INSTALLATION INSTRUCTIONS

1. **Power Off:** Ensure your electric shaver is turned off and unplugged from any power source before beginning the replacement process.
2. **Remove Old Foil:** Carefully detach the existing outer foil unit from your shaver. This usually involves pressing release buttons or gently pulling the unit away from the shaver body. Refer to your original shaver's manual for specific instructions if needed.
3. **Clean Shaver Head:** Use the provided cleaning brush to remove any hair clippings or debris from the shaver head area where the foil unit attaches.
4. **Install New Foil:** Align the new YTXDEUS ES9085 outer foil replacement with the shaver head. Gently press it into place until it clicks securely. Ensure it is firmly attached and does not wobble.

Razor replacement net

This replacement net installation is very simple, simple operation, you can easily complete, at the same time, disassembly is also very convenient, let your shaving process more easily.

OPERATING AND USAGE

Once the new outer foil is installed, your shaver is ready for use. This replacement foil supports both wet and dry shaving.

- **Wet Use:** The foil is 100% waterproof, allowing for use in the shower with shaving foam or gel for a comfortable experience.
- **Dry Use:** For quick shaves, the foil can be used dry.

Razor replacement net

The design of the razor replacement mesh is very user-friendly. It can closely fit the contours of your face. Whether it is your chin, neck or cheeks, it can be easily shaved to make your face cleaner and cleaner, the cutter net adopts the high strength material, has the very good abrasion resistance.

MAINTENANCE AND CLEANING

Proper cleaning extends the life of your replacement foil and ensures hygienic use.

1. **Daily Cleaning:** After each use, turn off the shaver. Detach the outer foil unit.
2. **Rinsing:** Rinse the outer foil unit thoroughly under running water to remove hair clippings and residue. The unit is 100% waterproof.
3. **Brush Cleaning:** Use the provided cleaning brush to gently remove any stubborn hair or debris from the foil and the internal cutting blades (if accessible).
4. **Drying:** Allow the foil unit to air dry completely before reattaching it to the shaver or storing it. Do not wipe the foil surface with a towel as this can damage it.

REPLACEMENT SCHEDULE

For optimal shaving performance, it is recommended to replace your shaver's outer foil and cutter block (if applicable) every 12 to 18 months. Over time, the cutting parts wear out, which can lead to a less close and comfortable shave. A typical shaver cuts millions of hairs within this period, making regular replacement crucial for maintaining maximum performance.

TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Shaver not cutting effectively	Foil is worn or damaged, or improperly installed.	Ensure the foil is correctly installed. If performance does not improve, consider replacing the foil if it's past its recommended lifespan.
Irritation after shaving	Worn foil or improper cleaning.	Clean the foil thoroughly after each use. If irritation persists, the foil may be worn and require replacement.
Foil unit does not attach securely	Incorrect alignment or debris.	Re-align the foil unit and press firmly until it clicks. Check for any obstructions or debris preventing a secure fit.
