

FLYINGVOICE P23GW

FLYINGVOICE P23GW VoIP Phone User Manual

MODEL: P23GW

Your guide to setting up, operating, and maintaining your advanced business IP phone.

1. Introduction

The FLYINGVOICE P23GW is an advanced business IP phone designed for modern communication needs. It features dual-band WiFi, Bluetooth 4.2, a USB port for expansion, and a vibrant color screen. This manual provides detailed instructions to help you maximize the functionality of your P23GW VoIP phone.

2. Package Contents

Before proceeding with the setup, please verify that all items are present in your package:

- FLYINGVOICE P23GW VoIP Phone Unit
- Handset
- Handset Cord
- Ethernet Cable
- Power Adapter
- Quick Installation Guide

Figure 2.1: The P23GW VoIP Phone with its power adapter, as typically found in the package.

3. Setup

3.1 Physical Connection

1. **Connect the Handset:** Plug one end of the coiled handset cord into the handset and the other end into the handset port on the phone base.
2. **Connect to Network:** Connect one end of the Ethernet cable to the LAN port on the phone and the other end to your network router or switch. If you are using the phone to provide network access to a computer, connect the computer to the PC port on the phone.
3. **Connect Power:** Plug the power adapter into the power port on the phone and then into a power outlet. The phone will automatically power on.

3.2 Initial Configuration

Upon first boot, the phone will attempt to obtain network settings via DHCP. You may need to configure SIP accounts manually or through auto-provisioning, depending on your service provider.

- **Network Settings:** Navigate to the 'Network' menu on the phone's color screen to configure IP settings if DHCP is not used.
- **SIP Registration:** Access the 'SIP Account' menu to enter your SIP server address, username, and password. The phone supports quick SIP registration directly from the LCD screen.

4. Operating Instructions

4.1 Basic Call Functions

- **Making a Call:** Pick up the handset or press the Speaker button, then dial the number and press the 'Dial' or 'Send' soft key.
- **Answering a Call:** Pick up the handset or press the 'Speaker' button when the phone rings.
- **Ending a Call:** Hang up the handset or press the 'End Call' soft key.
- **Hold/Resume:** During a call, press the 'Hold' soft key. Press it again to resume the call.
- **Transfer:** During a call, press the 'Transfer' soft key, dial the new number, and press 'Transfer' again.

4.2 Display and Keypad Navigation

The P23GW features a 2.8-inch color display with a 7-level adjustable backlight for optimal visibility in various lighting conditions.

7 Levels of Backlight Adjustments

Figure 4.1: Adjusting the backlight on the P23GW's color display for improved readability.

Use the navigation keys (Up, Down, Left, Right, OK) to browse menus and select options. The soft keys below the display change functionality based on the current context.

4.3 Advanced Features

4.3.1 Wireless Connectivity (Dual-Band WiFi & AP Mode)

The P23GW supports 2.4G and 5GHz dual-band WiFi, providing flexible network connection options. It also features AP (Access Point) and Wi-Fi to LAN capabilities, allowing the phone to share its network connection with other devices.

