# WIN STELLAR French Pivot Door Installation and User Manual

Brand: WIN STELLAR | Model: B0DD7JSZ8P

## INTRODUCTION

This manual provides comprehensive instructions for the installation, operation, and maintenance of your WIN STELLAR French Pivot Door, Model B0DD7JSZ8P. Designed to maximize space and enhance accessibility, this door features durable, water-resistant, and scratch-resistant mirror and engineering wood panels. Please read all instructions carefully before beginning installation to ensure proper assembly and safe operation.

## SAFETY INFORMATION

---

Please observe the following safety precautions during installation and use:

- Always wear appropriate personal protective equipment (PPE), such as safety glasses and gloves, during installation.
- It is recommended to have at least two people for installation due to the size and weight of the door panels.
- Ensure the door opening dimensions are accurate and suitable for the product before beginning installation.
- Use only the provided hardware and recommended tools.
- Keep children and pets away from the installation area.
- Do not attempt to modify the door or hardware, as this may compromise its structural integrity and void the warranty.

## PACKAGE CONTENTS

## Door Panels

The package includes two door panels constructed from durable mirror and engineering wood, featuring a water-resistant and scratch-resistant surface. These solid core panels are designed for long-lasting use.

*Image: Detail of the door panel construction, showing the durable MDF surface and internal layers.*

## Hardware List

All necessary hardware for installation is included. Please verify that all components are present before starting assembly:

Bottom  
Bracket x2

Hanger  
Plate x2

Magnet Brack<sup>t</sup> x1  
Magnet Plate x2

Pull Set x2

Top Pivot x2

Wrench x1  
Bumper x2

Track

# Hardware List

*Image: A visual representation of all hardware components provided for the pivot door installation.*

- 2x Door Panels
- 1x Magnet Bracket
- 2x Top Pivot
- 1x Wrench
- 3x 5/8" Pan Head Screws
- 2x Magnet Plate
- 2x Mount Plate
- 2x 2" Pan Head Screws
- 10x 1-1/2" Flat Head Screws
- 2x Bottom Pivot
- 2x Jamb Pivot
- 12x 1-1/4" Pan Head Screws
- 2x Pull Set

- 2x Bumper
- 1x Track
- 1x Fascia

## TOOLS REQUIRED

---

The following tools are recommended for installation:

- Tape Measure
- Phillips Screwdriver
- Pencil
- Cordless Drill
- 3/16" Drill Bit
- Level

## INSTALLATION INSTRUCTIONS

### Step-by-Step Written Guide

#### 1. Step 1: Install Top Location and Track

- Insert top pivots into both ends of the track. Ensure securing screws face outward.
- Align the center of the pivot at the 2-1/4 inch mark from the end of the track (both ends).
- Tighten the screws with a Phillips screwdriver.
- Measure 1/4 inch from the front of the opening to correctly position the track.
- Secure the track in place using the 2-1/4 inch pan head Phillips screws.

#### 2. Step 2: Prepare Door Panel Hardware

- At the top of the door panel, position the mounting plate's outer edge 1/2 inch from the door edge. The pivot should be 2 inches from the door edge.
- Secure with 1-1/4 inch pan head screws.
- At the door panel bottom, position the bottom pivot's outer edge 5/8 inch from the door edge. The overall pivot should be 2 inches from the door edge.
- Secure with 1-1/2 inch flat head screws.
- Repeat this installation for the mounting plate and bottom pivot for the second panel.

#### 3. Step 3: Install Jamb Pivot Bracket

- Place the bottom jamb pivot bracket 13/16 inch from the opening front.
- Secure all three holes with 1-1/2 inch flat head screws using a Phillips screwdriver.
- Extend the bracket to 2-1/4 inches and tighten the screw.

#### 4. Step 4: Install Floor Bumper & Adjust Door Panel

- Start the door panel installation from the bottom, engaging the bottom pivot.

- Secure the top mounting plate with the locking latch into the track.
- Position the floor bumper 3-1/2 inches from the door edge and 11/16 inch from the opening front.

#### 5. Step 5: Install Door Pull

- Measure up 36 inches from the bottom of the door.
- Measure 1-1/2 inches inward from the opening edge to determine the knob locations.
- Drill pilot holes and install the door pulls.

#### 6. Step 6: Install Magnetic Catch and Fascia

- With both door panels installed, secure each magnet plate holder to the back of the door panels.
- Peel the double-sided tape off the back of the fascia.
- Apply the fascia directly onto the front surface of the track to conceal the hardware.

## OPERATING INSTRUCTIONS

---

To operate your WIN STELLAR French Pivot Door, gently push or pull the door panels using the installed pulls. The pivot mechanism allows the doors to swing smoothly, maximizing access to your space. Ensure no obstructions are in the path of the door panels when opening or closing.

## MAINTENANCE

Regular maintenance will help preserve the appearance and functionality of your pivot door:

- **Cleaning:** Wipe the door panels and hardware with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals that could damage the mirror or wood finish.
- **Hardware Check:** Periodically inspect all screws and hardware for tightness. Tighten any loose fasteners to ensure smooth operation and prevent rattling.
- **Pivot Lubrication:** If the pivot mechanism becomes stiff, apply a small amount of silicone-based lubricant to the pivot points.
- **Mirror Care:** Clean the mirror surface with a glass cleaner and a lint-free cloth.

## TROUBLESHOOTING

If you encounter any issues with your pivot door, refer to the following common solutions:

- **Door not closing properly:** Check for obstructions in the door's path. Verify that the magnetic catch is aligned and securely installed. Adjust the jamb pivot bracket if necessary to ensure proper alignment.
- **Door rattling:** Ensure all hardware screws, especially those on the top and bottom pivots and mounting plates, are tightened. The magnetic latch should hold the door firmly.
- **Stiff operation:** Lubricate the top and bottom pivot points with a silicone-based lubricant. Check if the track is clean and free of debris.
- **Gap between door panels:** Ensure the door panels are correctly aligned and the pivot points are set according to the installation instructions. Minor adjustments to the jamb pivot bracket may be needed.

## SPECIFICATIONS
