5. OPERATING INSTRUCTIONS

5.1. One-Click Instant Translation

This mode is designed for quick, real-time conversations.

1. Ensure the device is connected to the internet (via global mobile data or Wi-Fi).

2. Select the two languages you wish to translate between on the device screen.

3. Press and hold the main translation button. Speak clearly into the device's microphone.

4. Release the button. The device will automatically recognize the spoken language and translate it into the target language, displaying the text on screen and playing the audio translation.

5. For the other person to speak, they can also press and hold the same button and speak. The device intelligently recognizes which language is being spoken.

Note: Cantonese, 4 Arabic accents, 3 Tamil accents, Malaysian, Icelandic, Malay, and Urdu do not currently support One-Click translation.

5.2. Offline Translation

Use this mode when internet access is unavailable.

1. Before going offline, ensure you have downloaded the necessary offline language packages (up to 4 free packages).

2. Navigate to the Offline Translation mode on the device.

3. Select the downloaded language pair.

4. Proceed with translation as you would in online mode, by pressing and holding the translation button and speaking.
