

MOOKA B-D03 Air Purifier Replacement Filter

MOOKA B-D03 Official Air Purifier Filter User Manual

Model: B-D03 Air Purifier Replacement Filter

1. INTRODUCTION

This manual provides essential information for the proper use and maintenance of your MOOKA B-D03 Official Air Purifier Filter. This filter is designed to work exclusively with the MOOKA B-D03 air purifier model, ensuring optimal performance and air quality.

Image: The MOOKA B-D03 Official Air Purifier Filter, a cylindrical white filter with a black top and bottom ring, featuring a "Genuine" seal.

Using genuine MOOKA replacement filters is crucial for maintaining the efficiency and longevity of your air purifier. Non-genuine filters may not fit correctly, reduce purification effectiveness, or potentially damage the device.

For MOOKA B-D03 Air Purifier

For the best performance,
always buy official replacement filters.
Make sure the brand is MOOKA.

2. PRODUCT FEATURES

The MOOKA B-D03 replacement filter is a 3-in-1 filtration system designed to capture various airborne particles and odors.

- **Fine Preliminary Filter:** Captures larger particles such as dust, lint, and pet hair.
- **H13 True HEPA Filter:** Traps 99.97% of airborne particles 0.3 microns in size, including pollen, dust mites, pet dander, and smoke particles.
- **Activated Carbon Filter:** Absorbs household odors from cooking, pets, and smoke, as well as volatile organic compounds (VOCs).

Powerful 3-Stage True HEPA Filtration

3. INSTALLATION AND REPLACEMENT

Follow these steps to replace the filter in your MOOKA B-D03 air purifier. It is recommended to replace the filter every 3-6 months, depending on usage and air quality.

1. **Step 1: Prepare the Air Purifier.** Unplug the air purifier from the power outlet. Gently flip the air purifier upside down.
2. **Step 2: Remove the Filter Cover.** Rotate the base cover counter-clockwise to unlock it, then lift it off.
3. **Step 3: Remove the Old Filter.** Carefully pull out the old filter from the air purifier housing. Dispose of the used filter responsibly.
4. **Step 4: Install the New Filter.** Remove the new filter from its protective packaging. Insert the new filter into the air purifier housing, ensuring it is seated correctly.
5. **Step 5: Secure the Base Cover.** Place the base cover back onto the air purifier and rotate it clockwise to lock it securely in place.
6. **Step 6: Reset the Filter Indicator.** Plug the air purifier back into the power outlet. Power on the unit. Press and hold the "Check Filter" or "Reset" button on the control panel for 3 seconds until the indicator light turns off or resets.

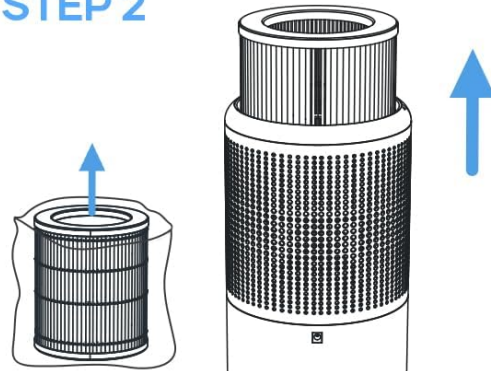

Replacing Your Filter

STEP 1

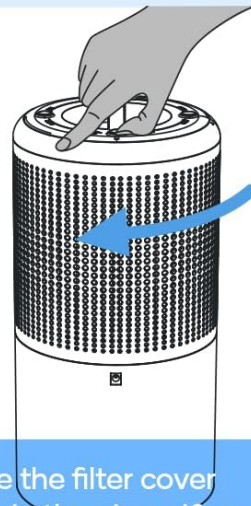

Unplug the air purifier, flip it over, and remove the filter cover.

STEP 2

Remove the old filter, unwrap the new filter, and place it in the housing.

STEP 3

Replace the filter cover and plug in the air purifier.

STEP 4

Press and hold the Check Filter Indicator for 3 seconds to reset it.

Image: A four-step visual guide demonstrating how to replace the filter: unplugging and removing the cover, taking out the old filter, inserting the new filter, and resetting the filter indicator.

Replace Your Filter Every 3-6 Months

STEP 1

Rotate left the base cover to unlock it.

STEP 2

Remove the older filter and put in the new one.

STEP 3

Fit the base cover back, then turn clockwise to lock.

STEP 4

Power on, then press and hold the filter reset button for 3 seconds to reset the filter.

Image: A detailed four-step visual guide showing the process of unlocking the base cover, removing the old filter, fitting the base cover, and resetting the filter button.

4. MAINTENANCE

Regular filter replacement is essential for maintaining the air purifier's performance and ensuring clean air. The MOOKA B-D03 filter is designed for a lifespan of 3 to 6 months under normal operating conditions.

- **Filter Lifespan:** The actual lifespan may vary based on air quality, usage frequency, and environmental factors.
- **Filter Indicator:** Your MOOKA B-D03 air purifier is equipped with a filter replacement indicator light. This light will illuminate when it's time to replace the filter.
- **Visual Inspection:** Periodically inspect the filter for visible signs of dirt and debris. A heavily soiled filter indicates a need for replacement, even if the indicator light has not yet activated.

6. TROUBLESHOOTING

This section addresses common issues related to the filter replacement process.

- **Filter Indicator Light Remains On After Replacement:** Ensure the filter is correctly installed and the base cover is securely locked. Then, press and hold the "Check Filter" or "Reset" button on the air purifier's control panel for 3 seconds to reset the indicator.
- **Reduced Airflow or Odor Persistence:** If you notice reduced airflow or persistent odors shortly after replacing the filter, verify that the new filter's protective plastic packaging has been completely removed before installation. Also, ensure the filter is seated properly.
- **Filter Does Not Fit:** Confirm that you have purchased the correct replacement filter for the MOOKA B-D03 air purifier. Refer to the model number on your air purifier and the filter packaging.

Genuine is Better

Avoid hidden problems that come with
unofficial replacement filters.

Mooka Filter

- Perfect Size
- High Performance
- Reliable Quality

Unofficial Filter

- Wrong Size
- Poor Performance
- Low Quality
