SJCAM C110+ Action Camera Accessories Kit User Manual

Model: C300 Kits

1. INTRODUCTION

This manual provides comprehensive instructions for the SJCAM C110+ Action Camera Accessories Kit. This kit is designed to enhance your action camera experience by offering versatile mounting solutions for various activities. It includes a magnetic lanyard, a head strap, and bike stands, enabling hands-free recording from different perspectives.

2. KIT COMPONENTS AND SETUP

The SJCAM C110+ Action Camera Accessories Kit includes the following components:

- Magnetic Lanyard
- Adjustable Head Strap
- Bike Handlebar Mounts

Figure 2.1: Overview of the SJCAM C110+ Action Camera Accessories Kit components.

2.1. Magnetic Lanyard Setup

The magnetic lanyard allows for easy, hands-free recording from a first-person perspective. To use, wear the pendant under your shirt with the dotted outline facing outwards. The camera will magnetically attach to the pendant through your clothing.

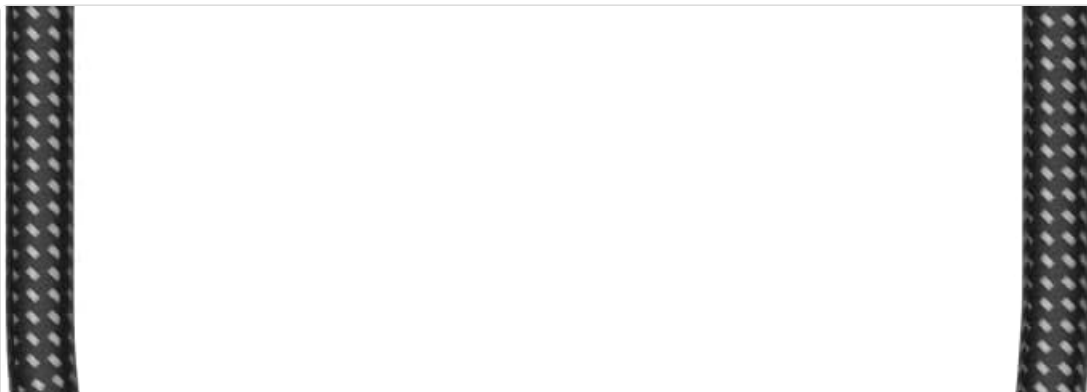

Figure 2.2: Proper wearing of the magnetic lanyard. Ensure the dotted outline faces outwards.

Important Safety Note: Do not use the magnetic lanyard if you have a pacemaker.

2.2. Head Strap Setup

The adjustable head strap provides a stable mount for your action camera on your head, ideal for capturing point-of-view footage during activities like hiking or climbing. Adjust the straps to ensure a snug and comfortable fit. The camera attaches to the standard action camera mount on the front of the strap.

2.3. Bike Stands Setup

The bike stands are designed to securely attach your action camera to bicycle handlebars or other similar cylindrical structures. Open the clamp, position it around the handlebar, and tighten the screw until the mount is firm and stable. Ensure the camera is securely fastened to the mount before riding.

3. OPERATING THE ACCESSORIES

Once your SJCAM action camera is securely mounted using the desired accessory, you can begin recording. These accessories are designed to provide stable footage for various dynamic activities.

- **Magnetic Lanyard:** Best for casual, hands-free recording of daily life or vlogs where the camera needs to be easily accessible and provide a chest-level perspective.
- **Head Strap:** Ideal for capturing immersive first-person perspective (POV) footage during activities such as biking, climbing, hiking, or exploring.
- **Bike Stands:** Perfect for recording your cycling adventures, providing a stable view of the road ahead or your surroundings from the bike's perspective.

4. MAINTENANCE

Proper maintenance ensures the longevity and optimal performance of your SJCAM accessories.

- **Cleaning:** Wipe down all accessories with a soft, damp cloth after use, especially if exposed to dirt, sweat, or saltwater. Avoid harsh chemicals.
- **Storage:** Store accessories in a cool, dry place away from direct sunlight and extreme temperatures.
- **Inspection:** Regularly inspect straps, buckles, and screws for any signs of wear, damage, or loosening. Replace or tighten components as needed to ensure secure camera mounting.

5. TROUBLESHOOTING

If you encounter issues with your SJCAM accessories, refer to the following common problems and solutions:

- **Accessory feels loose:** Ensure all straps are tightened and buckles are securely fastened. For bike mounts, re-tighten the screw clamp.
- **Camera footage is shaky:** Verify that the camera is firmly attached to the accessory. Ensure the accessory itself is stable on your body or mounting surface.
- **Magnetic lanyard not holding camera:** Check that the pendant is worn correctly under your shirt with the dotted side facing out. Ensure no thick clothing layers are interfering with the magnetic connection.

For persistent issues, please contact SJCAM customer support.
