User Manual

Generic 10x10x8 Shipping and Packing Box (5 Pack)

PRODUCT OVERVIEW

These corrugated boxes are designed for standard strength industrial applications, suitable for shipping, packing, and moving. They are manufactured from durable cardboard material.

Figure 1: Generic 10x10x8 Shipping and Packing Box

This image displays a single 10x10x8 inch corrugated box in its open, unassembled state, ready for use. The box is made of brown kraft cardboard.

SETUP AND ASSEMBLY

The boxes are shipped flat for efficient storage and transport. Assembly is straightforward and requires no special tools.

1. **Unfold the Box:** Carefully unfold the flat box to form a rectangular shape.
2. **Fold Bottom Flaps:** Fold the two smaller bottom flaps inwards first, followed by the two larger bottom flaps.
3. **Secure Bottom:** Apply strong packing tape across the seams of the bottom flaps to secure them firmly. Ensure the tape extends slightly up the sides of the box for added strength.

Figure 2: Securing the Box Bottom

This image illustrates the process of sealing the bottom of a corrugated box with packing tape, a crucial step in preparing the box for use.

OPERATING (USAGE GUIDELINES)

These boxes are suitable for a variety of packing, moving, and shipping needs. Adhere to the following guidelines for optimal performance:

- **Weight Capacity:** Do not exceed the recommended breaking strength of 65 pounds to prevent damage to the box and its contents.
- **Even Distribution:** Distribute contents evenly inside the box to maintain balance and prevent bulging.
- **Cushioning:** Use appropriate cushioning materials (e.g., bubble wrap, packing peanuts, crumpled paper) to protect fragile items and fill empty spaces.
- **Sealing:** Once filled, fold the top flaps and secure them with strong packing tape, similar to the bottom assembly.
- **Labeling:** Clearly label the box with its contents, destination, and any handling instructions (e.g., "Fragile," "This Side Up").

Figure 3: Boxes in Use for Moving

This image shows two people handling a box, illustrating its utility for moving household items into a truck.

Figure 4: Boxes Ready for Shipping

This image depicts multiple corrugated boxes being prepared for or loaded into a delivery vehicle, highlighting their role in shipping operations.

MAINTENANCE AND STORAGE

To ensure the longevity and integrity of your corrugated boxes:

- **Dry Environment:** Store unused boxes in a dry place, away from moisture and humidity, to prevent weakening of the cardboard.
- **Flat Storage:** Keep boxes flat until assembly to save space and maintain their structural integrity.
- **Avoid Extreme Temperatures:** Do not expose boxes to extreme heat or cold, which can affect the cardboard's durability.

TROUBLESHOOTING

Common issues and their resolutions:

- **Box Tears During Assembly:**
 - Cause:* Rough handling or excessive force during folding.
 - Solution:* Handle flaps gently. If a tear occurs, reinforce the area with strong packing tape before use.
- **Box Bottom Fails:**
 - Cause:* Insufficient tape, improper flap folding, or exceeding weight limit.
 - Solution:* Ensure all bottom flaps are fully folded and securely taped across all seams. Verify contents do not exceed 65 pounds. Use additional tape if necessary.
- **Box Gets Damp/Weak:**
 - Cause:* Exposure to moisture or high humidity.
 - Solution:* Store boxes in a dry environment. If a box becomes damp, it may lose structural integrity and should be replaced for critical applications.

SPECIFICATIONS

Attribute	Detail
Product Dimensions	10 inches (Length) x 10 inches (Width) x 8 inches (Height)
Material	Corrugated Cardboard
Color	Kraft (Brown)
Item Weight (per box)	Approximately 0.5 pounds (2.5 pounds for 5-pack)
Breaking Strength	65 Pounds
Model Number	BXSW10108x5
Manufacturer	Wholesale Box
Country of Origin	USA

WARRANTY AND SUPPORT

As a consumable product, these corrugated boxes do not typically come with a manufacturer's warranty for extended use. However, if you receive boxes that are damaged upon arrival or do not meet the described specifications, please contact the seller, Wholesale Box, for assistance.

For support inquiries regarding your purchase, please refer to your order details on Amazon.com or contact Wholesale Box directly through the Amazon platform.
