Aroepurt IMDZ-HUA2

HUAVI Gold 77 Phone Case Cover User Manual

Model: IMDZ-HUA2

PRODUCT OVERVIEW

Thank you for choosing the Aroepurt HUAVI Gold 77 Phone Case Cover. This product is designed to provide robust protection and enhanced functionality for your HUAVI Gold 77 phone. It includes a durable phone case and a tempered glass screen protector.

The complete package includes the phone case with a floral design, an integrated ring stand, and a separate tempered glass screen protector.

Key Features:

- **Frosted Surface with Colorful Reflect Light:** The case features a frosted surface that offers a delicate tactile feel and produces colorful light reflections from different angles.
- **Integrated Ring Support:** An adhesive metal finger ring is included, which can be attached to the case or used separately. It supports 360-degree rotation and is compatible with car bracket magnetic suction mounts.
- **Advanced Protection Structure:** Constructed with a hard PC back panel, a soft silicone frame, and four-corner shock airbags for enhanced impact absorption.
- **Multi-Layer Back Panel:** The back side comprises four layers: a solid PC base, an ultra-high definition pattern layer, a special process layer, and a clear, scratch-resistant surface layer.
- **Elevated Bezels:** The case design ensures that it is higher than both the camera and the screen, providing superior

flat surface protection against scratches and impacts.

WHAT'S IN THE BOX

- 1 x HUAVI Gold 77 Phone Case Cover (Model: IMDZ-HUA2)
- 1 x Tempered Glass Screen Protector

SETUP AND INSTALLATION

Installing the Phone Case:

1. Ensure your HUAVI Gold 77 phone is clean and free of dust or debris.
2. Align the phone with the soft silicone frame of the case.
3. Gently press the phone into the case, ensuring all corners and edges are securely seated within the silicone frame. The case's design with thickened corners and shock airbags will provide a snug fit and enhanced protection.
4. Verify that all ports, buttons, and camera cutouts align correctly with your phone.

