JOYBOS 5 Tier Foldable Storage Shelves with Wheels Instruction Manual

Model: JBS-ZDJ70-BK5F

Brand: JOYBOS

PRODUCT OVERVIEW

The JOYBOS 5-Tier Foldable Storage Shelves with Wheels offer a robust and versatile storage solution for various environments such as garages, kitchens, basements, and pantries. Constructed from high-quality metal, this heavy-duty shelving unit is designed for durability and stability. Its unique foldable design allows for quick setup and convenient storage, making it an ideal choice for optimizing space.

Key features include a strong bearing capacity, 360° rotatable wheels for easy mobility, and a simple, tool-free installation process. The shelves are designed to accommodate a wide range of items, from books and plants to tools and kitchen essentials.

SAFETY INFORMATION

For safe and effective use of your JOYBOS storage shelves, please adhere to the following guidelines:

- **Do not overload shelves:** Each shelf has a maximum weight capacity of 450 lbs (204 kg). Exceeding this limit can compromise the structural integrity of the unit and lead to damage or injury.
- **Secure items:** Always ensure that items placed on the shelves are kept within the guardrails to prevent them from falling.
- **Ensure stability:** Before loading the shelves or moving the unit, always verify that the shelf is stable and level on a flat surface.

SETUP AND ASSEMBLY

The JOYBOS 5-Tier Foldable Storage Shelves are designed for minimal assembly, requiring no tools. Follow these simple steps to set up your unit:

1. **Unfold the Frame:** Carefully pull the sides of the folded unit apart until the main frame extends into its full upright position.
2. **Lower the Shelves:** Gently lower each shelf into its flat, horizontal position. Ensure each shelf clicks securely into

place.

3. **Secure the Top Piece:** The top shelf features a locking mechanism. Secure this piece to ensure the entire unit is stable.
4. **Attach Wheels (Optional):** If you wish to use the unit with wheels, screw the four included casters into the designated holes at the bottom of the frame. Ensure they are tightened securely.

OPERATING INSTRUCTIONS

Once assembled, your JOYBOS storage unit is ready for use. Its design allows for flexible placement and easy access to your stored items.

- **Loading Items:** Distribute weight evenly across the shelves. Ensure heavier items are placed on lower shelves for better stability.
- **Mobility:** The unit is equipped with 360° rotatable wheels, allowing for easy movement. To move the shelf, ensure the wheel locks are disengaged.
- **Securing Position:** To keep the shelf stationary, engage the locks on the wheels. This prevents unintended movement.
- **Folding for Storage:** To fold the unit for storage, first remove all items. Then, disengage the top locking mechanism and carefully fold the shelves upwards, collapsing the unit back into its compact form.

5-Tier Folding Shelf

Metal Storage Shelves Thickened Material

- 610lbs without wheels
- 240lbs with wheels

Image: The 5-tier shelf fully utilized, showcasing its ample storage capacity for diverse household items.

MAINTENANCE

To maintain the appearance and longevity of your JOYBOS storage shelves, follow these simple maintenance tips:

- **Cleaning:** Wipe the metal surfaces with a dry cloth to remove dust and debris. For tougher spots, a slightly damp cloth can be used, followed immediately by a dry cloth to prevent rust.
- **Avoid Harsh Chemicals:** Do not use abrasive cleaners, solvents, or harsh chemicals, as these can damage the powder-coated finish.
- **Regular Inspection:** Periodically check all connections and the wheel attachments to ensure they remain secure. Tighten any loose screws or components as needed.

TROUBLESHOOTING

If you encounter any issues with your JOYBOS storage shelves, consider the following common solutions:

Problem	Possible Cause / Solution
Shelf feels unstable or wobbly.	Ensure all shelves are fully lowered and locked into place. Verify that the top locking mechanism is securely engaged. Check that the unit is on a flat, level surface.
Wheels are difficult to attach or do not roll smoothly.	Ensure the wheels are screwed in completely and correctly. If rolling on carpet, the wheels may experience more resistance; consider placing the unit on a hard surface or using a protective mat.
Shelf appears to be bowing or not holding weight as expected.	Verify that the weight on the shelf does not exceed the 450 lbs (204 kg) per-shelf limit. Distribute items evenly to prevent concentrated stress points.
Unit does not fold or unfold easily.	Ensure all items are removed from the shelves. Check that the top locking mechanism is fully disengaged before attempting to fold. Apply gentle, even pressure when unfolding.

SPECIFICATIONS

Feature	Detail
Brand	JOYBOS
Model Name	B5
Item Model Number	JBS-ZDJ70-BK5F
Number of Shelves	5
Product Dimensions (D x W x H)	13.4"D x 28"W x 65"H
Weight Limit (per shelf)	450 Pounds (204 kg)
Total Weight Capacity (without wheels)	610 Pounds (276 kg)
Total Weight Capacity (with wheels)	240 Pounds (108 kg)
Special Feature	Foldable
Finish Type	Powder Coated
Assembly Required	No (minimal setup)
Included Components	Caster wheels
Product Care Instructions	Wipe with Dry Cloth
