Typhur HT06

Typhur InstaProbe Core 0.5 Sec Instant Read Meat Thermometer Instruction Manual

Model: HT06

INTRODUCTION

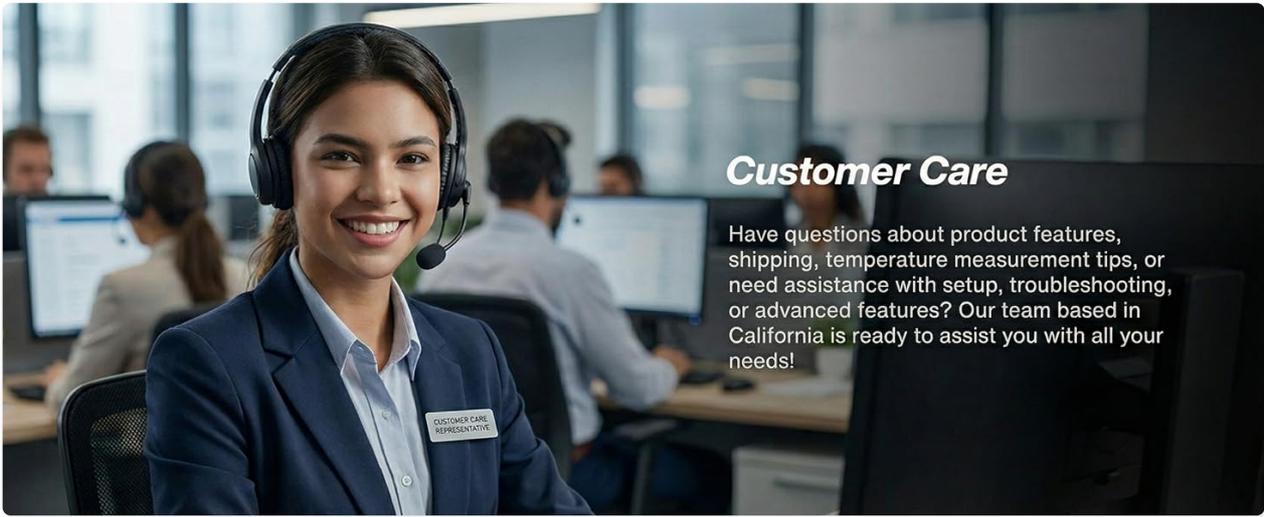

The Typhur InstaProbe Core is a professional-grade instant-read meat thermometer designed for precise temperature measurement in various cooking applications. With its rapid 0.5-second response time and NIST-certified accuracy, it ensures perfectly cooked meals every time. This manual provides essential information on setting up, operating, maintaining, and troubleshooting your device.

SETUP

- Unboxing:** Carefully remove the InstaProbe Core from its packaging. Ensure all components, including the thermometer, user guide, and 2 AAA batteries, are present.
- Battery Installation:** The device comes with 2 AAA batteries pre-installed. If replacement is needed, locate the battery compartment on the back of the device, unscrew the cover, insert new AAA batteries according to polarity, and securely close the cover.
- Initial Power-On:** To activate the thermometer, simply swing out the probe from its stored position. The digital display will illuminate automatically.

Customer Care

Have questions about product features, shipping, temperature measurement tips, or need assistance with setup, troubleshooting, or advanced features? Our team based in California is ready to assist you with all your needs!

OPERATING INSTRUCTIONS

- Power On/Off:** The device automatically powers on when the probe is swung out and powers off when the probe is folded back into its storage slot.
- Taking Temperature:** Insert the sharp tip of the probe into the thickest part of the food, avoiding bones. The temperature reading will appear on the display within 0.5 seconds.
- Display Features:**
 - **Auto-Rotate Display:** The LED screen features an ambidextrous display that automatically rotates 180 degrees for easy reading from any angle.
 - **Sunlight Readability:** The bright LED display is designed for clear visibility even in strong sunlight.
 - **Motion Sensing:** The thermometer incorporates motion-sensing features for enhanced user experience.
- Temperature Unit Conversion:** Press the '°C/°F' button located on the side of the device to switch between Celsius and Fahrenheit units.
- Temperature Lock:** Press the 'LOCK' button to hold the current temperature reading on the display. Press again to unlock.
- Magnetic Storage:** The InstaProbe Core features an integrated magnet on its base, allowing for convenient storage on metallic surfaces like refrigerators or grills.

MAINTENANCE

- **Cleaning:** The InstaProbe Core is IP67 waterproof, allowing for effortless cleaning. Rinse the probe and body under running water after each use. Hand wash only. Ensure the device is completely dry before storing.
- **Battery Replacement:** When the battery indicator on the display shows low power, replace the 2 AAA batteries. Unscrew the battery compartment cover, replace the old batteries with new ones, and secure the cover.
- **Storage:** Fold the probe back into its designated storage slot. Utilize the integrated magnet for convenient storage on metal surfaces, or store in a dry place away from extreme temperatures.

Effortless Cleaning IP67 Waterproof

TROUBLESHOOTING

- **No Display/Power:** Ensure the probe is fully extended. Check if the batteries are correctly installed and have sufficient charge. Replace batteries if necessary.
- **Inaccurate Readings:** Verify the probe is inserted into the thickest part of the food, avoiding bones. Perform an ice water calibration if you suspect significant inaccuracy (refer to the user manual for detailed calibration steps).
- **Display Not Rotating:** The auto-rotate feature relies on motion sensing. Ensure the device is moved slightly to trigger the rotation.

SPECIFICATIONS

Feature	Detail
---------	--------

Feature	Detail
Brand	Typhur
Model Name	HT06
Reading Speed	0.5 seconds
Precision	±0.5°F
Waterproof Rating	IP67
Display Type	Digital LED
