Temperature Settings:

1. Plug the curling iron into a suitable electrical outlet.
2. Press and hold the power button (usually located near the bottom of the handle) to turn the appliance ON.
3. Press the power button repeatedly to cycle through the 4 adjustable heat settings: 310°F, 350°F, 390°F, and 430°F. Indicator lights will show the selected temperature.
4. To turn OFF, press and hold the power button until the indicator lights turn off.

4. OPERATING INSTRUCTIONS

For best results, ensure your hair is clean, dry, and detangled before styling. Use the provided heat-protective glove.

Curling Your Hair:

1. Section your hair: Divide your hair into manageable sections using the provided hair clips.
2. Select a barrel: Choose the appropriate barrel size for your desired curl type (0.5" for tight, 1" for natural, 1.25" for loose waves).
3. Clip hair: Open the clip on the barrel and secure a small section of hair (about 1 inch wide) at the tip.
4. Automatic rotation: Press the arrow button (left or right) to start the automatic rotation. The hair will wrap around the barrel. Hold for 5-8 seconds, or longer for tighter curls.
5. Release curl: Open the clamp and gently slide the curled hair off the iron.
6. Reset barrel: Press the home button to return the barrel to its initial position, ready for the next section.
7. Repeat: Continue these steps for all sections of your hair.
8. Finish: Once all hair is curled, allow the curls to cool completely before brushing or styling to set them.

How To Curl ?

1. Open the clip and secure the hair tips.

2. Press the arrow button to start left/right rotation, release to stop, hold for 5-8 seconds for your desired curl.

3. Open the clamp and slide the hair out of the curling iron.

4. Press the home button to return the clamp to its initial. Repeat above for beautiful waves.

Adjusting Rotation Speed:

The curling iron offers two rotation speeds:

- **Fast Speed:** Saves time, ideal for experienced users.
- **Slow Speed:** Beginner-friendly, provides more control.

Use the dedicated speed switch on the handle to toggle between Fast and Slow modes.

5. MAINTENANCE

Cleaning:

1. Always unplug the appliance and allow it to cool completely before cleaning.
2. Wipe the barrels and handle with a soft, damp cloth. Do not use abrasive cleaners or solvents.
3. Ensure no moisture enters the electrical components.

Storage:

- Store the curling iron and its accessories in the provided heat-resistant storage case once completely cool and dry.
- Do not wrap the power cord around the appliance, as this can damage the cord.
- Store in a cool, dry place, away from direct sunlight and moisture.

6. TROUBLESHOOTING

- **Appliance not turning on:** Ensure the power cord is securely plugged into a working outlet. Check if the power button is pressed and held correctly.
- **Barrel not heating:** Verify the appliance is powered on and the desired temperature setting is selected.

Allow a few moments for the barrel to heat up.

- **Barrel not rotating:** Ensure the barrel is correctly attached and clicked into place. Check if the rotation buttons are being pressed.
- **Hair tangling:** Ensure hair sections are small and detangled. The Pro Clip Design is intended to minimize tangles; if tangling occurs, release the hair immediately and re-section.
- **Curls not holding:** Ensure hair is completely dry before curling. Use a higher heat setting if your hair type requires it (start low and increase as needed). Allow curls to cool before styling.
