VAULTEK DS5i

VAULTEK DS5i Smart Station™ Biometric Smart Safe User Manual

Model: DS5i | Brand: VAULTEK

INTRODUCTION

The VAULTEK DS5i Smart Station™ is a state-of-the-art biometric smart safe designed for secure storage and convenient access. It features dual wireless phone charging, multiple USB ports, an auto-open drawer, and Bluetooth connectivity for advanced management. Its low-profile design makes it suitable for various environments, including nightstands and RVs.

PACKAGE CONTENTS

- DS5i Smart Station™ Safe
- (2) Manual Keys
- Power Adapter (96W AC)
- High Strength Steel Security Cable
- User Manual

Figure 2: Included Components

SETUP

1. Power Connection

Connect the included 96W AC power adapter to the safe and a wall outlet. The safe is designed to be continuously plugged in to utilize its full charging capabilities. In case of a power outage, two AAA batteries (not included) can provide short-term backup power for access, though the screen and charging functions will be disabled.

Figure 3: Power and Charging Ports

2. Battery Backup (Optional)

For backup power during outages, insert two AAA batteries (not included) into the designated battery compartment. Refer to the detailed manual for compartment location.

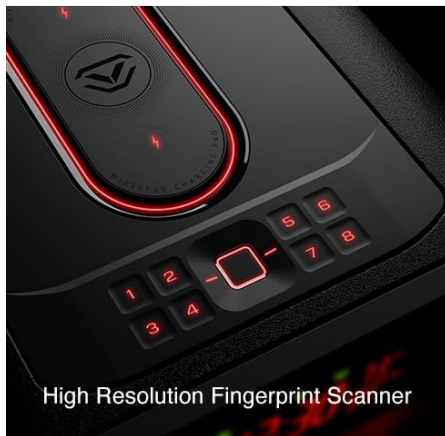

3. Initial Access and Programming

Upon first use, access the safe using the manual keys. Follow the instructions in the detailed manual to set up your Smart Sense 8-digit digital keypad code and register your fingerprints for biometric access. Up to 20 unique fingerprints can be stored.

Home Centric Smart Safe

Tough and rugged steel construction with smart features and quick access.

High Resolution Fingerprint Scanner

Safely Secure Your Valuables

Dual Wireless Charging Pads

Figure 4: Biometric Scanner and Keypad

4. Security Cable Installation (Optional)

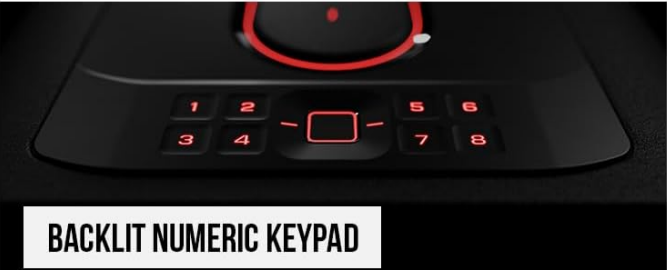

Utilize the included high-strength steel security cable to tether the safe to a secure, immovable object for added anti-theft protection. An accessory mounting plate is sold separately for hard mounting.

OPERATING INSTRUCTIONS

1. Accessing the Safe

- **Biometric Scanner:** Place your registered finger on the LED backlit HD fingerprint scanner for quick access.
- **Digital Keypad:** Enter your Smart Sense 8-digit digital keypad code. The proximity sensor auto-illuminates for easy button navigation.
- **Manual Keys:** Use the provided manual keys as a backup access method.
- **Bluetooth 2.0 App:** Swipe to unlock using the VAULTEK Bluetooth 2.0 smartphone app (within Bluetooth range).

Upon successful access, the precision-tuned rail system will automatically deploy the drawer open quickly and silently.

BACKLIT NUMERIC KEYPAD

Proximity sensor auto illuminates for quick button navigation. The master code can be 4-8 digits long.

MANUAL KEY ENTRY

Two backup manual keys are supplied to unlock your safe.

NANO KEY 2.0 **SOLD SEPARATELY**

Immediate access with the press of a button. Carry it discreetly, or hide as a **panic button**.

