### 5.3. SD Card Management

- Regularly back up your footage and photos to a computer or external storage.
- Format the SD card periodically within the camera's settings to maintain optimal performance and prevent data corruption.

## 6. TROUBLESHOOTING

If you encounter issues with your TIMNUT Action Camera, please refer to the following common solutions:

- **Camera not turning on:** Ensure the battery is fully charged and correctly inserted. Try using the second battery.
- **Recording issues (freezing, corrupted files):** Check if the SD card is properly inserted and formatted. Try a different SD card if the issue persists. Ensure the card is a high-speed class (e.g., U3).
- **Poor image/video quality:** Ensure the lens is clean and free from smudges or debris. Check your resolution and frame rate settings.
- **Wi-Fi connection problems:** Ensure Wi-Fi is enabled on the camera and your smartphone. Restart both devices and try reconnecting.

- **Touchscreen unresponsive:** Power off and restart the camera. Ensure your fingers are clean and dry.
