

Yizosh YAYHE-2-UH

Yizosh Metal Garage Storage Cabinet Instruction Manual

Model: YAYHE-2-UH

1. SAFETY INFORMATION

Please read and understand all safety information before assembling or using this product. Failure to follow these instructions may result in injury or product damage.

- Always assemble and disassemble the cabinet with care to avoid injury.
- Keep hands and fingers away from moving parts during assembly and operation.
- Do not overload shelves. Each shelf has a maximum weight capacity of 180 lbs.
- Always use both hands when moving the cabinet to ensure stability.
- Wear appropriate safety gear, such as gloves, when assembling or moving the cabinet.
- Ensure the cabinet is placed on a level surface to prevent tipping.
- Lock the wheels when the cabinet is in its desired position to prevent unintended movement.

2. PRODUCT OVERVIEW

The Yizosh Metal Garage Storage Cabinet is designed for organizing tools and other items in garages, warehouses, or home offices. It features a robust alloy steel construction with a powder-coated finish for durability and resistance to scratches and rust.

Figure 2.1: Front view of the Yizosh Metal Garage Storage Cabinet.

Key Features:

- **Material:** Heavy-gauge cold-rolled alloy steel, 0.8mm thick.
- **Finish:** Environmental protection powder-coated for scratch and rust resistance.
- **Shelves:** Two adjustable shelves, each with a load capacity of up to 180 lbs.
- **Drawer:** One lockable drawer for secure storage.
- **Doors:** Four wing doors with a 180° opening angle.
- **Locking Mechanism:** High-grade lock with two keys included for securing contents.
- **Mobility:** Four 360° rotating wheels, two of which are lockable, for easy movement and stable positioning.
- **Dimensions:** 72.5" H x 31.5" W x 15.7" D.

3. SETUP AND ASSEMBLY

The Yizosh Metal Garage Storage Cabinet is shipped in a knock-down structure and requires assembly. Detailed assembly instructions are included in the package. Please follow them carefully. It is recommended to have a clear, spacious area for assembly.

Assembly Steps (General Guidance):

1. Unpack all components and verify against the parts list provided in your manual.
2. Begin by assembling the base frame, ensuring all connections are secure.
3. Attach the side panels to the base.
4. Install the back panel to stabilize the structure.
5. Assemble and install the drawer mechanism and the drawer itself.
6. Attach the top panel.

7. Install the doors and adjust hinges for proper alignment.
8. Insert the adjustable shelves at your desired heights.
9. Attach the wheels to the bottom of the cabinet. Ensure the lockable wheels are positioned for easy access.
10. Test the locking mechanism and ensure all doors and the drawer open and close smoothly.

4. OPERATING INSTRUCTIONS

Adjustable Shelves:

The cabinet features adjustable shelves to accommodate items of various sizes. To adjust a shelf:

1. Empty the shelf of all contents.
2. Carefully lift the shelf and remove the support clips from their current slots.
3. Re-insert the support clips into the desired slots at the new height. Ensure all four clips are securely in place and level.
4. Place the shelf back onto the support clips, ensuring it is stable before loading items.

Figure 4.1: Example configurations of the adjustable shelves for various items.

Locking Mechanism:

The cabinet doors and drawer are equipped with a locking mechanism for security. Two keys are provided. To lock, ensure the doors are fully closed and insert the key into the lock. Turn the key clockwise to lock and counter-clockwise to unlock. Remove the key after locking to prevent loss.

Wheels and Mobility:

The cabinet is fitted with four 360° rotating wheels for easy movement. Two of these wheels are lockable. To move the cabinet, unlock the two lockable wheels. To secure the cabinet in a stationary position, engage the locks on both lockable

wheels.

5. MAINTENANCE

To ensure the longevity and appearance of your Yizosh Metal Garage Storage Cabinet, follow these simple maintenance guidelines:

- **Cleaning:** Wipe the cabinet surfaces with a damp cloth. Avoid abrasive cleaners or harsh chemicals that could damage the powder-coated finish.
- **Inspection:** Periodically check all screws and fasteners to ensure they are tight. Re-tighten if necessary.
- **Lubrication:** If the drawer slides or door hinges become stiff, apply a small amount of silicone-based lubricant.
- **Rust Prevention:** Although the cabinet is rust-resistant, avoid prolonged exposure to excessive moisture or corrosive substances.

6. TROUBLESHOOTING

This section addresses common issues you might encounter with your storage cabinet.

Issue: Doors or drawer do not close properly.

- **Solution:** Check for obstructions inside the cabinet or along the door/drawer tracks. Ensure the cabinet is on a level surface. Verify that all assembly screws are tightened.

Issue: Cabinet is unstable or wobbles.

- **Solution:** Ensure the cabinet is placed on a flat, level surface. Check that all assembly hardware is securely tightened. If on wheels, ensure the lockable wheels are engaged.

Issue: Keys are lost or lock is jammed.

- **Solution:** Keep spare keys in a safe place. If the lock is jammed, do not force it. Contact customer support for assistance.
