## Angetube 866Max

# Angetube 4K Webcam 866Max User Manual

Model: 866Max

## INTRODUCTION

This manual provides detailed instructions for setting up, operating, and maintaining your Angetube 4K Webcam 866Max. Please read this manual thoroughly before using the product to ensure proper functionality and to maximize your user experience.

## PACKAGE CONTENTS

Verify that all items listed below are included in your package:

- Angetube 4K Webcam 866Max
- User Manual
- USB-A to USB-C Adapter

## FEATURES

The Angetube 4K Webcam 866Max is equipped with advanced features designed for high-quality video communication and streaming.

### Ultra HD 4K Resolution

Experience superior video clarity with 4K resolution at 30 frames per second (fps) or 1080p at 60fps. The webcam captures fine details, enhancing your video calls and streams.

# 4K UHD with CMOS Sensor

Power up to 12MP pixels to restore true beauty

## TINY But Strong

4K@30fps

1080P@60fps

12 Million Pixels

Built in Cover

4K

2K

1080P

## Adjustable Ring Fill Light

A built-in ring light offers three color temperature settings (warm, mixed, white) and stepless brightness adjustment via a ring knob. This allows for optimal illumination in various lighting conditions.

# Three-Color Stepless Adjustable Ring Light

White

Color Adjustment

## TOF Auto Focus

The Time-of-Flight (TOF) automatic focusing technology ensures quick and precise focus on subjects, even with movement. This maintains clear and stable images for professional-grade video.

# Clear and Stable TOF Auto Focus

Ultra-fast autofocus for perfect clarity

Focus on face

Focus on object

## Built-in Privacy Cover

An integrated privacy cover slides to shield the lens when not in use, ensuring your privacy and protecting the lens from dust.

# Protect Your Privacy

Built-in privacy cover

## Dual AI Noise-Cancelling Microphones

Specialized dual microphones utilize AI to capture your voice while actively reducing background noise, providing clear audio even in noisy environments.

# Built in Dual-mic Clarity Boost

Noise reduction & vocal enhancement

## Flexible Mounting Clip

The webcam features a flexible mounting clip that allows easy attachment to desktops, monitors, laptops, Chromebooks, PCs, or tripods. It supports 360-degree rotation for versatile positioning.

# Wide Field of View

Up to 78-degree field of view for wide shots

## SETUP

The Angetube 4K Webcam 866Max is designed for plug-and-play convenience, requiring no additional drivers for most operating systems.

1. **Mounting the Webcam:** Open the flexible mounting clip and securely attach the webcam to the top of your monitor, laptop screen, or place it on a flat surface. The clip allows for angle adjustments. For tripod use, locate the tripod thread on the bottom of the clip.
2. **Connecting to Your Computer:** Connect the webcam's USB cable to an available USB-A port on your computer. If your computer only has USB-C ports, use the included USB-A to USB-C adapter.
3. **System Recognition:** Your computer should automatically detect and install the webcam. This process typically takes less than one minute.
4. **Software Configuration:** Open your preferred video conferencing or streaming software (e.g., Zoom, Skype, Microsoft Teams). Navigate to the video and audio settings within the software and select "Angetube 866Max" as your camera and microphone device.

*This video demonstrates the Angetube 4K Webcam's plug-and-play functionality, 4K resolution, TOF autofocus, dual noise-cancelling*

## OPERATING INSTRUCTIONS

---

### Using the Ring Light

- **Brightness Adjustment:** Rotate the ring knob on the front of the webcam to adjust the brightness of the fill light. Rotate clockwise to increase brightness, counter-clockwise to decrease.
- **Color Temperature Adjustment:** Press the touch button located on the back of the webcam to cycle through the three color temperature settings: Warm Light, Mixed Light, and White Light.

### Using the Privacy Cover

To ensure privacy, simply slide the integrated privacy cover across the lens when the webcam is not in use. Slide it back to expose the lens when you are ready to use the camera.

### Autofocus Functionality

The TOF autofocus system automatically adjusts the focus to keep you clear and sharp. No manual adjustment is typically required. The camera will quickly refocus if you move or if an object is brought into the foreground.

### Microphone Usage

The dual AI noise-cancelling microphones are always active when the webcam is connected and selected as the audio input device in your software. They are designed to pick up your voice clearly while minimizing ambient noise.

## COMPATIBILITY

---

The Angetube 4K Webcam 866Max offers broad compatibility with various operating systems and video conferencing platforms:

- **Operating Systems:** Windows XP/7/8/10/11, Mac OS 10.6 and higher, Linux 2.6.24 and higher, Chrome OS 29.0.1547 and above, Ubuntu Version 10.04 and higher.
- **Software:** Zoom, Skype, Facetime, Microsoft Teams, Google Meet, and other popular video calling and streaming applications.

## TROUBLESHOOTING

---

If you encounter issues with your Angetube 4K Webcam 866Max, please refer to the following common solutions:

- **No Image/Video:** Ensure the USB cable is securely connected to both the webcam and your computer. Try a different USB port. Verify that the webcam is selected as the video input device in your application's settings.
- **No Audio:** Confirm that the webcam is selected as the microphone input device in your application's audio settings and your computer's sound settings. Check that the microphone is not muted within the application or your system.
- **Blurry Image:** The webcam features TOF autofocus. Ensure there are no obstructions in front of the lens. If the issue persists, try restarting your application or computer.
- **Light Not Working:** Check that the webcam is powered via USB. Rotate the brightness knob and press the color temperature button to ensure it's not set to off or a very dim setting.
- **Compatibility Issues:** Ensure your operating system and software are up to date. While plug-and-play, some systems may benefit from a restart after initial connection.

## SPECIFICATIONS

Feature	Detail
Brand	Angetube
Model Number	866Max
Item Weight	8.7 ounces
Product Dimensions	2.76 x 2.36 x 3.15 inches
Color	Black
