SAFETY INFORMATION

WARNING: This product contains small parts. Keep out of reach of children under 3 years of age to prevent choking hazards.

- Always supervise young children during assembly.
- Ensure all pieces are securely connected to prevent accidental detachment.
- Dispose of packaging materials responsibly.

ASSEMBLY INSTRUCTIONS

The FAFABA Toys Retro Camera Model Set consists of 508 pieces. Detailed step-by-step color instructions are included in your package. Follow these general guidelines for a smooth assembly process:

1. **Unpack and Organize:** Carefully open the packaging and sort the building blocks by color and size. This will help you locate pieces more easily during assembly.
2. **Review Instructions:** Before starting, thoroughly review the included color instruction manual. Familiarize yourself with the overall structure and key assembly steps.
3. **Follow Step-by-Step:** Assemble the model by following the detailed diagrams in the instruction manual sequentially. Pay close attention to the orientation and placement of each block.
4. **Secure Connections:** Ensure each block is firmly pressed into place to create a stable and durable structure.
5. **Attach Sub-Assemblies:** The camera model involves several sub-assemblies, such as the main body, lens, and flash unit. Assemble these separately as instructed, then connect them to form the complete model.

Image 2: Overview of the Retro Camera Model components. This image shows the main camera body, the detachable lens, and the flash unit, providing a visual guide to the primary parts before assembly.

Image 3: Detailed views for assembly. This image illustrates the front and back of the assembled camera, along with a diagram showing how the flash unit and lens can be attached or detached from the main body.

Tip: Some pieces may be small. Using tweezers can assist in placing intricate parts. If you encounter difficulty, double-check the previous steps and ensure all pieces are correctly oriented.

OPERATING AND DISPLAY

This Retro Camera Model is primarily designed as a display piece and a collectible item. While it is not a functional camera, it features several interactive elements:

- **Detachable Lens:** The lens component can be attached and detached from the camera body, allowing for different display configurations.
- **Attachable Flash Unit:** The flash unit slides onto the top of the camera body, mimicking a real camera accessory.
- **Movable Dials/Buttons:** Certain dials and buttons on the model may be designed to rotate or press, adding to the realistic feel and playability.

Once assembled, the model can be proudly displayed in your home or office, serving as a unique piece of 3D art and a

conversation starter.

MAINTENANCE AND CARE

To ensure the longevity and appearance of your building block model, follow these maintenance guidelines:

- **Cleaning:** Gently dust the model regularly with a soft, dry cloth or a soft brush to prevent dust accumulation. For stubborn dirt, a slightly damp cloth can be used, but avoid excessive moisture.
- **Storage:** When not on display, store the model in a clean, dry place away from direct sunlight and extreme temperatures to prevent discoloration or material degradation.
- **Handling:** Handle the model with care, especially when moving it, to avoid accidental detachment of pieces.

TROUBLESHOOTING

Problem	Solution
Missing Pieces: Some blocks are missing from the set.	If you find any missing pieces, please contact FAFafa Toys customer support directly. Provide details of the missing parts, and they will arrange for replacements to be shipped to you free of charge.
Difficulty Assembling: Pieces do not fit or the structure is unstable.	<ul style="list-style-type: none">◦ Double-check the instruction manual to ensure all previous steps were followed correctly.◦ Verify that you are using the correct pieces for the current step, as some pieces may appear similar.◦ Apply firm, even pressure when connecting blocks.
Stickers/Decals Not Adhering: Stickers peel off or do not stick properly.	Ensure the surface is clean and dry before applying stickers. Press firmly and smooth out any air bubbles. If the stickers have a protective film, ensure it is removed after application.
