## LEZYNE Mega Drive 2400+

# LEZYNE Mega Drive 2400+ USB-C Rechargeable Bicycle Front Light Instruction Manual

Model: 1-LED-7-V404

## INTRODUCTION

The LEZYNE Mega Drive 2400+ is a high-performance bicycle front light designed for serious night riders. It offers an impressive 2400 lumens of output and a maximum runtime of 450 hours in Femto mode. Constructed from durable CNC-machined aluminum with integrated cooling fins, this light ensures reliable performance and efficient heat management. It features IPX7 waterproofing for all-weather use and multiple output modes, including a highly visible Daytime Flash Mode and a powerful Race Mode. The Mega Drive 2400+ supports USB-C 2A+ fast charging and is compatible with the Infinite Light Power Pack+ for extended battery life. Its versatile mounting strap securely attaches to various handlebar sizes.

## PRODUCT OVERVIEW

## SETUP

### Mounting the Light

- Identify Mounting Location:** The light is designed for handlebar mounting. Ensure a clear space on your handlebar.
- Attach Strap:** The versatile silicone rubber strap securely attaches to all common handlebar sizes. Wrap the strap around the handlebar and hook it onto the designated latch on the light's body.
- Secure Fit:** Ensure the light is firmly attached and does not move during riding. Additional accessory mounts may be available for alternative mounting locations (sold separately).

## Initial Charging

- The Mega Drive 2400+ is equipped with USB-C 2A+ fast charging.
- Before first use, fully charge the light using a USB-C cable (not included) and a compatible USB power adapter.
- The charging indicator will show the charging status. Refer to the operating section for indicator details.

## OPERATING INSTRUCTIONS

### Power On/Off

- **To Turn On:** Press and hold the power button located on the top of the light.
- **To Turn Off:** Press and hold the power button again.

### Changing Modes

- While the light is on, single-click the power button to cycle through the various solid output modes (e.g., Economy, Enduro, Blast, Overdrive).
- Double-click the power button to switch to flash modes (e.g., Day Flash, Femto, Pulse, Flash). Double-click again to return to solid modes.
- **Race Mode:** This mode allows for quick switching between high and low beams, ideal for dynamic riding conditions. Consult the light modes table for specific lumen outputs and runtimes for each mode.

## Battery Indicator

The light features an integrated battery indicator to show remaining power. The indicator color changes based on the battery level:

- **Green:** High battery level.
- **Yellow:** Medium battery level.
- **Red:** Low battery level, recharge soon.
- **Flashing Red:** Critically low battery, recharge immediately.

## Infinite Light Power Pack+ Compatibility

For extended battery life, the Mega Drive 2400+ is compatible with the Infinite Light Power Pack+ (sold separately). Connect the power pack to the light's USB-C port for continuous power during long rides.

## MAINTENANCE

- **Cleaning:** Wipe the light body and lens with a soft, damp cloth. Avoid using abrasive cleaners or solvents that could damage the finish or optics.
- **Charging:** Regularly charge the battery, especially if the light will be stored for an extended period. Store the light with a partial charge (around 50%) to prolong battery life.
- **Water Resistance:** The light is IPX7 waterproof, meaning it can withstand immersion in water up to 1 meter for 30 minutes. Ensure the USB-C port cover is securely closed to maintain water resistance.
- **Storage:** Store the light in a cool, dry place away from direct sunlight and extreme temperatures.

## TROUBLESHOOTING

- **Light Not Turning On:**
  - Ensure the battery is charged. Connect to a USB-C charger and check the indicator light.
  - Press and hold the power button for a few seconds to ensure proper activation.
- **Light Not Charging:**
  - Verify the USB-C cable is properly connected to both the light and the power source.
  - Try a different USB-C cable or power adapter.
  - Ensure the power source is active and providing sufficient power (2A+ recommended).
- **Light Flickers or Shuts Off Unexpectedly:**
  - This may indicate a low battery. Recharge the light.
  - Ensure the light is not overheating. The integrated cooling fins help, but extreme conditions can affect performance.
- **Mounting Strap Issues:**
  - If the strap feels too tight or loose, ensure it is correctly positioned and latched.
  - For specific handlebar sizes, consider alternative mounts if the standard strap is not optimal.

## SPECIFICATIONS

Feature	Detail
Brand	LEZYNE
Model	Mega Drive 2400+
Max Lumens	2400 Lumens
Max Runtime (Femto Mode)	450 hours
Recharge Type	USB-C (2A+ Fast Charging)
Weight	280 Grams
Material	CNC-machined Aluminum
Water Resistance Level	IPX7 (Waterproof)

Mounting Type	Handlebar Mount (Integrated Silicone Rubber Strap)
Number of Settings	8 (including solid and flash modes)
Special Features	Daytime Flash, Race Mode, Infinite Light Power Pack+ Compatible
