PIC TORCH-PATIO

PIC TORCH-PATIO Tabletop Solar Mosquito Repellent with
Flame Effect User Manual

Model: TORCH-PATIO

PRODUCT OVERVIEW

The PIC Flame Effect Tabletop Mosquito Repellent provides a 15-foot zone of protection against mosquitoes. It utilizes an essential oil formula and features an auto-activating LED flame effect for ambiance. Designed for both day and night use, this device is solar-powered and includes an 18-hour starter refill cartridge.

MAINTENANCE

Refill Cartridge Replacement

- The included cartridge provides up to 18 hours of protection.
- An indicator light on the device signals when it is time to replace the cartridge.
- To replace, twist the old cartridge counter-clockwise to remove it, then insert a new PIC refill cartridge and twist clockwise to secure. Refill cartridges are sold separately.
- Compatible with 72-hour refill cartridges for extended use.

Cleaning

Wipe the exterior of the device with a soft, damp cloth as needed. Do not submerge the device in water or use harsh chemicals.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Device not turning on.	Low battery or not charged.	Ensure the device is fully charged via solar power (direct sunlight) or USB-C cable.
Mosquito repellent not effective.	Cartridge empty or improperly installed. Device placed in too large an area.	Check the cartridge indicator light and replace if necessary. Ensure cartridge is twisted in fully. Verify the device is placed within a 15-foot area. Allow 10-15 minutes for the protection zone to establish.
Flame effect not working or not auto-activating at dusk.	Flame effect button not pressed. Insufficient light for auto-activation.	Press the flame effect button. Ensure the device is in a location where it can detect ambient light changes for auto-activation.
