

LIZRROT Wireless Keyboard and Mouse Combo

LIZRROT Wireless Keyboard and Mouse Combo User Manual

Model: Wireless Keyboard and Mouse Combo

1. INTRODUCTION

This manual provides detailed instructions for the setup, operation, and maintenance of your LIZRROT Wireless Keyboard and Mouse Combo. This product is designed for enhanced productivity and comfort, featuring RGB backlighting, ergonomic design, and dual-system compatibility for Windows and Mac operating systems.

Image 1.1: Overview of the LIZRROT Wireless Keyboard and Mouse Combo, featuring RGB backlighting and an integrated phone holder.

2. PACKAGE CONTENTS

- 1 x LIZRROT Wireless Keyboard
- 1 x LIZRROT Wireless Mouse
- 1 x 2.4G USB Receiver (located in the back of the keyboard)
- 1 x USB-A to USB-C Charging Cable
- 1 x User Manual (this document)

3. PRODUCT OVERVIEW

3.1 Key Features

- **RGB Backlighting:** Keyboard with 3 brightness levels, mouse with 22 light modes.
- **2.4G Wireless Connectivity:** Stable connection up to 10 meters with a 2-in-1 USB-A/C receiver.
- **Ergonomic Design:** Keyboard with wrist rest and adjustable tilt legs; mouse designed for natural hand fit.
- **Rechargeable Batteries:** Keyboard (2000mAh) and Mouse (650mAh) with auto-sleep mode.
- **Silent Operation:** Reduced noise for both keyboard and mouse.
- **Dual Operating System:** Compatible with Windows and macOS, with easy switching.
- **Integrated Phone Holder:** U-shaped stand on the keyboard for smartphones or tablets.

Image 3.2: Visual representation of the auto-sleep mode, showing the keyboard entering sleep after 15 minutes and the mouse after 10 minutes, with RGB lights turning off after 90 seconds and 20 seconds respectively.

4. SETUP

4.1 Charging the Devices

1. Locate the USB-A to USB-C charging cable included in the package.
2. Connect the USB-C end of the cable to the charging port on the keyboard and mouse.
3. Connect the USB-A end to a powered USB port (e.g., computer, wall adapter).
4. The charging indicator light will show charging status. A blue light turning red indicates a low battery.

Image 4.1: The keyboard and mouse connected via USB-C cables for charging, illustrating the intelligent power-saving features.

4.2 Connecting the USB Receiver

1. The 2.4G USB receiver is stored in the back compartment of the keyboard. Gently remove it.
2. This receiver supports both USB-A and USB-C ports. Plug the receiver directly into an available USB-A port on your computer or use the integrated USB-C adapter for a USB-C port.
3. Ensure the keyboard and mouse are powered on using their respective ON/OFF switches.
4. The devices should connect automatically. No additional drivers are typically required.

Image 4.2: The 2-in-1 USB receiver demonstrating compatibility with both USB-A and USB-C ports for stable, long-distance wireless transmission.

5. OPERATING INSTRUCTIONS

5.1 Keyboard Functions

- **RGB Backlight Control:** Press **Fn + End** to cycle through 3 brightness levels or turn the backlight off. The keyboard backlight is a mixed-color mode and cannot be adjusted to a solid color static backlight.
- **Multimedia Keys:** Use the dedicated multimedia keys (e.g., Play/Pause, Volume Control) located above the numeric keypad for quick access to media functions.
- **Dual System Switch:** Press the dedicated **Win/Mac** key to switch between Windows and macOS operating systems. Shortcut keys will adjust automatically.
- **Phone Holder:** Place your smartphone or tablet in the integrated U-shaped holder for convenient viewing.

Image 5.1: The keyboard displaying its RGB backlight, with an overlay indicating the use of 'Fn + End' keys to adjust brightness for typing in low-light conditions.

Image 5.2: Close-up of the keyboard's dual-system switch, showing dedicated buttons for Windows (WIN) and Mac (MAC) operating systems.

5.2 Mouse Functions

- **DPI Adjustment:** The mouse offers 3 adjustable DPI settings (800/1200/1600) for varying cursor speed and precision. Press the DPI button (usually located near the scroll wheel) to cycle through settings.
- **RGB Light Modes:** The mouse features 22 vibrant light modes. These can typically be cycled or adjusted via a dedicated button or combination (refer to specific mouse instructions if available, otherwise it cycles automatically).
- **Silent Clicks:** The mouse is designed for ultra-quiet operation, reducing click noise by 95% compared to traditional mice.

Image 5.3: The wireless mouse showcasing its RGB backlighting and indicating the three adjustable DPI levels (800, 1200, 1600).

Image 5.4: The wireless mouse displaying various RGB light effects, including solid colors, colorful light effects, and breathing light effects.

6. CHARGING AND BATTERY MANAGEMENT

- **Battery Capacity:** Keyboard has a built-in 2000mAh lithium battery; Mouse has a built-in 650mAh lithium battery.
- **Charging Indicator:** If the blue light on the keyboard or mouse turns red, it indicates that the battery power is critically low and requires charging.
- **Auto-Sleep Mode:** To conserve energy, the keyboard enters sleep mode after 15 minutes of inactivity, and the mouse after 10 minutes. Random keystrokes or mouse movements will reactivate them.
- **ON/OFF Switches:** Both the keyboard and mouse have physical ON/OFF switches to manually conserve battery life when not in use for extended periods.

7. MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the surfaces of the keyboard and mouse. For stubborn dirt, a slightly damp cloth with mild soap can be used, ensuring no liquid enters the device.
- **Storage:** Store the devices in a cool, dry place away from direct sunlight and extreme temperatures.
- **Avoid Liquids:** Do not expose the keyboard or mouse to liquids, as this can cause damage.
- **USB Receiver:** When not in use, store the USB receiver in its designated slot on the back of the keyboard to prevent loss.

8. TROUBLESHOOTING

- **Devices not responding:**
 - Ensure both the keyboard and mouse are powered on.
 - Check if the USB receiver is securely plugged into your computer's USB port.
 - Verify that the devices are charged. Recharge if the battery indicator is red.
 - Try plugging the USB receiver into a different USB port on your computer.
 - Restart your computer.
- **Backlight not working on keyboard:**
 - Press **Fn + End** to adjust brightness or turn the backlight on.
 - Ensure the keyboard has sufficient battery charge.
- **Mouse cursor erratic or unresponsive:**
 - Check the mouse battery level.
 - Ensure the mouse sensor is clean and free from obstructions.
 - Try using the mouse on a different surface.
 - Re-plug the USB receiver.
- **Cannot switch between Windows/Mac:**
 - Ensure you are pressing the correct dedicated **Win/Mac** key.
 - Restart the keyboard by turning it off and on.
