3. ASSEMBLY INSTRUCTIONS

Assembly is designed to be straightforward and can typically be completed by one person within 30 minutes. Follow these steps carefully:

1. **Unpack and Identify:** Carefully unpack all components and lay them out on a soft, clean surface. Identify each part using the provided parts list (if applicable) or by comparing them to the diagrams.
2. **Attach Leg Frames to Desktop Panels:** Secure the Z-shaped leg frames to the underside of the desktop panels using the provided screws. Ensure the frames are oriented correctly for the L-shape configuration. Do not fully tighten screws yet.
3. **Connect Desktop Sections:** Join the two main desktop sections using the central connecting brackets and screws. Align the edges carefully to create a seamless L-shape.
4. **Install Support Bars:** Attach any additional support bars or crossbars between the leg frames for enhanced

stability. The Z-leg design includes reinforced crossbars for increased durability.

5. **Attach Foot Pads:** Screw the adjustable foot pads into the bottom of each leg. These pads help stabilize the desk on uneven floors and protect your flooring.
6. **Final Tightening:** Once all components are loosely assembled and aligned, gradually tighten all screws and bolts. Ensure the desk is stable and level.