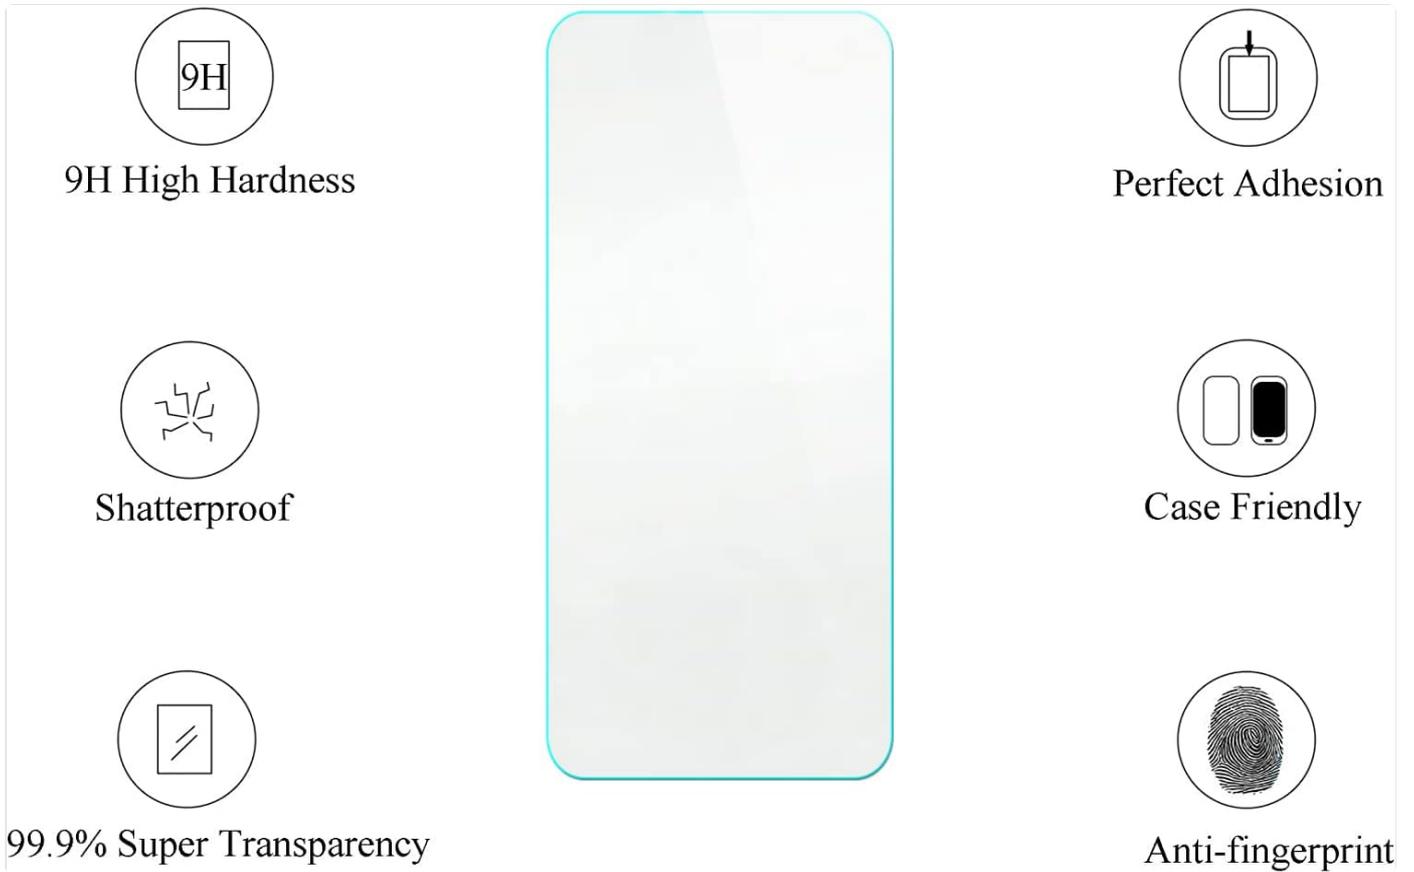

The case features a soft silicone frame and hard PC backplane with thickened four corners and a silicone buffer layer for shock absorption, protecting the screen and camera.

Installing the Tempered Glass Screen Protector:

1. Clean your phone screen thoroughly using an alcohol wipe and microfiber cloth (not included) to remove all dust, smudges, and fingerprints.
2. Carefully peel off the protective film from the adhesive side of the tempered glass screen protector. Avoid touching

the adhesive surface.

3. Align the screen protector precisely with your phone's screen, paying attention to the cutouts for the speaker and camera.
4. Once aligned, gently lower the screen protector onto the screen. It will adhere automatically.
5. If any air bubbles appear, gently push them towards the edges using a clean cloth or a credit card.

The tempered glass screen protector offers 9H High Hardness, is Shatterproof, provides 99.9% Super Transparency, Perfect Adhesion, is Case Friendly, and is Anti-fingerprint.

Scratch Proof

Scratch proof screen effectively avoids sharp objects scratching or abrasion

The scratch-proof screen protector effectively prevents sharp objects from scratching or abrading the phone screen.

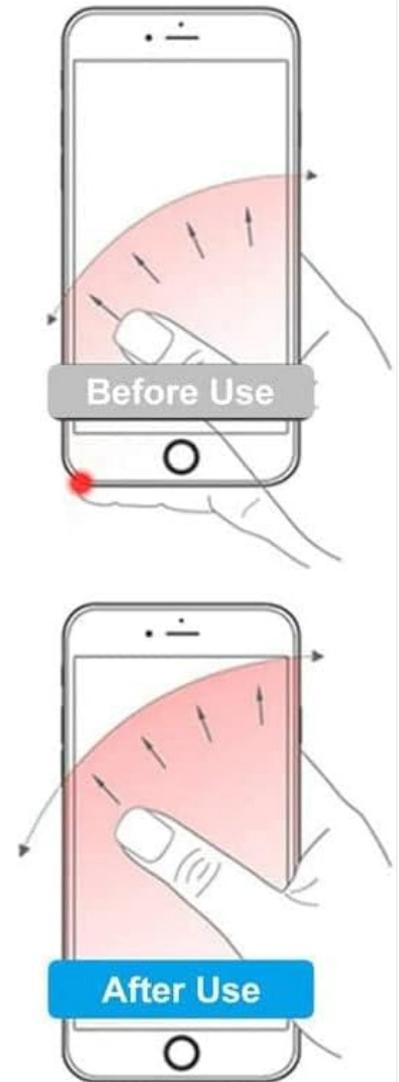

OPERATING INSTRUCTIONS

Using the Integrated Ring Stand:

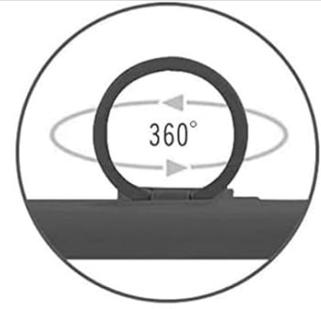

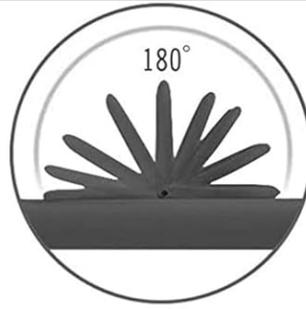

- **Enhanced Grip:** Insert your finger through the ring to secure a better grip on your phone, reducing the risk of accidental drops, especially during one-hand operation.
- **Kickstand Function:** Rotate the ring to a desired angle (up to 180 degrees) to prop up your phone horizontally or vertically for hands-free viewing of videos or video calls.
- **Magnetic Car Mount Compatibility:** The metal ring on the back of the case is designed to attach to magnetic car mounts (not included) for convenient navigation or media viewing while driving.

