

## EUHOMY IM-06E

# EUHOMY Countertop Ice Maker Machine IM-06E Instruction Manual

Model: IM-06E | Brand: EUHOMY

## INTRODUCTION

Thank you for choosing the EUHOMY Countertop Ice Maker Machine. This manual provides essential information for the safe and efficient operation, maintenance, and troubleshooting of your new appliance. Please read it thoroughly before first use and retain it for future reference.

## IMPORTANT SAFETY INSTRUCTIONS

- **Electrical Safety:** Ensure the ice maker is plugged into a grounded outlet with the correct voltage (115 Volts). Do not use extension cords unless absolutely necessary and ensure they are rated for the appliance's wattage (170 watts).
- **Flammable Refrigerant:** This appliance uses flammable refrigerant (R600a). Do not use mechanical devices or other means to defrost the ice maker. Do not puncture the refrigerant tubing.
- **Placement:** Place the ice maker on a stable, level surface away from direct sunlight and heat sources. Allow adequate ventilation around the unit.
- **Water Quality:** Use potable water only.
- **Children:** Supervise children to ensure they do not play with the appliance.
- **Cleaning:** Always unplug the unit before cleaning.
- **Damage:** Do not operate the appliance if it has a damaged cord or plug, or if it malfunctions or has been dropped or damaged in any manner.

## PRODUCT OVERVIEW AND COMPONENTS

The EUHOMY Countertop Ice Maker is designed for convenience, producing bullet-shaped ice cubes quickly. It features a compact design with a handle for portability and an auto-cleaning function.

### Included Accessories:

- Ice Maker Unit

- Ice Basket
- Ice Scoop
- Handle (for portability)
- Instruction Manual

### **Key Features:**

- Produces 9 ice cubes in approximately 6 minutes.
- Maximum ice production of 26 lbs per day.
- Holds up to 1.3 lbs of ice at a time.
- Low noise operation (less than 45dB).
- Smart indicators for "ICE FULL" and "ADD WATER".
- One-touch auto-cleaning function.
- Portable design with a sturdy handle.
- Visualized see-through window.

## SETUP INSTRUCTIONS

1. **Unpack:** Carefully remove the ice maker from its packaging and remove all packing materials.
2. **Placement:** Place the ice maker upright on a flat, stable surface. Ensure there is at least 4-6 inches of space around the unit for proper ventilation.
3. **Stabilization Period:** It is important to let the ice maker stand upright for at least 24 hours before plugging it in. This allows the refrigerant to settle, ensuring optimal performance and longevity.
4. **Clean Before First Use:** Before making ice for consumption, perform an initial cleaning cycle. (Refer to the Maintenance section for detailed self-cleaning instructions).
5. **Connect Power:** Plug the ice maker into a grounded 115V electrical outlet.

## OPERATING INSTRUCTIONS

1. **Add Water:** Open the lid and remove the ice basket. Fill the water reservoir with potable water up to the "MAX" fill line. Do not overfill.
2. **Replace Basket:** Place the ice basket back into the unit and close the lid.

3. **Power On:** Press the "ON/OFF" button to start the ice-making cycle. The "POWER" indicator light will illuminate.
4. **Ice Production:** The ice maker will begin producing ice. The first batch of 9 bullet-shaped ice cubes will be ready in approximately 6 minutes.
5. **Ice Full Indicator:** When the ice basket is full, the "ICE FULL" indicator will flash, and the ice maker will automatically pause production. Remove ice to resume operation.
6. **Add Water Indicator:** If the water level is too low, the "ADD WATER" indicator will flash. Add more water to the reservoir to continue ice production.
7. **Serving Ice:** Use the provided ice scoop to retrieve ice from the basket.
8. **Storing Ice:** Since the ice maker is not a freezer, ice will gradually melt. Transfer unused ice to a freezer for long-term storage.

Figure 3: Simple 3-step operation: Add water, press ON/OFF, and enjoy fresh ice.

## MAINTENANCE AND CLEANING

### Self-Cleaning Function:

The ice maker features a convenient one-touch auto-cleaning function to maintain hygiene.

1. **Empty Water:** Ensure the water reservoir is empty.
2. **Add Water for Cleaning:** Fill the reservoir with clean water up to the "MAX" line.
3. **Activate Self-Clean:** Press and hold the "ON/OFF" button for 5 seconds. The unit will enter automatic cleaning mode, which runs for approximately 30 minutes.
4. **Drain Water:** After the cleaning cycle is complete, drain the water from the reservoir. (Refer to the Draining Water section below).
5. **Wipe Down:** Wipe the interior and exterior surfaces with a soft, damp cloth.

### Draining Water:

Regularly drain the water from the reservoir, especially if the unit will not be used for an extended period or after cleaning.

- Locate the drain plug at the bottom of the unit.
- Place a container under the drain plug.
- Remove the drain plug to allow water to flow out.

- Once empty, securely replace the drain plug.

General Cleaning Tips:

- Clean the ice basket and scoop regularly with mild soap and water.
- For descaling, it is recommended to descaling once a month using a suitable descaling solution (e.g., a mixture of water and vinegar) and running the self-cleaning cycle.

TROUBLESHOOTING GUIDE

Problem	Possible Cause	Solution
"ADD WATER" indicator flashing	Water reservoir is low or empty.	Add potable water to the reservoir up to the "MAX" line.
"ICE FULL" indicator flashing	Ice basket is full.	Remove ice from the basket. The unit will resume ice production automatically.
Ice maker not producing ice	No water, power issue, or unit not settled after transport.	Check water level, ensure unit is plugged in, and confirm it sat upright for 24 hours before first use.
Ice melts quickly in the basket	This is not a freezer; ice will melt over time.	Transfer ice to a freezer for long-term storage. The melted water will be recycled to make new ice.
Unusual noise during operation	Normal operational sounds (e.g., water pump, refrigerant flow) or unit not level.	Ensure the unit is on a stable, level surface. If noise is excessive or unusual, contact customer support.

SPECIFICATIONS

Brand	EUHOMY
Model Name	Countertop Ice Maker Machine with Handle
Model Number	IM-06E
Product Dimensions	11.57"D x 11.42"W x 8.74"H
Capacity	26 Pounds (ice production per day)
Wattage	170 watts
Voltage	115 Volts
Refrigerant	R600a
Item Weight	12.9 pounds
Material	Plastic
Color	Purple

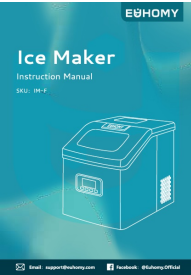

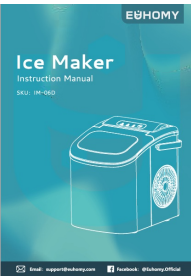

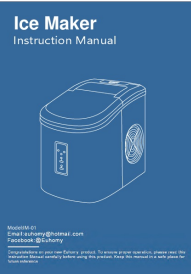

WARRANTY AND SUPPORT

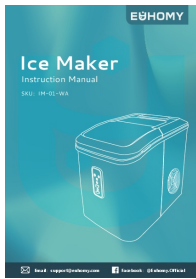

EUHOMY offers a **12-month after-sales service** from the original purchase date. Technical service support is also available.

For any questions regarding the use of your EUHOMY Ice Maker, please contact our customer support team. Refer to the product packaging or the official EUHOMY website for contact details.
