Blackview Tab 60WiFi

Blackview 10-inch Android Tablet Instruction Manual

MODEL: TAB 60WiFi

Introduction

Welcome to the user manual for your new Blackview 10-inch Android Tablet, model Tab 60WiFi. This tablet is designed to provide a seamless and powerful user experience, equipped with the latest Android 15 system, a robust octa-core processor, and ample memory for all your needs. This manual will guide you through the setup, operation, maintenance, and troubleshooting of your device, ensuring you can maximize its capabilities for both work and entertainment.

What's in the Box?

Upon unboxing your Blackview Tab 60WiFi, please ensure all the following items are present:

- Blackview Tab 60 WiFi Tablet
- 10W Power Adapter
- USB-C Cable
- User Manual

Split View 2.0

One Screen, Double Productivity

Imagine being limited to just one task at a time. Not very efficient, right? With split view2.0, you can seamlessly manage two tasks on a single screen, like watching videos while chatting with friends,

Setup

Initial Power On

To power on your tablet for the first time, press and hold the power button located on the side of the device until the Blackview logo appears. Follow the on-screen prompts to complete the initial setup process, including language selection and basic settings.

Network Connection

Your tablet supports the latest WiFi 6 technology for faster and more reliable internet connectivity, and Bluetooth 5.3 for efficient wireless peripheral connections.

- **Wi-Fi:** Navigate to Settings > Network & internet > Wi-Fi. Select your desired network and enter the password if required.
- **Bluetooth:** Go to Settings > Connected devices > Connection preferences > Bluetooth. Turn on Bluetooth and pair with your devices.

Account Setup (Google GMS)

To access Google services like the Play Store, Gmail, and Google Maps, you will need to sign in with your Google account during the initial setup or later via Settings > Accounts.

Memory Expansion

The tablet comes with 12GB (4GB real + 8GB virtual) RAM and 128GB ROM. You can expand the storage up to 2TB using a Micro TF card. To expand memory, go to Settings > About Tablet > Memory and adjust the memory bar to 12GB.

Productivity Features

The Tab 60WiFi offers several features to boost your productivity and convenience:

- **PC Mode:** Transform your tablet into a PC-like interface for a more desktop-oriented workflow.
- **Workspace App:** Separate your personal and work applications and data for enhanced privacy and organization.
- **WPS Suite:** Comes pre-installed with WPS Office for document creation and editing.
- **Split View 2.0:** Multitask efficiently by running two applications side-by-side on the screen.
- **Atomized Memory 2.0:** Smartly allocates RAM to boost performance and free up resources for other processes.
- **Wireless Casting Screen:** Share your tablet's screen content to a larger display wirelessly.

Your browser does not support the video tag.

Stylish Colors

Thin and light Body

Image: An explanation of Atomized Memory 2.0, detailing its role in optimizing tablet performance by efficient RAM allocation.

Privacy and Comfort Features

The tablet includes features to protect your privacy and enhance viewing comfort:

- **Privacy Protection:** Manage app permissions and data sharing settings easily.
- **Clear Clipboard History:** Option to automatically clear clipboard history for sensitive information.
- **Read Mode:** Optimizes the screen for reading, reducing eye strain.
- **Eye Protection Mode (Night Mode):** Adjusts screen colors to reduce blue light emission.
- **Dark Mode:** Provides a darker color scheme for the user interface, ideal for low-light environments.

Power Up, Work Ready

Find it rather annoying spending time setting up the WPS? No more this time. Tab 60 WiFi comes equipped with the pre-installed WPS suite, allowing you to dive straight to work mode the instant you activate your device. A huge bonus to elevate your work efficiency to a new height.

General Care

The tablet features a stylish all-metal body with a thin and light design (8.5mm thickness, 538 grams weight). To maintain its appearance and functionality, avoid dropping the device, exposing it to liquids, or using abrasive cleaners. Use a soft, dry cloth for cleaning.

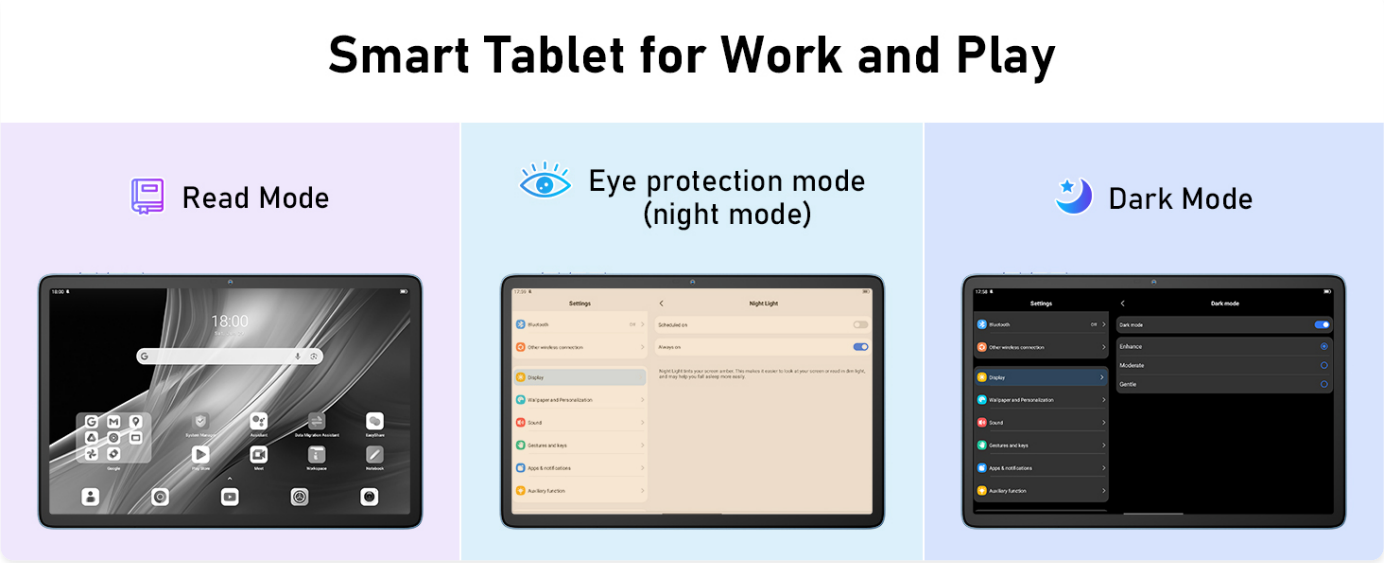

Image: The tablet's sleek design, available in multiple colors, emphasizing its thin and lightweight construction.

Troubleshooting

If you encounter any issues with your Blackview Tab 60WiFi, please refer to the following common troubleshooting steps:

- **Device Not Powering On:** Ensure the battery is charged. Connect the tablet to the charger and wait a few minutes before attempting to power on again.
- **Screen Unresponsive:** Try restarting the tablet by holding the power button for approximately 10-15 seconds.
- **Wi-Fi Connection Issues:** Check if Wi-Fi is enabled in settings. Restart your router and the tablet. Forget the network and reconnect.
- **Apps Crashing/Freezing:** Clear the cache and data for the problematic app in Settings > Apps. If the issue persists, uninstall and reinstall the app.
- **Slow Performance:** Close unnecessary background apps. Clear cached data regularly. Consider reducing the number of widgets on your home screen.

For more complex issues or persistent problems, please contact Blackview customer support.
