# GoPro Dual Battery Charger + 2 Enduro Rechargeable Batteries (HERO13 Black) - Official Instruction Manual

Model: AEDBD-201 | Brand: GoPro

## 1. PRODUCT OVERVIEW

---

The GoPro Dual Battery Charger is designed to efficiently charge two GoPro Enduro batteries simultaneously. It optimizes the charging process to provide fully charged batteries as quickly as possible, ensuring you are always ready to capture your adventures. The charger features LED indicators to display the charge status of each battery, even when not connected to a power source. This package includes two high-performance Enduro batteries, which offer improved performance in cold temperatures and extended recording times compared to standard GoPro batteries.

## 2. WHAT'S INCLUDED

---

- 1 x GoPro Dual Battery Charger
- 2 x GoPro Enduro Batteries for HERO13 Black
- 1 x USB-C to USB-C Cable

## 3. COMPATIBILITY

---

This Dual Battery Charger and the included Enduro batteries are specifically designed for use with the **GoPro HERO13 Black** camera. While the charger may physically accommodate other battery types, optimal performance and safety are guaranteed only with compatible Enduro batteries and the specified camera model.

## 4. SETUP

---

1. **Insert Batteries:** Open the top cover of the Dual Battery Charger. Insert up to two Enduro batteries into the designated slots, ensuring they are oriented correctly.

2. **Connect Power:** Connect the included USB-C to USB-C cable to the USB-C port on the charger. Connect the other end of the cable to a 27-watt or greater USB-C power adapter (not included) or a compatible USB-C port on a computer or power bank.
3. **Power On:** The charger will automatically begin charging the inserted batteries once connected to a power source.

## 5. OPERATING INSTRUCTIONS

### 5.1. Charging Process

- The charger optimizes charging to deliver a fully charged battery as quickly as possible.
- Charging time is approximately 2 hours for a full charge, depending on the power source.

### 5.2. LED Indicators

The Dual Battery Charger features two sets of LED indicators, one for each battery slot. These LEDs provide real-time information about the battery's charge status:

- **Solid Red:** Battery is charging.

- **Solid Green:** Battery is fully charged.
- **Flashing Red:** Charging error (e.g., incompatible battery, extreme temperature).

### 5.3. Battery Quick Check

A unique feature of this charger is the battery quick check. You can press the small button next to the LED indicators to see the batteries' charge status even when the charger is not plugged into a power source. This allows for convenient pre-trip checks.

## 6. MAINTENANCE

- Keep the charger and batteries clean and dry.
- Avoid exposing the charger to extreme temperatures, direct sunlight, or moisture.
- Do not attempt to disassemble or modify the charger or batteries.
- Store batteries in a cool, dry place when not in use.

## 7. TROUBLESHOOTING

- **Batteries not charging:** Ensure the USB-C cable is securely connected to both the charger and a compatible power source. Verify the power source is active.
- **Flashing Red LED:** This indicates a charging error. Try removing and reinserting the battery. If the issue persists, the battery may be damaged or incompatible.
- **Slow charging:** For optimal charging speed, use a 27-watt or greater USB-C power adapter. Lower wattage adapters may result in slower charging times.
