Safety Information

Your safety is paramount. Please adhere to the following guidelines:

- **Guard Rails:** The upper bunk is equipped with high guard rails to prevent falls. Ensure these are securely installed at all times.
- **Weight Capacity:** Do not exceed the recommended weight capacity for each bunk. (Specific weight capacity not provided, refer to product labeling if available).
- **Mattress Size:** Use only mattresses of the specified size to ensure proper fit and safety.
- **Assembly:** Ensure all components are correctly assembled and tightened before use. Regularly check and re-tighten hardware.
- **Children's Use:** The upper bunk is not suitable for children under 6 years of age.
- **No Horseplay:** Prohibit horseplay on or under the bed.

- **Ladder Safety:** Always use the provided ladder for access to the upper bunk.

Setup and Assembly

The Bellemave Twin Over Twin Bunk Bed is designed for convenient assembly. Please follow these steps carefully:

1. **Unpacking:** The bed is typically delivered in multiple packages. Verify all components are present against the included parts list before beginning assembly.
2. **Tools Required:** A full set of hardware is included. While an Allen key is provided, a power drill (set to low torque) may expedite the process, but exercise caution to avoid stripping screws.
3. **Team Assembly:** Assembly is significantly easier and safer with two people.
4. **Follow Instructions:** Refer to the detailed assembly manual and diagrams provided with your product. Pay close attention to the orientation of each piece.
5. **Ladder Placement:** The ladder can be placed on either side of the bed. Plan your desired orientation before securing the ladder components.
6. **Slat Installation:** When installing the wooden slats for the top bunk, ensure they are evenly spaced before securing them. There may not be pre-drilled guides for spacing, so manual measurement is advised for optimal support.
7. **Final Tightening:** Once fully assembled, ensure all bolts and screws are securely tightened. Do not overtighten.

Maintenance

To ensure the longevity and safety of your bunk bed, regular maintenance is recommended:

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners that may damage the finish.
- **Hardware Check:** Periodically inspect all bolts, screws, and connections. Re-tighten any loose hardware to maintain structural integrity.
- **Wood Care:** The bed is crafted from pine wood. Protect it from extreme temperature changes and direct sunlight to prevent warping or fading.

Troubleshooting

If you encounter any issues during assembly or use, consider the following:

- **Missing or Mislabeled Parts:** If you find any parts missing or incorrectly labeled, immediately contact Bellemave customer support for assistance. Do not attempt to force incorrect parts.
- **Assembly Difficulty:** If instructions seem unclear, review the diagrams carefully. Sometimes, a fresh perspective or a second person can help identify the correct orientation of components.
- **Instability:** Ensure all hardware is fully tightened. Uneven flooring can also contribute to instability; consider using furniture pads if necessary.
