› BORNOON 3-Drawer Narrow Shoe Storage Cabinet (Model BRN-023S) Instruction Manual

## BORNOON BRN-023S

# BORNOON 3-Drawer Narrow Shoe Storage Cabinet (Model BRN-023S) Instruction Manual

Comprehensive guide for assembly, operation, and maintenance.

### IMPORTANT SAFETY INFORMATION

Always secure the cabinet to the wall using the provided anti-tipping device to prevent tipping and protect children's safety. Do not overload the cabinet, as this could cause it to tip over. Keep the area around the cabinet clear of obstacles to prevent accidents.

Key Features:

- **Space-Saving Design:** Features 3 flip drawers, ideal for narrow spaces.
- **Large Capacity:** Stores approximately 18-24 pairs of shoes, depending on size and height.
- **Adjustable Shelves:** Each flip drawer contains 2 tiers of storage with adjustable or removable panels to accommodate various shoe types (flats, mid-boots, heels).
- **Durable Construction:** Made from engineered wood with a smooth finish, ensuring stability and load-bearing capacity.
- **Anti-Tipping Device:** Includes hardware to secure the cabinet to the wall for enhanced safety.
- **Easy to Clean:** Smooth surface allows for simple cleaning and maintenance.

## SETUP AND ASSEMBLY

---

The BORNOON 3-Drawer Narrow Shoe Storage Cabinet requires assembly. A detailed instruction manual and all necessary assembly tools are provided in the packaging. Follow the step-by-step instructions carefully.

1. **Unpack Components:** Lay out all wooden panels and hardware. Verify all parts are present against the provided list.
2. **Assemble Frame:** Connect the side panels to the base and top panels using the provided screws and dowels.
3. **Install Back Panel:** Secure the back panel to the main frame.
4. **Assemble Flip Drawers:** For each of the three drawers, attach the side mechanisms to the front panel and the internal shoe tiers.
5. **Insert Drawers:** Carefully insert the assembled flip drawers into the main cabinet frame.
6. **Install Anti-Tipping Device:** Attach the anti-tipping device to the top-back of the cabinet and secure it to a wall stud using appropriate hardware. This step is crucial for safety.

For visual guidance, please refer to the official assembly video provided by BORNOON:

## OPERATING INSTRUCTIONS

---

The shoe cabinet features three flip drawers for easy access and discreet storage.

1. **Opening a Drawer:** Gently pull the top edge of any of the three drawers outwards. The drawer will pivot downwards, revealing the two internal shoe tiers.
2. **Placing Shoes:** Arrange shoes on the internal tiers. For optimal space utilization, place shoes with the toes pointing towards the back of the drawer.
3. **Adjusting Tiers:** The internal panels within each drawer can be adjusted or removed. To adjust, carefully lift the panel and reposition it into one of the two available grooves. This allows for storage of different shoe heights, such as flats, mid-boots, or heels.
4. **Closing a Drawer:** Push the drawer upwards until it clicks securely into place. Ensure no shoes are obstructing the closing mechanism.

## MAINTENANCE

To ensure the longevity and appearance of your BORNOON Shoe Storage Cabinet, follow these simple maintenance guidelines:

- **Cleaning:** Wipe the surface with a soft, damp cloth. Avoid using harsh chemicals or abrasive cleaners, as they may damage the finish.
- **Dusting:** Regularly dust the cabinet with a dry, soft cloth to prevent dust buildup.
- **Spills:** Immediately wipe any spills to prevent staining or damage to the engineered wood.
- **Inspection:** Periodically check all screws and fittings to ensure they remain tight. Tighten if necessary.
- **Ventilation:** While the flip drawers help keep shoes away from dust, occasional airing of the cabinet can help maintain freshness.

## TROUBLESHOOTING

If you encounter any issues with your shoe cabinet, consider the following:

- **Drawer Not Closing Properly:**

- Check if shoes are too tall or wide for the current tier setting. Adjust or remove the internal panel as needed.
- Ensure no items are obstructing the drawer's path.

- **Cabinet Instability:**

- Verify that the anti-tipping device is securely installed to the wall.
- Ensure the cabinet is placed on a flat, level surface.
- Check if all assembly screws are tightened.

- **Damaged Parts:** If any wood board or component is damaged, contact customer support for assistance.

## WARRANTY AND SUPPORT

---

BORNOON offers comprehensive after-sales service. If you experience any problems with logistics, transportation, or product damage (even minor), we are committed to providing a free replacement.

Please contact us directly, and we will provide a satisfactory answer within 24 hours. Your satisfaction is our priority.
