## Samsung VCA-PTA95/VT

# Samsung Pet Tool Pet Hair Brush VCA-PTA95/VT User Manual

For Samsung Bespoke Jet 75E and Jet 65 Vacuum Cleaners

## 1. INTRODUCTION

---

Thank you for choosing the Samsung Pet Tool Pet Hair Brush VCA-PTA95/VT. This accessory is designed to enhance the cleaning capabilities of your Samsung Bespoke Jet 75E or Jet 65 vacuum cleaner, specifically for effective removal of pet hair from various surfaces. This manual provides essential information for safe and efficient use, installation, operation, and maintenance of your new pet hair brush.

### Product Overview

The Samsung Pet Tool is a motorized brush attachment engineered to tackle stubborn pet hair on carpets, sofas, beds, and mattresses. Its specialized design includes a self-cleaning shredder to prevent hair tangles, ensuring consistent performance.

**Image 1.1:** Samsung Pet Tool Pet Hair Brush VCA-PTA95/VT. This image shows the compact design of the pet hair brush attachment, featuring its main brush head and connection point.

## 2. SAFETY INFORMATION

---

Please read all safety instructions carefully before using the Pet Tool brush. Failure to follow these instructions may result in electric shock, fire, or serious injury.

- Always ensure the vacuum cleaner is turned off and unplugged before attaching or detaching the Pet Tool brush, or performing any maintenance.
- Do not use the Pet Tool brush on wet surfaces or to pick up liquids.
- Keep fingers, hair, and loose clothing away from the rotating brush during operation.
- Do not use the brush if it is damaged. Contact Samsung customer service for assistance.
- This accessory is designed for household use only.
- Keep out of reach of children.

## 3. PACKAGE CONTENTS

---

Verify that all items are present in the package:

- 1 x Samsung VCA-PTA95/VT Pet Tool Pet Hair Brush (Black)
- User Manual (this document)

## 4. SETUP AND INSTALLATION

---

The Samsung Pet Tool brush is designed for easy attachment to your compatible Samsung Bespoke Jet 75E or Jet 65 vacuum cleaner.

1. Ensure your Samsung Bespoke Jet vacuum cleaner is powered off and disconnected from its charging station.
2. Locate the attachment point on the main body or extension pipe of your vacuum cleaner.
3. Align the connector of the Pet Tool brush with the attachment point on the vacuum cleaner.
4. Push the Pet Tool brush firmly onto the vacuum cleaner until it clicks securely into place. Ensure there is no gap and the connection is stable.
5. To detach, press the release button (if present on your vacuum model) and pull the brush away from the vacuum cleaner.

**Note:** Refer to your main Samsung Bespoke Jet vacuum cleaner manual for specific instructions on attaching accessories if you encounter any difficulties.

## 5. OPERATING INSTRUCTIONS

---

Once the Pet Tool brush is securely attached, you can begin cleaning.

1. Turn on your Samsung Bespoke Jet vacuum cleaner. The Pet Tool brush's motorized function will activate automatically.
2. Gently place the brush head onto the surface you wish to clean (e.g., carpet, sofa, bed, mattress).
3. Move the brush slowly and steadily over the surface. The rotating brush and strong suction will work together to lift and remove pet hair.
4. For heavily soiled areas, you may need to make multiple passes.
5. Avoid pressing down too hard, as this can reduce the effectiveness of the brush and potentially damage the surface or the

brush itself.

6. After use, turn off the vacuum cleaner.

**Caution:** Do not use the Pet Tool brush on delicate fabrics or surfaces that may be damaged by a rotating brush. Test on an inconspicuous area first if unsure.

## 6. MAINTENANCE AND CLEANING

---

Regular cleaning of your Pet Tool brush will ensure optimal performance and extend its lifespan.

### Cleaning the Brush Roll

1. Ensure the vacuum cleaner is turned off and the Pet Tool brush is detached.
2. Inspect the brush roll for tangled hair or debris. The integrated self-cleaning shredder helps minimize tangles, but some manual cleaning may still be required.
3. Carefully use scissors or a brush cleaning tool (often included with your vacuum cleaner) to cut and remove any hair or threads wrapped around the brush roll.
4. Wipe the exterior of the brush head with a soft, damp cloth. Do not use harsh chemicals or abrasive cleaners.
5. Allow all parts to air dry completely before reattaching the brush to the vacuum cleaner.

**Important:** Do not immerse the Pet Tool brush in water or any other liquid.

## 7. TROUBLESHOOTING

---

If you experience issues with your Samsung Pet Tool brush, refer to the following common problems and solutions.

| Problem                                  | Possible Cause   | Solution   |
|--|--|--|
| Brush not rotating.                      | <ul style="list-style-type: none"><li>◦ Brush roll is tangled with hair or debris.</li><li>◦ Brush is not securely attached to the vacuum.</li><li>◦ Vacuum cleaner is not powered on.</li></ul> | <ul style="list-style-type: none"><li>◦ Clean the brush roll as described in the Maintenance section.</li><li>◦ Reattach the brush, ensuring it clicks into place.</li><li>◦ Turn on the vacuum cleaner.</li></ul> |
| Reduced suction or cleaning performance. | <ul style="list-style-type: none"><li>◦ Brush roll is dirty or obstructed.</li><li>◦ Vacuum cleaner dustbin is full.</li><li>◦ Vacuum cleaner filter is clogged.</li></ul>                       | <ul style="list-style-type: none"><li>◦ Clean the brush roll.</li><li>◦ Empty the vacuum cleaner dustbin.</li><li>◦ Clean or replace the vacuum cleaner filter (refer to your main vacuum manual).</li></ul>       |

If the problem persists after trying these solutions, please refer to your main Samsung Bespoke Jet vacuum cleaner manual or contact Samsung customer support.