Wireless AP Mode

Sharing network for more devices

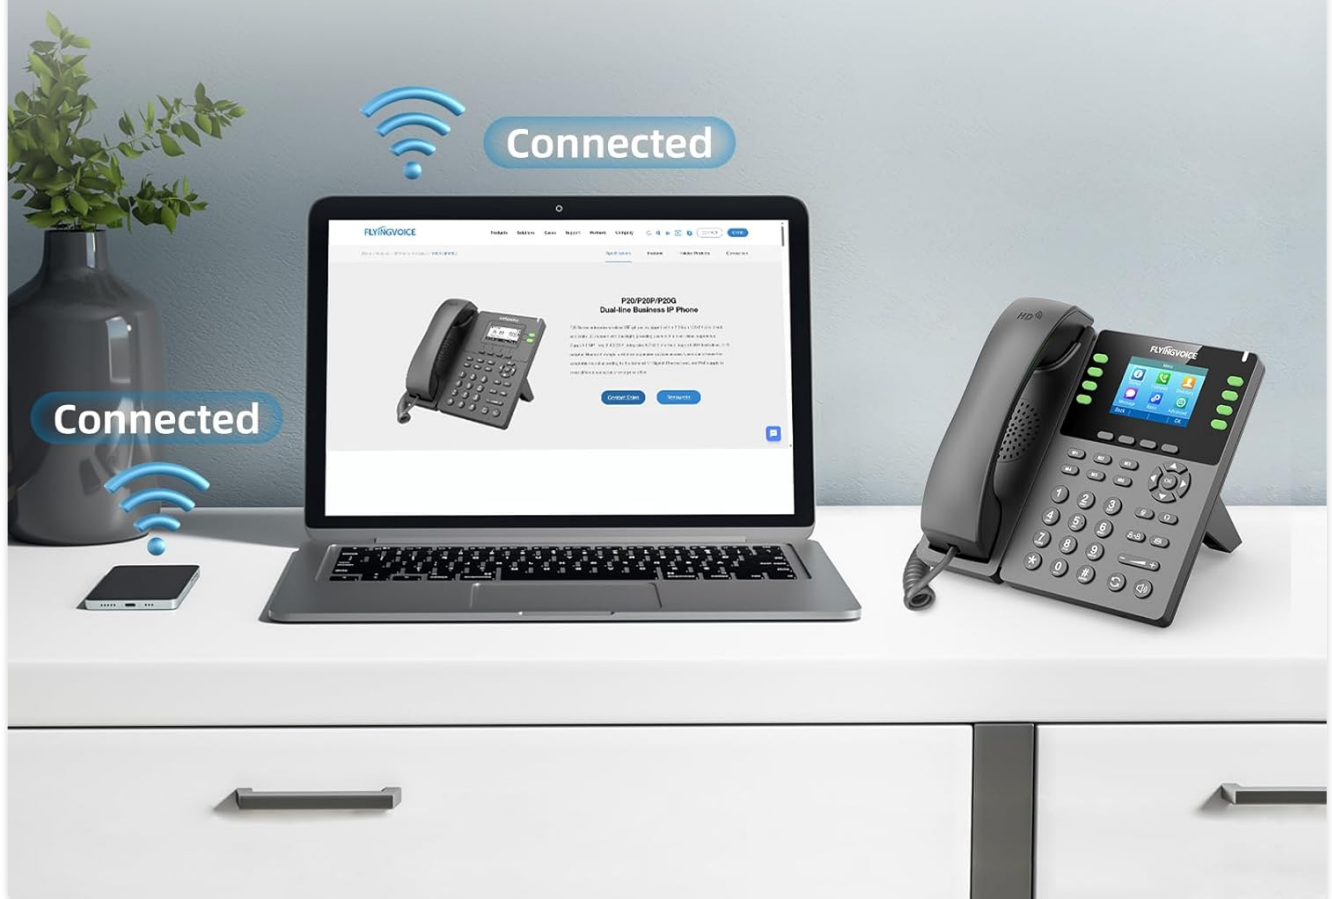

Figure 4.2: The P23GW operating in Wireless AP Mode, demonstrating its ability to share network connectivity with other devices.

Built-in 2.4G/5GHz WiFi

WiFi to LAN feature provides desktop device connectivity

Figure 4.3: The P23GW's built-in 2.4G/5GHz WiFi enabling desktop device connectivity via its Wi-Fi to LAN feature.

4.3.2 Bluetooth 4.2

Integrated Bluetooth 4.2 allows for seamless pairing with wireless headsets, offering enhanced mobility and comfort during calls. To pair a device, navigate to the 'Bluetooth' menu in the phone settings.