BIOMETRIC SCANNER

High resolution biometric scanner is capable of storing up to 20 unique fingerprints.

AUTHORIZED ENTRY

Customizable Touch Display

Interactive touch screen has customizable display options and provides visual feedback for safe.

- Show/Hide Time
- Show/Hide Temperature
- Show/Hide Humidity
- Adjust Screen Brightness
- Adjust Interior Light Brightness
- Adjust Sound Levels
- Enable/Disable Bluetooth
- Enable/Disable Nano Key
- Tamper Warning
- Low Battery Warning

Figure 5: Quick Access via Biometric Scanner

2. Charging Features

- **Dual Wireless Charging Pad:** Place compatible devices on the top-mounted wireless charging pads.
- **USB Ports:** Use the 2 USB and 2 USB-C accessory charging ports located at the back of the safe for wired charging.

3. Customizable LED Display

The sleek LED display shows time, temperature, and humidity. It can be customized or blacked out for discretion. Tap the display to cycle through different display modes or to turn it off completely.

Premium Entry Methods

[Nano Key Not Included](#)

Biometric Scanner, Numeric Keypad, Backup Keys, + our signature Nano Key 2.0.

Maximum Storage Potential

Secure a full size pistol (up to 10.875"), jewelry, small documents, and other personal belongings.

Touch Digital Display

[Adjustable Settings](#)

Sleek customizable LED display shows time/temperature/humidity and makes the ultimate modern home safe. No alarm clock.

Powerful Charging Features

Top mounted wireless charging pads quickly and efficiently charge your phone as needed. Additional charging ports (2) USB / (2) USB-C on the back.

Auto Open Door

The auto-open safe door opens quickly and quietly to provide the best possible user experience.

Anti-Theft Protection

[Optional Mounting Plate Sold Separately](#)

Signature anti-impact latch design and anti-pry construction. Safe can also detect and displays tampering on the front LED screen.

Steel Security Cable

[Optional Mounting Plate Sold Separately](#)

Included HD steel security cable can tether the safe securely in place

Power

[Power Adapter Included](#)

Safe is powered by the AC power adapter and needs to be left plugged in for normal function. In the event of power outage the backup power will provide power for about 15 hours.

Bluetooth 2.0 App

[Free Download](#)

Smart safe technology with a highly interactive experience from your smartphone within Bluetooth range to manage and open the safe.

Figure 6: Customizable LED Display

4. Bluetooth 2.0 App

Download the VAULTEK Bluetooth 2.0 app to manage and monitor safe activity from your smartphone within Bluetooth range. Features include viewing history logs, checking for tampering, and customizing safe settings (e.g., display brightness, sound levels). Bluetooth can be toggled on/off as desired.

Download the app: <https://qrco.de/bc1K7k>

5. Interior LED Light

The built-in interior LED light illuminates the contents of the drawer for easy visibility.

MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the exterior and interior surfaces of the safe. Avoid abrasive cleaners or solvents.
- **Battery Replacement:** If using AAA batteries for backup, replace them periodically or when the low battery alarm is triggered.
- **Firmware Updates:** Check the VAULTEK app for any available firmware updates to ensure optimal performance and security.

TROUBLESHOOTING

- **Safe Not Opening:**
 - Ensure the power adapter is securely connected.
 - Check backup AAA batteries if operating without AC power.
 - Verify correct keypad code or registered fingerprint.
 - Use manual keys as an override.
- **Tampering Alerts:** The safe detects tampering and activates a security sleep mode if multiple wrong codes are entered or unrecognized fingerprints are scanned. Check the app's history log for details.
- **Charging Issues:**
 - Ensure devices are properly aligned on the wireless charging pad.
 - Verify USB cables are securely connected.
 - Confirm the safe is receiving AC power.
- **Bluetooth Connectivity:** Ensure your smartphone is within Bluetooth range and Bluetooth is enabled on both the safe (via display settings) and your phone.

SPECIFICATIONS

Feature	Detail
Brand	VAULTEK
Product Dimensions	13.88"D x 10"W x 3.63"H
