YEELIGHT YLYDD-0056

YEELIGHT Christmas Tree RGB Light Strip (Model YLYDD-0056) User Manual

Model: YLYDD-0056 | Brand: YEELIGHT

1. Introduction

Thank you for choosing the YEELIGHT Christmas Tree RGB Light Strip. This product is designed to provide versatile and vibrant lighting for various occasions, both indoors and outdoors. Featuring 200 individually addressable RGB LEDs, over 20 preset lighting effects, music synchronization, and smart control via the YEELIGHT app, this light strip offers extensive customization to enhance your festive and everyday environments.

2. Package Contents

Please verify that all items are present in your package:

- YEELIGHT Christmas Tree RGB Light Strip (66 Ft with 200 LEDs)
- Power Adapter
- User Manual (this document)

3. Safety Information

To ensure safe operation and prevent damage, please read and adhere to the following safety guidelines:

- Do not attempt to disassemble, repair, or modify the product. This will void the warranty.
- Ensure the power adapter is connected to a power source within the specified voltage range.
- Keep the light strip and power adapter away from extreme heat sources, open flames, and corrosive substances.
- Avoid submerging the power adapter in water. The light strip itself has an IP44 water-resistant rating, suitable for outdoor use, but the power adapter should be protected from direct water exposure.
- Do not connect the light strip to another manufacturer's controller or power supply.
- Handle the light strip carefully to avoid damaging the LEDs or wiring.

4. Setup and Installation

Follow these steps to set up your YEELIGHT Christmas Tree RGB Light Strip:

1. **Connect the Control Box:** Connect the control box securely to the power adapter.
2. **Secure the Light Strip:** Begin by securing the string lights at the bottom of your desired object (e.g., a Christmas tree) and then winding them around the branches or structure towards the top.
3. **Plug In:** Plug the power adapter into a standard electrical outlet. The lights should illuminate.

5. Operating Instructions

The YEELIGHT Christmas Tree RGB Light Strip can be operated primarily through the YEELIGHT smartphone application. Basic power control may also be available via a physical button on the control box, if present.

5.1 Initial Power On

Once plugged in, the light strip will typically power on in a default mode. To unlock its full potential, download and connect to the YEELIGHT app.

5.2 App Control

The YEELIGHT app allows for comprehensive control over your light strip:

- **Download the App:** Search for "YEELIGHT" in your smartphone's app store (iOS or Android) and install it.
- **Pairing:** Open the app and follow the on-screen instructions to add your new device. Ensure Bluetooth is enabled on your phone.
- **Preset Lighting Effects:** Choose from over 20 pre-programmed lighting effects suitable for various holidays and moods.
- **Customization (DIY):** Create your own unique color schemes and dynamic effects. Each LED can be controlled independently for intricate designs.
- **Brightness and Speed Adjustment:** Easily adjust the intensity and speed of the lighting effects.

5.3 Music Sync Feature

The light strip features a built-in microphone that allows it to react to ambient music and sounds, synchronizing the lighting effects with the rhythm. Activate this feature through the YEELIGHT app to create dynamic audio-visual experiences for parties, relaxation, or a romantic atmosphere.

6. Indoor and Outdoor Use

This light strip is designed for both indoor and outdoor applications. It boasts an IP44 waterproof rating, making it resistant to splashes and suitable for various weather conditions. It operates effectively in temperatures ranging from -4°F (-20°C) to 140°F (60°C).

7. Maintenance

Proper maintenance ensures the longevity and optimal performance of your light strip:

- **Cleaning:** Disconnect from power before cleaning. Use a soft, dry cloth to gently wipe the light strip. Do not use harsh

chemicals or abrasive cleaners.

- **Storage:** When not in use, carefully coil the light strip and store it in a cool, dry place, away from direct sunlight and extreme temperatures.
- **Inspection:** Periodically inspect the light strip and power adapter for any signs of damage, such as frayed wires or cracked casings. Discontinue use if damage is found.

8. Troubleshooting

If you encounter issues with your YEELIGHT Christmas Tree RGB Light Strip, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Lights do not turn on.	No power, loose connection, faulty adapter.	Check power outlet, ensure all connections are secure. Try a different outlet.
Cannot connect to the app.	Bluetooth off, incorrect pairing, app issue.	Ensure Bluetooth is enabled on your phone. Restart the app and the light strip. Follow in-app pairing instructions carefully.
Lights flicker or display incorrect colors.	Loose connection, software glitch, damaged LEDs.	Check connections. Restart the light strip. If problem persists, contact customer support.
Music Sync not working.	Microphone obstructed, app setting, low volume.	Ensure the control box's microphone is not covered. Check app settings for Music Sync activation. Increase music volume.

9. Specifications

- **Model Number:** YLYDD-0056
- **Brand:** YEELIGHT
