MIUI VC PRO 2

MIUI Electric Citrus Juicer VC PRO 2 Instruction Manual

Model: VS-6302B-V1

1. INTRODUCTION

This manual provides essential instructions for the safe and efficient operation, maintenance, and care of your MIUI Electric Citrus Juicer VC PRO 2. Please read it thoroughly before first use and retain it for future reference.

2. IMPORTANT SAFETY INFORMATION

Always follow basic safety precautions when using electrical appliances to reduce the risk of fire, electric shock, and personal injury.

- Read all instructions before use.
- Do not immerse the motor base in water or other liquids.
- Unplug from outlet when not in use, before putting on or taking off parts, and before cleaning.
- Avoid contact with moving parts.
- Do not operate any appliance with a damaged cord or plug, or after the appliance malfunctions or has been damaged in any manner.
- The use of attachments not recommended or sold by the manufacturer may cause fire, electric shock, or injury.
- Do not use outdoors.
- Do not let cord hang over edge of table or counter.
- Ensure the juicer is placed on a stable, flat surface during operation.

3. PRODUCT OVERVIEW AND COMPONENTS

The MIUI Electric Citrus Juicer VC PRO 2 is designed for efficient juice extraction from various citrus fruits. It features a powerful 850W motor and user-friendly design.

Image 3.1: MIUI Electric Citrus Juicer VC PRO 2 with oranges, pomegranates, and grapefruits.

Key Components:

- **Juicer Cover:** Protects the internal components and helps press fruit.
- **Juicer Cone:** Available in two sizes for different fruit types.
- **Stainless Steel Filter:** Separates pulp and seeds from the juice. Can be removed for pulpy juice.
- **Juice Container:** Transparent container with 600ml capacity to collect extracted juice.
- **Motor Base:** Houses the 850W motor and provides stability.
- **Non-Slip Feet:** Ensures stability during operation.

4. SETUP AND ASSEMBLY

1. Place the motor base on a stable, flat surface.
2. Place the juice container onto the motor base.
3. Insert the stainless steel filter into the juice container.
4. Select the appropriate juicer cone (small for lemons/limes, large for oranges/grapefruits) and place it onto the filter.
5. Position the juicer cover over the cone and rotate clockwise to lock it securely.
6. Ensure the juice outlet is closed before juicing.

Video 4.1: Demonstrates the assembly and use of the MIUI Electric Citrus Juicer. This video shows how to put together the components and begin juicing.

5. OPERATING INSTRUCTIONS

1. Cut your citrus fruit (e.g., orange, lemon, grapefruit) in half.
2. Place one half of the fruit onto the juicer cone.
3. Place the juicer cover over the fruit. Gently press down on the cover. The motor will activate, and the cone will rotate to extract juice.
4. Apply steady, gentle pressure. Avoid excessive force to prevent damage to the unit.
5. Continue until all juice is extracted from the fruit half.
6. Repeat with remaining fruit halves.
7. Once juicing is complete, open the juice outlet to dispense the fresh juice into a glass.

Image 5.2: The juicer dispensing fresh orange juice into a glass through its integrated spout.

Tips for Best Results:

- Use room temperature fruit for maximum juice yield.
- For juice with pulp, remove the stainless steel filter before juicing.
- The juicer can operate continuously for up to 2 hours.

6. CLEANING AND MAINTENANCE

Regular cleaning ensures the longevity and hygienic operation of your juicer.

1. Unplug the juicer from the power outlet before cleaning.
2. Disassemble the juicer by rotating the top cover counter-clockwise and lifting off the components.
3. The detachable parts (juicer cover, cones, filter, juice container) are dishwasher-safe. Alternatively, wash them by hand with warm, soapy water.
4. Wipe the motor base with a damp cloth. Do not immerse the motor base in water.

5. Ensure all parts are completely dry before reassembling or storing.

Image 6.1: Detachable components of the juicer being rinsed under running water, highlighting the ease of cleaning.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Juicer does not turn on.	Not plugged in; components not assembled correctly; no pressure applied.	Ensure the power cord is securely plugged in. Check that all parts are correctly assembled and locked. Apply gentle downward pressure on the juicer cover to activate the motor.
Low juice yield.	Fruit not ripe enough; insufficient pressure; fruit too cold.	Use ripe, room-temperature fruit. Apply steady, firm pressure. Ensure the correct size cone is used for the fruit.

Problem	Possible Cause	Solution
Juicer stops during operation.	Overheat protection activated; excessive pressure.	Unplug the unit and let it cool down for 15-20 minutes. Reduce pressure during juicing.

8. SPECIFICATIONS

- **Brand:** MIUI
- **Model Name:** VC PRO 2
- **Item Model Number:** VS-6302B-V1
- **Maximum Power:** 850 Watts
- **Capacity:** 600 Milliliters
- **Voltage:** 120 Volts
- **Number of Speeds:** 1
- **Product Dimensions:** 7.2"D x 12.09"W x 8.19"H
- **Item Weight:** 2.99 pounds
- **Material:** Plastic (BPA-Free), Stainless Steel Filter
- **Special Features:** Overheat Protection, Portable, Quiet Motor

Easy disassembly
