# Akko 5075B Plus Mechanical Keyboard User Manual

Brand: Akko | Model: 5075B

## INTRODUCTION

This instruction manual provides comprehensive information for the setup, operation, maintenance, and troubleshooting of your Akko 5075B Plus Mechanical Keyboard. Please read this manual thoroughly before using the product to ensure optimal performance and longevity.

## PACKAGE CONTENTS

Upon unboxing your Akko 5075B Plus Mechanical Keyboard, verify that all the following items are included:

- Akko 5075B Plus Mechanical Keyboard
- Keycap Puller
- USB-C to USB-A Cable
- Additional Cyan Keycaps (for customization)
- Switch Removal Tool

## SETUP

### Connectivity Options

The Akko 5075B Plus keyboard offers versatile connectivity to suit various setups:

- **Wired (USB-C):** Connect the provided USB-C to USB-A cable from the keyboard's top-left port to your computer's USB-A port. This mode also charges the keyboard.
- **Bluetooth 5.0/3.0:** Supports connection to multiple devices (up to 3). Refer to your device's Bluetooth pairing instructions.
- **2.4GHz Wireless:** Utilize the included USB-A receiver for a stable wireless connection. The receiver is conveniently stored in a dedicated slot on the underside of the keyboard.

Bluetooth

Type-C

2.4Ghz

## Operating System Compatibility

The keyboard features a switch on its underside to select between Mac and Windows operating system layouts, ensuring proper key functionality for your preferred environment.

Image: A close-up of the keyboard's underside, highlighting the physical switch for selecting between Mac, USB (wired), and Windows modes.

Height Adjustment

Two flip-out feet are located on the bottom of the keyboard, allowing you to adjust the typing angle for improved ergonomics and comfort.

OPERATING INSTRUCTIONS

Keycap Profile and Material

The Akko 5075B Plus features PBT Double Shot ASA Profile keycaps. This profile offers a unique, contoured shape with a subtle texture, providing a comfortable and durable typing experience. The shine-through design allows RGB lighting to illuminate the legends effectively.

# PC Keycaps

Transparent PC Keycaps offer exceptional lighting performance.

## Hot-Swappable Switches

The keyboard is equipped with 5-pin hot-swappable sockets, allowing users to easily change mechanical switches without soldering. This feature is beneficial for customizing the typing feel or replacing a malfunctioning switch.

## RGB Backlighting and Knob Control

The Akko 5075B Plus features vibrant RGB backlighting with 20 different effects, including per-key RGB support. It also includes side-LED RGB lighting. The dedicated knob on the top right corner allows for quick adjustment of computer audio volume and RGB backlight levels.

## Akko Cloud Driver Software

For advanced customization of RGB lighting effects, key remapping, and macro creation, download the Akko Cloud Driver software for PC or Mac. Connect the keyboard via USB-C or 2.4GHz wireless to access these features.

## MAINTENANCE

## Cleaning

Regularly clean your keyboard to maintain its appearance and functionality. Use a soft, lint-free cloth to wipe down the keycaps and chassis. For deeper cleaning, you may remove keycaps using the provided keycap puller.

## Keycap and Switch Removal

To remove keycaps, gently use the keycap puller to grip the keycap and pull upwards. To remove switches, use the switch removal tool to depress the clips on the sides of the switch and pull upwards. Ensure the keyboard is disconnected or powered off before performing these actions.

## TROUBLESHOOTING

- **Keyboard not responding:** Ensure the USB cable is securely connected or that the wireless receiver is properly inserted and the keyboard is powered on. Check the OS switch on the underside.
- **Bluetooth pairing issues:** Ensure the keyboard is in Bluetooth mode and discoverable. Remove previous pairings on your device and try reconnecting.
- **RGB lighting not working:** Check the brightness settings using the knob or the Akko Cloud Driver software. Ensure the keyboard is powered on.
- **Keys not registering:** If a specific key is not working, try hot-swapping the switch with a known working one to determine if the switch or the socket is faulty.

For further assistance, refer to the Akko Cloud Driver software's support section or visit the official Akko website.

## SPECIFICATIONS

Feature	Detail
Model Number	5075B
