2. IMPORTANT SAFETY INSTRUCTIONS

Always follow basic safety precautions when using electrical appliances to reduce the risk of fire, electric shock, and personal injury.

- **Read All Instructions:** Familiarize yourself with the controls and proper use of the lawn mower.
- **Wear Appropriate Attire:** Always wear eye protection, sturdy footwear, and long pants. Avoid loose clothing that could get caught in moving parts.
- **Keep Area Clear:** Ensure the mowing area is free of debris, rocks, and other objects that could be thrown by the blade.
- **Keep Children and Bystanders Away:** Do not allow children or untrained persons to operate the mower. Keep

bystanders at a safe distance.

- **Disconnect Power:** Always remove the battery pack before cleaning, servicing, or when the mower is unattended.
- **Avoid Wet Conditions:** Do not operate the mower in wet grass or rain.
- **Maintain Equipment:** Keep blades sharp and clean. Regularly inspect the mower for damage.
- **Use Correct Battery:** Only use the specified battery packs and charger provided by MZK.
- **Safe Starting:** Utilize the two-step activation process to prevent accidental starts.

3. PACKAGE CONTENTS

Verify that all items are present and undamaged upon opening the package. If any parts are missing or damaged, contact MZK customer support.

- MZK 20V 13" Cordless Electric Lawn Mower
- 2 x 4Ah Lithium-ion Batteries
- Fast Charger
- Grass Catcher Assembly
- Instruction Manual

4. ASSEMBLY AND SETUP

4.1 Handle Assembly

1. Unfold the handle and align the lower handle sections with the mower body.
2. Secure the handle sections using the provided knobs and bolts. Ensure they are tightened securely.
3. Attach the upper handle section to the lower handle, securing with the remaining hardware.

4.2 Grass Catcher Attachment

1. Assemble the grass catcher bag onto its frame according to the instructions provided with the catcher.
2. Lift the rear discharge flap of the mower.
3. Hook the grass catcher onto the mower's rear housing. Ensure it is securely seated.

4.3 Battery Installation

1. Open the battery compartment cover on the top of the mower.
2. Insert the fully charged 20V batteries into the battery slots until they click into place.
3. Close the battery compartment cover securely.

5. OPERATION

5.1 Battery Charging

Before first use, fully charge both 4Ah batteries. The fast charger typically charges a battery in approximately 1 hour.

1. Connect the charger to a standard power outlet.
2. Slide the battery pack onto the charger until it clicks.
3. Monitor the charger indicator lights for charging status. A solid green light typically indicates a full charge.
4. Once charged, remove the battery from the charger.

5.2 Height Adjustment

The MZK lawn mower features 4-position height adjustment, allowing you to set the cutting height between 1.18 inches and 3.0 inches.

1. Ensure the mower is turned off and the battery is removed before adjusting the height.
2. Locate the height adjustment lever on the side of the mower.
3. Pull the lever outwards and move it to the desired height setting.
4. Release the lever to lock it into position. Ensure all wheels are at the same height setting.

Image: A hand demonstrating the adjustment of the 4-position height lever control on the MZK lawn mower.

5.3 Starting and Stopping the Mower

The mower features a two-step activation process for safety.

1. Ensure batteries are installed and the battery compartment is closed.

2. Press and hold the safety button (usually located on the handle).
3. While holding the safety button, pull the bail switch lever towards the handle. The motor will start.
4. To stop the mower, release the bail switch lever. The motor will immediately shut off.

5.4 Mowing Tips

- For best results, mow dry grass.
- Do not attempt to cut wet grass, as it can clog the mower and reduce efficiency.
- Overlap cutting paths slightly to ensure even coverage.
- Avoid overloading the motor by cutting excessively long grass in one pass. Raise the cutting height if necessary.
- Empty the grass catcher regularly to maintain optimal performance.

6. MAINTENANCE

Regular maintenance ensures the longevity and optimal performance of your lawn mower. Always disconnect the battery before performing any maintenance.

- **Cleaning:** After each use, clean the mower deck and grass catcher. Remove any grass clippings or debris from the blade area. Use a damp cloth; do not use water jets or harsh chemicals.
- **Blade Inspection:** Periodically inspect the cutting blade for sharpness and damage. A dull or damaged blade can lead to poor cutting performance and strain the motor. Replace the blade if necessary.
- **Battery Care:** Store batteries in a cool, dry place. Do not store fully discharged batteries for extended periods. Charge batteries before long-term storage.
- **Storage:** Store the mower in a dry, protected area. The handle can be folded for compact storage.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Mower does not start	Battery not installed correctly or discharged. Safety button/bail switch not engaged.	Ensure batteries are fully charged and properly inserted. Engage safety button and pull bail switch simultaneously.
Poor cutting performance	Dull or damaged blade. Grass catcher full. Cutting height too low for grass type.	Inspect and sharpen/replace blade. Empty grass catcher. Adjust cutting height higher.
Mower stops during operation	Battery discharged. Overload protection activated.	Recharge batteries. Reduce load by raising cutting height or mowing smaller sections. Allow motor to cool.

8. SPECIFICATIONS

Feature	Detail
Brand	MZK
Model	20V 13" Cordless Electric Lawn Mower
Power Source	DC (Battery Powered)
Battery Type	20V Lithium-ion (2 x 4Ah included)
Cutting Width	13 Inches
Cutting Heights	4 positions (1.18 inches to 3.0 inches)