4.3.3 USB Expansion

The USB 2.0 port expands the phone's functionality. It can be used for connecting various external devices, including:

- USB drives for automatic or manual call recording.
- Bluetooth adapters (if not already integrated).
- Wireless headsets.
- Expansion modules (e.g., P2EXP for additional programmable keys).

USB 2.0 & Dual 1000Gb Ethernet ports

Multiple adapters for expanded functions
(Adapters not Included)

P2EXP

USB Flash Drive

EHS10 Adapter

Figure 4.4: The P23GW's USB 2.0 and dual Ethernet ports, illustrating connectivity options for expanded functions.

4.3.4 Call Management Features

- **Multiple VoIP Accounts:** Supports up to 8 VoIP accounts, allowing for flexible line management.
- **Speed Dial Keys:** Utilize the 6 dedicated speed dial keys for quick access to frequently called numbers.
- **6-Way Conferencing:** Facilitate multi-party conversations with the built-in 6-way audio conferencing feature.

Six-Way Audio Conference

Easier communication and better collaboration

Figure 4.5: Visual representation of the P23GW's six-way audio conference capability, enabling easier communication and collaboration.

4.3.5 Local Phonebook

The phone includes a local phonebook capable of storing up to 2,000 contacts, ensuring all your important contacts are readily accessible.

5. Maintenance

5.1 Cleaning

To maintain the phone's appearance and functionality, regularly clean its surfaces. Use a soft, dry cloth for the display and a slightly damp cloth for the body. Avoid using harsh chemicals or abrasive cleaners.

5.2 Firmware Updates

FLYINGVOICE periodically releases firmware updates to improve performance, add features, and address security

concerns. The P23GW supports unified firmware. Check the official FLYINGVOICE website for the latest firmware versions and instructions on how to update your device.

6. Troubleshooting

This section addresses common issues you might encounter with your P23GW VoIP phone.

Problem	Possible Cause	Solution
No dial tone	Phone not powered on; Network cable loose; SIP account not registered.	Check power connection; Ensure Ethernet cable is securely plugged in; Verify SIP account registration status in settings.
Cannot make/receive calls	SIP account issues; Network connectivity problems; Firewall blocking VoIP traffic.	Confirm SIP account credentials; Check network connection; Consult your network administrator about firewall settings.
Poor call quality (echo, static)	Network congestion; Low bandwidth; Faulty handset/headset.	Ensure stable internet connection; Reduce network traffic; Test with a different handset or headset.
WiFi connection unstable	Weak signal; Interference; Incorrect WiFi settings.	Move phone closer to WiFi router; Check for interfering devices; Re-enter WiFi password and settings.

For more advanced diagnostics, the P23GW supports remote management tools, allowing administrators to monitor and configure the device remotely.

Remote Management Tools

Figure 6.1: Examples of remote management interfaces that can be used for troubleshooting and configuration of the P23GW.

7. Technical Specifications

Feature	Description
Brand	FLYINGVOICE
Model	P23GW
Color	Black
Telephone Type	Cordless (VoIP IP Phone)

Feature	Description
Power Source	AC adapter
Display	2.8-inch Color Screen with 7-level adjustable backlight
VoIP Accounts	8 SIP Accounts
WiFi	2.4G/5GHz Dual-Band WiFi, AP & Wi-Fi to LAN features
Bluetooth	Bluetooth 4.2
USB Port	USB 2.0 for expansion (e.g., recording, headsets)
Speed Dial Keys	6 programmable keys
Conferencing	6-way conferencing
Phonebook Capacity	Up to 2,000 contacts
Compatible Devices	Computers, Wireless Headsets, Answering Machines, Bluetooth-enabled Devices

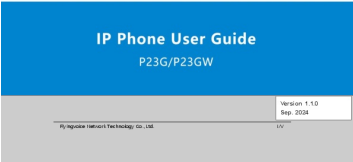

8. Support and Warranty

8.1 Technical Support

For technical assistance or inquiries, FLYINGVOICE offers dedicated 1-to-1 tech support. Please refer to the contact information provided with your product or visit the official FLYINGVOICE website for support resources.