One-Hand Operation

Touch more spots on the screen

The ring stand facilitates easier one-hand operation by allowing users to reach more spots on the screen.

SUPPORT MAGNETIC CAR MOUNT

Not include magnetic car mount,
not support wireless charging.

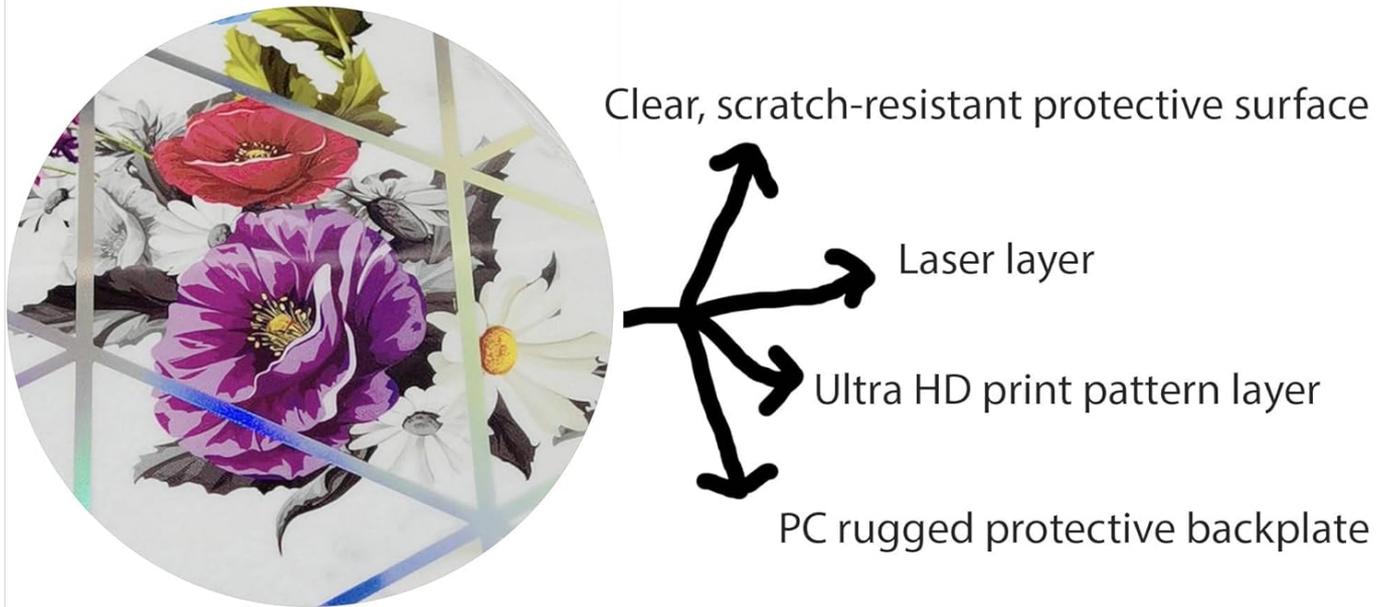

The ring stand supports 180-degree and 360-degree rotation and is compatible with magnetic car mounts. Please note, a magnetic car mount is not included, and wireless charging is not supported with the case on.

Understanding the Case Design:

- The IMD laser style back panel creates different color reflection effects when viewed from various angles, adding a unique aesthetic to your phone.

IMD laser style

Different angles will produce different color reflection effects

The back panel is composed of a clear, scratch-resistant protective surface, a special process layer, an ultra HD print pattern layer, and a PC rugged protective backplate, creating the IMD laser style effect.

MAINTENANCE AND CARE

- **Cleaning the Case:** Use a soft, damp cloth to wipe down the phone case. Avoid harsh chemicals or abrasive materials that could damage the finish or design.
- **Cleaning the Screen Protector:** For the tempered glass screen protector, use a microfiber cloth to gently wipe away fingerprints and smudges. For stubborn marks, a screen cleaning solution designed for electronics can be used.
- **Storage:** When not in use, store the case and screen protector in a clean, dry place away from direct sunlight and extreme temperatures.
- **Ring Stand Care:** Ensure the ring stand rotates smoothly. If it becomes stiff, gently clean around the pivot point. Avoid excessive force when rotating.

TROUBLESHOOTING

- **Case not fitting properly:** Ensure you have the correct model of phone (HUAWEI Gold 77) for this case. Re-align the phone within the case, ensuring all corners snap into place.
- **Bubbles under screen protector:** If bubbles persist after installation, gently lift the nearest edge of the protector

and re-apply, pushing the bubble out with a clean cloth. Small bubbles may disappear over 24-48 hours.

- **Ring stand stiffness:** If the ring stand is stiff, ensure no debris is lodged in the hinge. Gentle, consistent rotation should loosen it over time. Avoid applying lubricants.
- **Magnetic mount not holding:** Ensure your magnetic car mount is strong enough and properly installed. The case's ring is designed for magnetic attraction, but the strength depends on the mount itself.

SPECIFICATIONS
