Bulelink HEPA-01

Bulelink Max 5 Cordless Vacuum Cleaner HEPA Filter Set Instruction Manual

Model: HEPA-01

Introduction

This manual provides instructions for the installation, maintenance, and troubleshooting of your Bulelink Max 5 Cordless Vacuum Cleaner HEPA Filter Set (Model: HEPA-01). These HEPA filters are designed to capture fine dust particles and allergens, ensuring cleaner air and optimal performance of your vacuum cleaner.

Package Contents

Verify that all items are present in your package:

- 2 x Bulelink Max 5 HEPA Filters (Model: HEPA-01)

Compatibility

This HEPA filter set is specifically designed for use with the **Bulelink Max 5 Cordless Vacuum Cleaner**. Using these filters with incompatible models may result in reduced performance or damage to your vacuum cleaner.

Installation Instructions

Follow these steps to replace the HEPA filters in your Bulelink Max 5 Cordless Vacuum Cleaner:

1. **Power Off:** Ensure the vacuum cleaner is turned off and unplugged from any charging source before proceeding.
2. **Remove Dustbin:** Locate the dustbin release button or latch on your vacuum cleaner and detach the dustbin.
3. **Access Filter Compartment:** Inside the dustbin, you will find the existing HEPA filter. Depending on your specific Max 5 model, it might be located at the top or bottom of the dustbin assembly. Twist or pull to remove the old filter.
4. **Insert New Filter:** Take one new Bulelink HEPA filter from the package. Align it correctly with the filter compartment and push or twist it into place until it is securely seated.
5. **Reattach Dustbin:** Reattach the dustbin to the vacuum cleaner, ensuring it clicks firmly into place.
6. **Dispose of Old Filter:** Dispose of the old filter responsibly.

Operating Instructions

Once the new HEPA filters are installed, your Bulelink Max 5 Cordless Vacuum Cleaner is ready for use. The filters work automatically to purify the air expelled by the vacuum. For optimal performance, ensure the filters are clean and properly seated before each use.

Maintenance

Regular maintenance of your HEPA filters is crucial for maintaining the efficiency and longevity of your vacuum cleaner.

Cleaning the HEPA Filters:

1. **Remove Filters:** Follow steps 1-3 from the "Installation Instructions" to remove the HEPA filters from the vacuum cleaner.
2. **Tap Clean:** Gently tap the filter against a trash can to dislodge loose dust and debris.

3. **Rinse (if applicable):** Some HEPA filters are washable. Refer to your vacuum cleaner's main manual for specific instructions. If washable, rinse the filter under cold running water until the water runs clear. **Do not use detergents or hot water.**
4. **Dry Completely:** If rinsed, allow the filter to air dry completely for at least 24 hours before reinstallation.**Never install a damp filter into your vacuum cleaner, as this can damage the motor.**
5. **Reinstall:** Once dry, reinstall the filter following steps 4-5 from the "Installation Instructions".

Filter Replacement:

It is recommended to replace your Bulelink Max 5 HEPA filters every 3 to 6 months, or more frequently if you use your vacuum cleaner often or have pets. Timely replacement ensures consistent suction power and effective air filtration.

Troubleshooting

If you experience issues related to the HEPA filters, consider the following:

- **Reduced Suction Power:**
  - Check if the filter is clogged with dust. Clean or replace it as per maintenance instructions.
  - Ensure the filter is correctly installed and seated firmly.
- **Unusual Odor from Vacuum:**
  - The filter might be dirty or damp. Clean and thoroughly dry the filter, or replace it.
- **Dust Escaping Vacuum:**
  - Verify that the filter is installed correctly and there are no gaps.
  - The filter might be damaged or worn out. Replace it with a new one.

If problems persist after following these steps, please refer to your Bulelink Max 5 Cordless Vacuum Cleaner's main user manual or contact customer support.

Specifications

Feature	Detail
Brand	Bulelink
Model Number	HEPA-01
Product Dimensions (L x W x H)	8 x 5 x 8 cm
Item Weight	110 grams
Material	Plastic
Number of Pieces	2
Compatibility	Bulelink Max 5 Cordless Vacuum Cleaner

Safety Information

- Always ensure the vacuum cleaner is powered off and unplugged before installing, removing, or cleaning filters.
- Do not attempt to modify the filters.
- Keep filters out of reach of children.

- Never operate the vacuum cleaner without a filter installed, as this can damage the motor and reduce air quality.

Warranty and Support

For warranty information regarding your Bulelink Max 5 HEPA Filter Set, please refer to the documentation provided with your original Bulelink Max 5 Cordless Vacuum Cleaner or visit the official Bulelink website. For technical support or inquiries, please contact Bulelink customer service through their official channels.