8.2 Product Warranty

The FLYINGVOICE P23GW VoIP Phone comes with a standard manufacturer's warranty. Please refer to the warranty card included in your product packaging for specific terms, conditions, and duration of the warranty. Keep your purchase receipt as proof of purchase for warranty claims.

Flyingvoice P2X Series/P10W&P11W Release Notes of FVUIADV V0.8.18.7

(202311061522)

1. Introduction

Firmware Version:

P2X Series/P10W/P11W V0.7.77 (202304261147) upgrades to FVUIADV V0.8.18.7 (202311061522)

Applicable Model:

P20, P20P, P20G, P21, P21P, P22P, P22G, P23G, P23GW, P10W, P11W

Release Date:

November 28, 2023

2. New Features

1. Added incoming/ringing call lockup for remote address book.

2. Added phone lock type and emergency call for phone lock. The keyboard lock type supports three types: All keys, menu keys, and function keys.

3. Optimization

1. Optimized phone boot time.

2. Optimized the response speed of web page and apply, including VOP and telephone menu.

3. Optimized memory usage.

4. Optimized After the phone reboot, L2DP cannot obtain VLAN ID.

5. Optimized DHCP cannot obtain IP problems sometimes.

6. Optimized version upgrade detection, increase the detection of models and version numbers.

7. Optimized the call outcome of the digit map, support the call out matching in the standby state.

4. Bug Fixes

1. Fixed the introduction of the T809S client profile key certificate through T809S, which will cause T809S to crash.

2. Fixed the upload of the CS/IMS, telephone book. When there is an empty line in the contact, the web page is stuck.

3. Fixed the problem of call failure when there are multiple digit maps with different rules.

4. Fixed when receiving an incoming Multicast ringing call, there will be a problem of getting stuck.

5. Fixed when the BTFS is connected to the Bluetooth headset, the unable to enter the dial-up, there is no sound after answering, and the headset cannot hang up.

6. Fixed the issue of Audio-Processing upgrade getting stuck.

7. Fixed the issue where Kuawei Xinhel headers would turn into hands-free ringing after the phone was reboot.

FVUIADV V0.12.2 (202412281749) Version release log

1.Introduction

- **Firmware version:** PVIADV_7828_V0.12.2_202412281749_RC.bin
- **Version upgrade:** Upgrade from PVIADV V0.11.6 (202411021814) to PVIADV V0.12.2 (202412281749)
- **Applicable models:** P20, P20P, P30G, P21, P21P, P22P, P22G, P23G, P23GW, P10W, P11W, RP12WP, RP12WP-R
- **Release date:** 2025.01.08

2.New Features

1. Support for TLS v 1.2 (IP, provision, e069, local WEB management).
2. Support P2EXP (hardware needs to support R32 port expansion interface, USB connection is not supported).

3.Function optimization

1. Call records are expanded to 200 pieces.
2. Optimize the opening speed of the voice bill interface.
3. Add the serial numbers in the prp subscription message.
4. Add vclanxmi requirements.
the ring will continue after the screen;
receive XXV6 message during the call;
the soft button will directly exit to the home screen.
5. Add secondary dial sounds.
6. Add features to control whether different server are limited by the registration suffix.
7. The optimization Icd_lids, loopsh script was changed to a C code implementation.
8. Support front and P-Asserted-Identity as tel number.

4.Problem fixing

1. Repair the problem of 320 × 240 screen adjusting background brightness.
2. Fix the combobox control string over length.
3. Repair Spanish translation errors.
4. Fix the problem that the number of lines on the recording interface are not scrolling from scratch.
5. Repair the problem that soft keys 1-4 set multicast invalid.
6. Fix the BUF status display errors after registration COMMS PBX platform transfer.
7. Repair the problem that when data view is enabled and lido is used, the plug cable device no longer sends lido.
